Relevant Interim Criteria for Consideration of
Application for New Territories Exempted House (NTEH)/Small House in New Territories
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and

- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- *i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

*3: The approved application no. A/NE-LK/94 involves the same site as the application no. A/NE-LK/135

Rejection Reasons:

- R1 The proposed development was not in line with the planning intention of the "Agriculture" zone in the Luk Keng and Wo Hang area which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the submission for a departure from the planning intention.
- R2 The proposed development was not in line with the planning intention of the "Green Belt" ("GB") zone in the Luk Keng and Wo Hang area which was primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl as well as to provide passive recreational outlets. There was a general presumption against development within this zone. There was no strong planning justification in the submission for a departure from the planning intention.
- R3 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories and Town Planning Board Guidelines No. 10 on 'Application for Development within "GB" Zone under Section 16 of the Town Planning Ordinance' in that the proposed development would involve clearance of vegetation and would affect the existing natural landscape on the surrounding environment.
- R4 Land was still available within the "Village Type Development" zone of Ma Tseuk Leng, Ma Tseuk Leng San Uk Ha and Shek Kiu Tau village cluster where land was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for orderly development pattern, efficient use of land and provision of infrastructures and services.
- R5 The approval of the application would set an undesirable precedent for similar applications in the area. The cumulative impacts of approving such applications would result in a general degradation of the environment and landscape quality of the area.
- R6 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that the proposed development would cause adverse drainage impacts on the surrounding areas.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Sites fall within the village environ of Ma Tseuk Leng;
- (b) the applicants claimed themselves to be the indigenous villagers of Ma Tseuk Leng, Sha Tau Kok Heung. Their eligibilities for Small House grants have been ascertained;
- (c) the subject lots are not covered by any Modification of Tenancy/Building Licence;
- (d) all the Small House applications are under processing; and
- (e) there is no “Fung Shui” area at Ma Tseuk Leng.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the subject applications. Such type of developments should be confined within the “Village Type Development” (“V”) zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of developments outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial;
- (b) notwithstanding the above, the applications only involve the construction of one Small House on each Site and she considers that the applications can be tolerated unless being rejected on other grounds; and
- (c) the local village access leading to the Sites from Sha Tau Kok Road (Wo Hang) is not managed by Transport Department.

Comments of the Chief Highway Engineer/New Territories East, Highways Department (HyD):

- (a) no comment on the planning applications; and
- (b) the access road adjacent to the Sites is not maintained by HyD.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed developments, the applications are unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements

of the ProPECC PN 1/23 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person.

4. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the applications from the landscape planning perspective; and
- (b) the Sites are located in an area of settled valleys landscape character comprising village houses, vegetation area and tree clusters. Based on aerial photos, the Sites are covered with self-seeded vegetation with no existing trees. Significant adverse impacts on the landscape character and existing landscape resources within the Sites arising from the proposed development is not anticipated.

5. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the applications from the public drainage viewpoint;
- (b) the Sites are in an area where public sewerage connection is not available. Environmental Protection Department should be consulted regarding the sewage treatment/disposal facilities for the proposed developments.

6. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the Sites fall within the “AGR” zone and are generally abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water sources are also available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. As the Sites possess potential for agricultural rehabilitation, the proposed development is not supported from agricultural perspective.

7. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the applications provided that the applications would not encroach on any existing Emergency Vehicular Access (EVA) or planned EVA under application in accordance with LandsD’s record; and
- (b) the applicants are reminded to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ which is administered by the LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD.

8. Demand and Supply of Small House Sites

According to DLO/N's records, the total number of outstanding Small House applications for Ma Tseuk Leng & San Uk Ha and Shek Kiu Tau village cluster is 28 while the 10-year Small House demand forecast for the same village is 693. According to the latest estimate by PlanD, about 1.7 ha (equivalent to 67 Small House sites) of land are available within the "V" zones of Ma Tseuk Leng & San Uk Ha and Shek Kiu Tau village cluster for Small House development. There is insufficient land in the "V" zones of Ma Tseuk Leng & San Uk Ha and Shek Kiu Tau village cluster to meet the future demand of land for Small House development (i.e. about 18.0 ha of land which is equivalent to 721 Small House sites).

Recommended Advisory Clauses

- (a) to note the comments of Director of Fire Services that the applicants should observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by Lands Department (LandsD). Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD;
- (b) to note the comments of the Director of Environmental Protection that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 1/23 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person;
- (c) to note the following comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the Sites are in an area where public sewerage connection is not available. Environmental Protection Department should be consulted regarding the sewage treatment/disposal facilities for the proposed developments; and
- (d) to note the comments of the Chief Engineer/ Construction, Water Supplies Department (CE/Construction, WSD) that for provision of water supply to the developments, the applicants may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD’s standards;
- (e) to note the comments the Chief Building Surveyor/New Territories West, Buildings. Department (CBS/NTW, BD) that:
 - in case District Lands Officer/ North (DLO/N) decided not to issue the certificates of exemption for the site formation works and/ or drainage works associated with the New Territories Exempted House (NTEH) development, formal application for approval and consent for such works from the Building Authority under the Buildings Ordinance is required. In the circumstance, an Authorized Person (AP) should be appointed as the coordinator for the proposed works. The applicants may approach DLO/N or seek AP’s advice for details; and
 - the applicants’ attention is drawn to the Practice Note for Authorized Persons, Registered Structural Engineers and Registered Geotechnical Engineers APP-56 regarding the exemption criteria for site formation works associated with the NTEH development; and
- (f) to note that the permissions are only given to the developments under applications. If provision of an access road is required for the proposed developments, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permissions from the Town Planning Board where required before carrying out the road works.
