Dear Sir

Section 16 Planning Application for Proposed House Development in "Residential (Group D)" Zone at Lot No. 344B S.2 RP and Adjoining Government Land in D.D. 94, No. 106 Hang Tau Road, Kwu Tung South, New Territories (Application No. A/NE-KTS/528)

We refer to the captioned application which was submitted to the Town Planning Board (the Board) on 19 April 2023 and the comments from the District Planning Office / Fanling, Sheung Shui and Yuen Long East (DPO/FSS&YLE) and the Lands Department received in May and June 2023 respectively.

In response to the comments from DPO/FSS&YLE received on 19 May 2023, please find below our clarifications for consideration:

- a) Referring to paragraph 3.1.3 of the submitted Planning Statement, we would like to clarify that *"the additional GFA as compared to that in the approved application no. A/NE-KTS/460 will be distributed at the backyard of the proposed house only"* means that there will not be any additional GFA being protruding out of the original footprint of the house blocks at the front yard facing Hang Tau Road.
- b) As compared with the approved scheme, the current proposed scheme involves minor increase in GFA of about 47.12m² only. Such minor increase in GFA could be absorbed into the original bulk of the house blocks through reshuffling of internal layout to better utilize the floor area more efficiently and reducing the space occupied by E&M facilities. Therefore, the blockings in the current proposed scheme will be more or less the same as those in the approved application no. A/NE-KTS/460.
- c) A plan comparing the blockings of the approved scheme and the current proposed scheme is provided as **Figure A** (70 copies) in this clarification letter for reference. It demonstrates that the bulk of blockings remain largely the same, and only takes the opportunity to slightly shift the disposition of blockings away from Hang Tau Road so as to further enhance the distance away from the carriageway.

In response to the comments from Lands Department received on 24 May 2023 via DPO/FSS&YLE, we hereby submit 70 copies of **Figure B** to show the respective area of private lot and Government land involved in the Application Site.

With regard to the enquiry from DPO/FSS&YLE on inclusion of additional government land in the application site received on 1 June 2023, please find below our clarifications for consideration:

- a) The previous Approved Scheme (A/NE-KTS/460) was approved by the Board on 21 December 2018. Subsequently, the Applicant proceeded to detailed setting out of the lot boundary and submitted a land exchange application, during which the Applicant agreed to accept the inclusion of some additional unallocated and unattended government land adjoining the site for the sake of better utilization of land resources.
- b) However, to facilitate the inclusion of additional government land, with corresponding increase in GFA, a Section 16 planning application is required. During the preparation of the Section 16 planning application, different considerations have to be taken into account:
 - Technical consideration – With an increase in site area, the proposed GFA will also be increased correspondingly based on a plot ratio of 0.4. Technical acceptance of the Proposed Scheme by relevant technical departments would be required.
 - Concern of the general public – In general, when considering a Section 16 planning application, we understood that whether the proportion of government land included within the application site is excessive or not would be a consideration. During public inspection of a Section 16 planning application, the general public may also raise concern about whether the inclusion of additional government land would be appropriate or not.
- c) Balancing various considerations, it is therefore proposed to increase the site area by 10% only, as compared with the Approved Scheme, which shall be considered as minor in nature by the Board. The proportion of government land within the application site would be about 19% of the total site area, which in general shall be considered as appropriate and not excessive. Furthermore, the corresponding increase in GFA by 10% is also considered to be technically acceptable by relevant technical departments.

As the above serves as clarifications only, and given the effort paid by the Applicant to address comments received, we sincerely request that the Board could consider the captioned application favourably.

Please note that this letter serves to supersede the letter submitted to the Board on 2 June 2023.

Recommended Advisory Clauses

- (a) To note the comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD) that:
- Should the subject planning application be approved, the lot owner should apply to LandsD for a land exchange for implementation of the approved planning scheme. Such application will be considered by LandsD acting in the capacity as landlord at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including but not limited to the payment of an administrative fee and premium as the government sees fit; and
 - Setting aside the said Government land (GL) of around 248.8m², please note that the application site adjoins another parcel of GL (Further GL) on its eastern side. It appears that the Further GL would become land-locked and sterilised in case it is left idle and not included in the subject application. As reiterated in previous correspondence, please consider to include the Further GL into the subject proposal for maximising the use of scarce land resources.
- (b) To note the comments of Director of Agriculture, Fisheries and Conservation (DAFC) that:
- There is a pond located to the east of the Site. The applicant is advised to avoid adverse impact to the pond nearby.
- (c) To note the comments of Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
- Details comments will be provided upon receipt of the drainage and sewerage proposal, for instance, sewer connection pipes should have size of at least 200mm diameter and the terminal manholes should be located with the lot as near to the lot boundary as possible.
- (d) To note the comments of Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that:
- Approval of the application does not imply approval of tree works, if any, such as pruning, transplanting and felling. Application for any tree works should be submitted direct to relevant authority(ies) for approval.
- (e) To note the comments of Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
- If the existing structures are erected on leased land without approval of BD (not being a New Territories Exempted House), they are unauthorized under the Buildings Ordinance (BO) and should not be designated for any approved use under the application;
 - Before any new building works (including containers/open sheds as temporary buildings) are to be carried out on the Site, the prior approval and consent of the BD should be obtained, otherwise they are Unauthorised Building Works (UBW). An Authorised Person (AP) should be appointed as the coordinator for the proposed building works in accordance with the BO;

- For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO; and
- Detailed consideration will be made at the building plan submission stage.

(f) To note the comments of the Director of Electrical and Mechanical Services (DEMS) that:

- In the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organising and supervising any activity near the underground cable or overhead line under the mentioned document should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site. They should also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation when carrying out works in the vicinity of the electricity supply lines.

Dear TPB Members,

It is shocking that swathes of 'GB' and farmland are being destroyed to build houses while in this case almost 250sq.m of government land, that could accommodate two homes, is to be granted to expand the foot print of two only homes.

But then of course we know that the bleating about land for housing is nothing more than an excuse to cement over the entire territory.

Object to the granting of additional public land for this development.

Dear TPB Members,

If there is such a shortage of land for housing that we keep hearing about that incites demands for incursions into country parks and redevelopment of the Hong Kong Golf Course, then surely it is about time that some restrictions be imposed on the amount of land to be dedicated to a single home?

All over the city small recreational spaces like basketball courts and open spaces that provide much needed breathing space for hundreds of people are being requisitioned under the excuse that we must all make sacrifices to provide more land for housing.

In light of these circumstances to devote 1,200+sqmts to two residence is surely obscene. The plan includes Government land that should be used more prudently.

Can members please raise the issue of what should be the maximum amount of land dedicated to one house in order to ensure efficient use of, according to the government, limited land resources.

Mary Mulvihill
