**Relevant Interim Criteria for Consideration of Application for  
New Territories Exempted House (NTEH)/Small House in New Territories**  
**(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very

special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

\*i.e. The applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

7.	A/NE-KTS/431	Proposed House (New Territories Exempted House - Small House)	25.11.2016	(1), (2) and (3)

**Rejection Reasons:**

- (1) Not in line with the planning intention of the “AGR” zone.
- (2) Land is still available within the “V” zone of Chan Uk Po, Tsiu Keng. Village house development should be sited close to the village proper for more orderly development pattern, efficient use of land and provision of infrastructure and services.
- (3) Not complying with the Interim Criteria in that more than 50% of the site and/or the footprint of the proposed Small House(s) fall outside both the ‘VE’ and “V” zone of Chan Uk Po, Tsiu Keng.

**Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls entirely within the Village 'Environ' ('VE') of Tsiu Keng (Tsiu Keng Chan Uk Po);
- (b) the Small House application is still under processing. The applicant claimed himself as an indigenous villager of Sheung Shui Village, Sheung Shui Heung. His eligibility for Small House concessionary grant has yet to be ascertained;
- (c) the Site is an Old Schedule Agricultural Lot held under Block Government Lease; and
- (d) the number of outstanding Small House applications for Tsiu Keng is 37. As provided by the Indigenous Inhabitant Representative of Tsiu Keng on 18.4.2024, the number of 10-year Small House demand for the whole Tsiu Keng is 160.

**2. Environment**

2.1 Comment of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

the Site is in an area where no public sewerage connection is available.

2.2 Comments of the Director of Environmental Protection:

- (a) in view of the small-scale nature of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 1/23 Drainage Plans duly certified by an Authorized Person.

**3. Drainage**

Comment of the CE/MN, DSD:

- (a) he has no objection to the application from public drainage viewpoint; and
- (b) the Site is in an area where no DSD stormwater drain is available.

#### **4. Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) he has no objection to the application; and
- (b) for provision of water supply to the development, the applicant may need to extend his inside services to the nearest suitable Government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standard.

#### **5. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department:

- (a) she has no objection to the application from the landscape planning perspective;
- (b) with reference to the aerial photo of 2023, the Site is situated in an area of rural inland plain landscape character comprising village houses, farmland, vacant lands and clutters of trees. With reference to the aerial photos of 2023 and 2019, there is no significant change in the landscape character of the adjacent areas of the Site. The proposed development is considered not incompatible with the landscape setting in the proximity; and
- (c) based on site photos taken on 20.9.2024, the Site was vacant covered with self-seeded vegetation. A few fruit trees are observed close to the boundary of the southern corner of the Site. No landscape resources of high sensitivity are observed within the Site. Significant adverse landscape impact within the Site arising from the proposed development is not anticipated.

#### **6. Fire Safety**

Comments of the Director of Fire Services:

- (a) he has no objection in principle to the application provided that the proposed house would not encroach on any existing or planned Emergency Vehicular Access under application in accordance with LandsD's record; and
- (b) the applicant is reminded to observe 'New Territories Exempted Houses - A Guide to Fire Safety Requirements', which is administered by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD.

本人反對新界上水蕉徑村丈量約份第100約  
地段第1228號A分段興建屋宇，因為這地段乃是  
陳屋埔的風水命脈如建屋宇層破壞風水，  
恐防影響本村村民健康及財運。

故此本人強烈反對以上地段興建屋宇！

**Recommended Advisory Clauses**

- (a) To note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works;
- (b) To note the comments of the Director of Environmental Protection that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 1/23 Drainage Plans duly certified by an Authorized Person.
- (c) To note the comments of the Chief Engineer/Construction, Water Supplies Department that for provision of water supply to the development, the applicant may need to extend his inside services to the nearest suitable Government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to his department's standard;
- (d) To note the comments of the Director of Fire Services to observe 'New Territories Exempted Houses - A Guide to Fire Safety Requirements' administrated by the Lands Department. Detailed fire safety requirements will be formulated upon receipt of formal application referred by the Lands Department;
- (e) To note the comments of the Director of Electrical and Mechanical Services that in the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organizing and supervising any activity near the underground cable or overhead line under the mentioned document should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site. They should also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation when carrying out works in the vicinity of the electricity supply lines; and
- (f) To note the comments of the Chief Engineer/Mainland North, Drainage Services Department that the site is in an area where no public sewerage connection and stormwater drain is available.
