太埔林村新村申請編號 A/NE-LT/750 to 753

本人為上述 4 個申請之代理人，現就 貴處轉介運輸署對相關申請之意見再作以下陳述，上述擬發展之 4 座屋宇均沒有計劃會設置泊車位置，故亦沒有規劃車輛通道，申請地點毗鄰便是林錦公路，相關村民於日後入伙居住時，使用公共交通工具出入應付起居生活是十分方便，如真的有需要停泊車輛，申請地點附近亦有不少閒置空地，平時隨意亦可利用停泊，懇請明察，祝安！

貴會檔號：TPB/A/NE-LT/750-753

致：城市規劃委員會秘書

大埔林村新村申請編號 A/NE-LT/750 to 753

本人為上述 4 個申請之代理人，早前曾於 6 月 8 日向 貴會取消之前提交之補充資料，現就 貴會轉介數個部門對相關申請之意見作以下補充陳述：—

一. 就運輸署對之意見的回應：—

上述擬發展之 4 座屋宇之申請地點毗鄰便是林錦公路，相關村民於日後入伙居住時，使用公共交通工具出入應付起居生活是十分方便，而申請地段本身亦有閒置空地，隨函之附圖可見除建屋之外仍有不少空地；

二. 就渠務署之意見的回應：—

由於申請位置附近暫時可接駁之公共排污渠口在工程技術上相當難度，故申請人亦同意渠務署之建議，現階段先可建造環保式化糞池用作排污，日後渠務署再加建排污渠接駁設施時，申請人聲明會立即進行排污渠接駁工程，並將化糞池填封；

三. 就水務署之意見的回應：—

請參閱第二項回應渠務署之意見，申請人已同意水務署建議先建造環保式化糞池，懇請水務署亦可接納。

懇請 貴處轉介以上回應給各部門參閱。祝安！

**Relevant Revised Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories**
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water

gathering grounds will not be affected by the proposed development[^]);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

[^]i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

A/NE-LT/589	Proposed 5 Houses (New Territories Exempted Houses - Small Houses)	23.12.2016	R1-R3

Rejection Reasons

- R1. The proposed development did not comply with the interim criteria for assessing application for New Territories Exempted House (NTEH) / Small House development in the New Territories in that it was not able to be connected to existing or planned sewerage system in the area. There was also no information in the submission to demonstrate that the proposed development located within the water gathering grounds would not cause adverse impact on water quality in the area.
- R2. The proposed development was not in line with the planning intention of the “Agriculture” zone which was primary to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the current submission for a departure from the planning intention.
- R3 Land was still available within the “Village Type Development” (“V”) zones of Lam Tsuen San Tsuen and San Tsuen Lo Wai which was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development within the “V” zone for more orderly development pattern, efficient use of land and provision of infrastructure and services.

A/NE-LT/435	Proposed Two Houses (New Territories Exempted Houses (NTEHs) - Small Houses)	22.7.2011	R1 – R3

Rejection Reasons

- R1. The proposed development did not comply with the interim criteria for assessing application for New Territories Exempted House (NTEH) / Small House development in the New Territories in that it was not able to be connected to existing or planned sewerage system in the area. There was also insufficient information in the submission to demonstrate that the proposed development located within the water gathering grounds would not cause adverse impact on water quality in the area.
- R2. The proposed development did not comply with the ‘Interim Criteria for Consideration of Application for NTEH/Small House in New Territories’ in that there was no general shortage of land in meeting the demand for Small House development in the “Village Type Development” (“V”) zone of Lam Tsuen San Tsuen and the proposed houses might not be able to be connected to the planned public sewers in the area.
- R3. Small Houses should be developed within the “V” zone so as to ensure an orderly development pattern, efficient use of land and provision of infrastructures and services.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD):

- (a) the applicants are indigenous villagers of Lam Tsuen San Tsuen as confirmed by their Indigenous Inhabitant Representative (IIR). However, the eligibilities of Small House grant of the applicants have yet to be ascertained;
- (b) the Sites are held under Block Government Lease (demised for agricultural use) and are not covered by Modification of Tenancy or Building Licence;
- (c) no valid Small House application has been received from the applicants;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand for the village concerned are as follows:

<u>Village</u>	<u>No. of outstanding Small House applications</u>	<u>No. of 10-year Small House demand*</u>
San Tsuen Lo Wai and Lam Tsuen San Tsuen	34	99

(*The figure of 10-year Small House demand is estimated and provided by the IIR of Lam Tsuen San Tsuen and the information so obtained is not verified in any way by DLO/TP, LandsD)

- (e) the proposed Small Houses would not encroach on existing/planned Emergency Vehicular Access (EVA).

2. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) the Sites are zoned “Agriculture” and planted with some fruit trees. There are active agricultural activities in the vicinity, and agricultural infrastructure such as road access and water source is available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc.
- (b) the Sites possess potential for agricultural rehabilitation. As such, the applications are not supported from agricultural point of view.

3. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) Small House development should be confined within the “Village Type

Development” (“V”) zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and

- (b) notwithstanding the above, the applications only involve development of four Small Houses could be tolerated on traffic grounds.

4. Environment

Comments of the Director of Environmental Protection (DEP):

- (a) the Sites fall completely outside “V” zone and are within water gathering ground (WGG). The Hong Kong Planning Standards and Guidelines mentions that ‘use of septic tank/soakaway systems should be avoided’ for development within WGG. While public sewer capacity at Lam Kam Road is available for proposed Small Houses, it is noted from DSD that the applicants have not demonstrated a feasible connection to public sewerage. Therefore, he does not support the applications unless with the following conditions:
 - (i) the applicants should properly address the DSD’s technical considerations of the proposed sewerage works and ensure the sewer connection is technically feasible;
 - (ii) written consent should be obtained from the adjacent lot owners for laying and maintaining sewage pipes for the proposed Small Houses;
 - (iii) adequate land should be reserved by the applicants for connection of the proposed Small Houses to the public sewer; and
 - (iv) the applicants shall connect the Small Houses with public sewer for sewage disposal and shall bear the cost of connection.
- (b) there is no programme for extension of public sewers in the vicinity of the Sites.

5. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the applications from the landscape planning perspective; and
- (b) the Sites are located in an area of settled valleys landscape character comprising village houses, temporary structures, farmland, vegetated areas and clusters of tree groups. The Sites are mainly covered by self-seeded vegetation. Some fruit trees of common species are found within and along the site boundary. Significant adverse impact on existing landscape resources within the Sites and the landscape character arising from the proposed Small Houses are not anticipated.

6. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) if the applications are approved, a condition on submission and implementation of a drainage proposal for the Sites is required to ensure that it will not cause adverse drainage impact to the adjacent area; and
- (b) DSD's maintained public sewers exist in the vicinity but connection to the nearby public sewerage by gravity may not be possible unless there will be substantial landfilling at the existing ground.

7. Fire Safety

Comments of the Director of Fire Services (D of FS):

- no in-principle objection to the applications provided that the proposed Small Houses would not encroach on any existing or planned EVA.

8. Water Supply

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) objects to the applications; and
- (b) the Sites are located within upper indirect WGG. It is noted from DSD that the feasibility of the proposed sewer connection works and filling works were doubtful. It is thus considered that compliance with the "Interim Criteria for Consideration of Applications for NTEH/Small House in NT" item B(i) cannot be established.

9. Demand and Supply of Small House Sites

According to the DLO/TP, LandsD's record, the total number of outstanding Small House applications for San Tsuen Lo Wai and Lam Tsuen San Tsuen is 34 while the 10-year Small House demand forecast for the same villages is 99. Based on the latest estimates by the Planning Department, about 2.01 ha of land (or equivalent to about 80 Small House sites) are available within the "V" zone of the concerned villages. Therefore, the land available cannot fully meet the future demand of 133 Small Houses (equivalent to about 3.33 ha of land).

Details of the Comment (use separate sheet if necessary)

As a resident at Lam Tsuen Valley, I am writing to express my concerns on the applications of proposed houses at the following locations:-

Lots 1014 S.C and 1015 S.C in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/750)

Lots 1014 S.D and 1015 S.D in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/751)

Lots 1014 S.F and 1015 S.F in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/752)

Lots 1014 RP and 1015 RP in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/753)

As appeared in applicants' submitted documents, the applicants proposed to connect sewage of the proposed small houses to public manhole FMH1061342 at coordinates [N834700, E832429] with outlet invert level of +38.464 mPD and cover level of +43.57 mPD (information obtained from GeoInfo Map). With the ground level of the proposed small houses at approximately +40 mPD, it would not be likely that gravity fed sewer pipes from the houses to the said manhole with proper pipe cover depth and pipe gradient could be designed and constructed following Building (Standards of Sanitary Fitments, Plumbing, Drainage Works and Latrines) Regulations by the applicants due to its complexity.

In my opinion, it would be unfeasible to follow the drainage plans submitted by the applicants for construction hence other means to process sewage of proposed small houses would need to be sought. The water quality within the proposed development will therefore likely be affected.

Dear TPB Members.

Strong Objections. These lots are well outside the village boundaries and similar applications were rejected:

571st RNTPC MEETING ON 23.12.2016

After deliberation, the Committee decided to reject the application. The reasons were :

(a) the proposed development is not in line with the planning intention of the "Agriculture" zone which is primary to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There is no strong planning justification in the current submission for a departure from the planning intention;

Dear TPB Members,

Are the applicants bona fide village residents?

I urge TPB members to ask for proof that the applicants are indeed residents and that they intend to live in the houses.

I would remind members to familiarize themselves with the facts of the Judicial Review

Koon Ping Leung v. The Director of Lands [2012] 2 HKC 329

The judge ruled that the Small House Policy was an administrative measure that provided land on certain conditions to those who had no land so that they could exercise the right. Those with residence outside the territory do not qualify under the policy.

The haphazard construction of small houses with no access basic amenities must be discouraged.

- Transactions of land lots related to the captioned applications, the coordinated nature of the applications, the well-known history and well-advertised activities of local developers, and other relevant information are sufficient grounds to suspect that misrepresentations may have been made to the Director of Lands and to the Town Planning Board as to the intention of the owners of the land and the owners of the "ding" rights regarding the use of the house and the beneficial interests.
- It appears that it would be reasonable to suspect that the applications are misrepresentations to Government and the Board, and that the small house applicants have no intention to build for themselves. If the Town Planning Board is reasonable and rational, it should ask for further information and clarifications.
- Such unlawful schemes (misrepresenting the intention to build for oneself) are common and there is a high risk that the Town Planning Board could be aiding and abetting a scheme which in whole or in part could be unlawful or unauthorized under the small house policy and associated regulations.

- In case the Town Planning Board is not aware of the risks of involvement in such unlawful but common schemes, the Board should make enquiries with the Department of Justice and the ICAC on the risk of involvement in conspiracies to defraud and misrepresentations by the applicants as there could well be adequate grounds for a healthy suspicion and for a thorough investigation.

Moreover the proposed development does not comply with the 'Interim Criteria for Consideration of application for New Territories Exempted House/Small House in the New Territories' in that the footprints fall outside "Village Type Development" zone or the village 'environs'. There are no exceptional circumstances to justify approval of the application.

The proposed development is not in line with the planning intention of the "Agriculture" zone which is to retain and safeguard good agricultural land for agricultural purposes. This zone is also intended to retain fallow arable land with good potential for rehabilitation. No strong planning justification has been given in the submission for a departure from the planning intention, even on a temporary basis.

Approval of the applications would set an undesirable precedent of encouraging further encroachment on Agriculture zoned land. According to the Policy Address 126: *The Government proactively supports the development of local agriculture and will explore ways to optimise use of quality agricultural land through planning and land management* .

TPB must reject this application.

The haphazard construction of small houses with no access basic amenities must be discouraged.

- Transactions of land lots related to the captioned applications, the coordinated nature of the applications, the well-known history and well-advertised activities of local developers, and other relevant information are sufficient grounds to suspect that misrepresentations may have been made to the Director of Lands and to the Town Planning Board as to the intention of the owners of the land and the owners of the "ding" rights regarding the use of the house and the beneficial interests.
- It appears that it would be reasonable to suspect that the applications are misrepresentations to Government and the Board, and that the small house applicants have no intention to build for themselves. If the Town Planning Board is reasonable and rational, it should ask for further information and clarifications.
- Such unlawful schemes (misrepresenting the intention to build for oneself) are common and there is a high risk that the Town Planning Board could be aiding and abetting a scheme which in whole or in part could be unlawful or unauthorized under the small house policy and associated regulations.

- In case the Town Planning Board is not aware of the risks of involvement in such unlawful but common schemes, the Board should make enquiries with the Department of Justice and the ICAC on the risk of involvement in conspiracies to defraud and misrepresentations by the applicants as there could well be adequate grounds for a healthy suspicion and for a thorough investigation.

Moreover the proposed development does not comply with the 'Interim Criteria for Consideration of application for New Territories Exempted House/Small House in the New Territories' in that the footprints fall outside "Village Type Development" zone or the village 'environs'. There are no exceptional circumstances to justify approval of the application.

The proposed development is not in line with the planning intention of the "Agriculture" zone which is to retain and safeguard good agricultural land for agricultural purposes. This zone is also intended to retain fallow arable land with good potential for rehabilitation. No strong planning justification has been given in the submission for a departure from the planning intention, even on a temporary basis.

Approval of the applications would set an undesirable precedent of encouraging further encroachment on Agriculture zoned land. According to the Policy Address 126: *The Government proactively supports the development of local agriculture and will explore ways to optimise use of quality agricultural land through planning and land management*.

TPB must reject this application.

Details of the Comment (use separate sheet if necessary)

As a resident at Lam Tsuen Valley, I am writing to express my concerns on the applications of proposed houses at the following locations:-

Lots 1014 S.C and 1015 S.C in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/750)

Lots 1014 S.D and 1015 S.D in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/751)

Lots 1014 S.F and 1015 S.F in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/752)

Lots 1014 RP and 1015 RP in D.D. 19, Lam Tsuen San Tsuen, Tai Po (Application no. A/NE-LT/753)

As appeared in applicants' submitted documents, the applicants proposed to connect sewage of the proposed small houses to public manhole FMH1061342 at coordinates [N834700, E832429] with outlet invert level of +38.464 mPD and cover level of +43.57 mPD (information obtained from GeoInfo Map). With the ground level of the proposed small houses at approximately +40 mPD, it would not be likely that gravity fed sewer pipes from the houses to the said manhole with proper pipe cover depth and pipe gradient could be designed and constructed following Building (Standards of Sanitary Fitments, Plumbing, Drainage Works and Latrines) Regulations by the applicants due to its complexity.

In my opinion, it would be unfeasible to follow the drainage plans submitted by the applicants for construction hence other means to process sewage of proposed small houses would need to be sought. The water quality within the proposed development will therefore likely be affected.

Dear TPB Members.

Strong Objections. These lots are well outside the village boundaries and similar applications were rejected:

571st RNTPC MEETING ON 23.12.2016

After deliberation, the Committee decided to reject the application. The reasons were :

(a) the proposed development is not in line with the planning intention of the "Agriculture" zone which is primary to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There is no strong planning justification in the current submission for a departure from the planning intention;

(b) the proposed development does not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in the New Territories in that **the applicants fail to demonstrate that the proposed developments located within water gathering grounds would not cause adverse impact on the water quality in the area; and**

(c) **land is still available within the "Village Type Development" ("V") zones of Lam Tsuen San Tsuen and San Tsuen Lo Wai which is primarily intended for Small House development.** It is considered more appropriate to concentrate the proposed Small House development within the "V" zone for more orderly

development pattern, efficient use of land and provision of infrastructure and services.

These reasons remain valid and applicable.

Dear TPB Members,

Are the applicants bona fide village residents?

I urge TPB members to ask for proof that the applicants are indeed residents and that they intend to live in the houses.

I would remind members to familiarize themselves with the facts of the Judicial Review

Koon Ping Leung v. The Director of Lands [2012] 2 HKC 329

The judge ruled that the Small House Policy was an administrative measure that provided land on certain conditions to those who had no land so that they could exercise the right. Those with residence outside the territory do not qualify under the policy.

The haphazard construction of small houses with no access basic amenities must be discouraged.

Recommended Advisory Clauses

- (a) to note the comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that if planning applications have been approved by the Town Planning Board (the Board), LandsD will process the Small House applications when they are received by LandsD. However, there is no guarantee at this stage that the Small House applications would be approved. If the Small House applications are approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD. There is no guarantee to the grant of a right of way to the Small Houses concerned or approval of the Emergency Vehicular Access thereto;
- (b) to note the comment of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that:
 - (i) the applicants are advised to provide basic information (e.g. species, size, general conditions and tree photos) on existing trees within and along the site boundary and proposed tree treatment;
 - (ii) the applicants are advised to adjust the layout/location of the proposed Small Houses to minimise impact on the tree canopy of the existing trees located to the north of the Sites; and
 - (iii) approval of the applications do not imply approval of tree works such as pruning, transplanting and felling under lease. The applicants are reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works;
- (c) to note the comments of the Chief Engineer/Mainland North (CE/MN), DSD that:
 - (i) the applicants should have its own stormwater collection and discharge system to cater for the runoff generated within the Sites and overland flow from surrounding of the Sites, e.g. surface channel of sufficient size along the perimeter of the Sites; sufficient openings should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Sites if any boundary wall/fence are to be erected. Any existing flow path affected should be re-provided. The applicants should neither obstruct overland flow nor adversely affect the existing natural streams, village drains, ditches and the adjacent areas. The applicants are required to maintain the drainage systems properly and rectify/modify the nearby existing/original drainage systems if they are found to be inadequate or ineffective to accommodate the additional runoff arisen from the development of the Sites. The applicants shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure or ineffectiveness of the modified drainage systems caused by their works;
 - (ii) the applicants shall provide written consent(s) from relevant lot owner(s) and/or LandsD's permission for laying new drains/channels and/or modifying/upgrading existing ones outside the Sites or on government land (where required); and
 - (iii) the cost and work of drainage and sewerage connection as well as future

maintenance responsibility shall be borne by the applicants;

- (d) to note the comments of the Director of Fire Services (D of FS) that the applicants are reminded to observe “New Territories Exempted Houses – A Guide to Fire Safety Requirements”, which is administered by LandsD. Detailed fire safety requirements would be formulated upon receipt of formal application via LandsD;
- (e) to note that the permissions are only given to the development under applications. If provision of an access road is required for the proposed developments, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
