Relevant Revised Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water

gathering grounds will not be affected by the proposed development[^]);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
 - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- [^]i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

A/NE-LT/462	Proposed House (New Territories Exempted House - Small House)	1.3.2013	R1

A/NE-LT/758	Proposed House (New Territories Exempted House - Small House)	13.10.2023	R2 - R3

Rejection Reasons

- R1 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that there was insufficient information in the submissions to demonstrate that the proposed development would not cause adverse impact on the water quality in the area.
- R2 The proposed development is not in line with the planning intention of the “AGR” zone which is primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes. It is also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There is no strong planning justification in the submission for a departure from the planning intention.
- R3 Land was still available within the “V” zones of Shui Wo and Sha Pa which is primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development within the “V” zones for more orderly development pattern, efficient use of land and provision of infrastructures and services.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD):

- (a) the Sites fall within the tentative village ‘environs’ (‘VE’) boundary of Sha Pa drawn up in accordance with the 300-ft rule adopted by LandsD on 3.1.1998 (i.e. 300-ft from the edge of the last village type house built before implementation of the Small House Policy). Though the ‘VE’ boundary of Sha Pa has not been drawn up, the tentative ‘VE’ of Sha Pa is still applicable and Sha Pa was incorporated into the list of Recognized Villages for the purpose of Small House grant in 1996;
- (b) the applicants are indigenous villagers of Chai Kek Village of Tai Po Heung, as confirmed by the Indigenous Inhabitant Representative (IIR). However, the eligibilities of a Small House grant of the applicants have yet to be ascertained;
- (c) the Sites are held under Block Government Lease (demised for agricultural use) and is not covered by any Modification of Tenancy or Building Licence;
- (d) no valid Small House application has been received;
- (e) there is no designated “fung shui” area in Shui Wo (including Sha pa);
- (f) the Sites are not covered with any surveyed squatter structure;
- (g) the proposed Small House would not encroach on any existing or planned Emergency Vehicular access (EVA); and
- (h) the number of outstanding Small House applications and the number of 10-year Small House demand for the village concerned are as follows:

<u>Village</u>	<u>No. of outstanding Small House applications</u>	<u>No. of 10-year Small House demand*</u>
Shui Wo (including Sha Pa)	21	190

(*There is no IIR for Sha Pa. The figure of 10-year Small House demand forecast was provided by the IIR of Shui Wo (who also handles the village matters of Sha Pa) in March 2020).

2. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) such type of development should be confined within the “Village Type Development” (“V”) zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the subject applications only involve development of three Small Houses could be tolerated on traffic grounds.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- no in-principle objection to the applications provided that the applicants will provide adequate sewer connection for disposal of sewage from the Small House to the existing public sewer at his own costs and reserve adequate land for the sewer connection works.

4. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the applications from the landscape planning point of view; and
- (b) the Sites are located in an area of settled valleys landscape character comprising small houses, farmlands, vegetated areas, clusters of tree groups and Lam Tsuen River at the south. The Sites are covered with wild grasses and self-seeded vegetation. Some trees of common species are found at the periphery of site boundaries. Significant adverse impact on the landscape character and the existing landscape resources within the Sites arising from the proposed use is not anticipated.

5. Drainage and Sewerage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no in-principle objection to the applications from public drainage viewpoint.

6. Water Supply

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) no objection to the applications;
- (b) the Sites are located within upper indirect water gathering grounds (WGG). A/NE-LT/759 is located less than 30m away from the nearest water course. A/NE-LT/760-761 are located more than 30m away from the nearest water course;
- (c) the footprint of the proposed New Territories Exempted Houses (NTEHs)/Small Houses fall within the tentative “VE” boundary of Sha Pa. According to the information submitted, the proposed NTEHs will be connected to public sewerage system; and
- (d) compliance of the applications with the assessment criteria Item (a) and (i) of the “Interim Criteria for Consideration of Applications for NTEH/Small House in New Territories” (the Interim Criteria) can be reasonably established.

7. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) the Sites fall within the “AGR” zone and are abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water source are also available. The subject sites could be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc ; and
- (b) as the Sites possess potential for agricultural rehabilitation, the proposed developments are not supported from agricultural point of view.

8. Fire Safety

Comments of the Director of Fire Services (D of FS):

- no in-principle objection to the applications provided that the proposed Small Houses would not encroach on any existing or planned EVA.

9. Demand and Supply of Small House Site

According to the DLO/TP, LandsD’s record, the total number of outstanding Small House applications for Shui Wo (including Sha Pa) is 21 while the 10-year Small House demand forecast for the same villages is 190. Based on the latest estimate by

the Planning Department, about 0.94 ha of land (equivalent to about 36 Small House site) are available within the “V” zones of Shui Wo and Sha Pa. Therefore, there is insufficient land in the “V” zones concerned to meet the future demand of 211 Small Houses (equivalent to about 5.28 ha of land).

Dear TPB Members,

Strong Objections. Unfortunately the board has approved "VILLA ' developments on Agriculture land outside the 'V' zone under the guise of NET house and thus encouraged the rampant haphazard development.

There is no history of approvals and sufficient land available within the 'V' zone so no justification for encouraging further shoddy construction.

Recommended Advisory Clauses

- (a) to note the comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that if and after planning approvals have been granted by the Town Planning Board (the Board), LandsD will process the Small House applications. However, there is no guarantee at this stage that the Small House applications would be approved. If the Small House applications are approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD. There is no guarantee to the grant of right of way to the Small Houses concerned or approval of Emergency Vehicular Access (EVA) thereto;
- (b) to note the comments of the Chief Engineer/Mainland North (CE/MN, DSD) that:
 - (i) the applicants should have its own stormwater collection and discharge system to cater for runoff generated within the Site and overland flow from surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient openings should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary wall/fence are to be erected. Any existing flow path affected should be re-provided. The applicants should neither obstruct overland flow nor adversely affect the existing natural streams, village drains, ditches and the adjacent areas. The applicants are required to maintain the drainage systems properly and rectify/modify the nearby existing/original drainage systems if they are found to be inadequate or ineffective to accommodate the additional runoff arisen from the development of the Site. The applicants shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure or ineffectiveness of the modified drainage systems caused by their works;
 - (ii) the runoff within the subject premise including the runoff from the rooftop shall be served by a designated stormwater collection and discharge system and shall not be drained to the public sewerage network;
 - (iii) there are existing DSD's maintained public sewers in the vicinity but the feasibility of sewerage connection is subject to the invert level of discharge connection pipe leading from the proposed site. No stud pipe is reserved for sewage connection. The applicants shall demonstrate the technical feasibility of sewerage connection. Should the applicants choose to dispose of the sewage of the proposed development through other means, views and comments from EPD should be sought;
 - (iv) the applicants should provide written consent(s) from relevant lot owner(s) and/or LandsD's permission for laying new drains/channels and/or modifying/upgrading existing ones outside the Site or on government land (where required); and
 - (v) the cost and work of drainage and sewerage connection as well as future maintenance responsibility shall be borne by the applicant(s);

- (c) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that approval of the applications do not imply approval of tree works such as pruning, transplanting and felling under lease. The applicants should seek approval for any proposed tree works from relevant departments prior to commencement of the works;
- (d) to note the comments of the Director of Fire Services (D of FS) that the applicants should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by the LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (e) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that:
 - (i) the foul water drainage system of the proposed NTEH/Small House can be connected to the public sewerage system in the area and the applicants shall connect the whole of the foul water drainage system to the public sewerage system;
 - (ii) adequate protective measures shall be taken to ensure that no pollution or siltation occurs to the water gathering grounds;
 - (iii) the applicants shall submit an executed Deed of Grant of Easement for each private lot through which the sewer connection pipes are proposed to pass to demonstrate that it is both technically and legally feasible to install sewerage pipes from the proposed NTEH/Small House to the sewerage system via relevant private lot;
 - (iv) for the application no. A/NE-LT/759, since the Site is located less than 30m from the nearest watercourse, the whole of foul effluent from the proposed NTEH/Small House shall be conveyed through cast iron pipes or other approved material with sealed joints and hatch boxes and the proposed NTEH/Small House should be located as far away from the watercourse as possible; and
 - (v) for provision of water supply to the development, the applicants may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards.
- (f) to note the comments of the Executive Secretary of Antiquities and Monuments Office, Development Bureau (ES(AMO), DEVB) that the Site falls within the Sha Pa Site of Archaeological Interest, the applicant is required to notify AMO two weeks prior to the commencement of the construction works so as to facilitate their staff to conduct site inspection(s) in the course of excavation works; and
- (g) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of

land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Board where required before carrying out the road works.
