**Relevant Interim Criteria for Consideration of**  
**Application for NTEH/Small House in New Territories**  
**(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

\*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

**Detailed Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls within the 'VE' of Ma Mei Ha Leng Tsui and Leng Pei Tsuen;
- (b) the applicant is an indigenous villager of Fanling Village of Fanling Heung;
- (c) the Site is not covered by any Modification of Tenancy/Building Licence;
- (d) the numbers of outstanding Small House applications and the numbers of 10-year Small House demand for the villages concerned are as follows:

<u>Villages</u>	<u>No. of the outstanding Small House applications</u>	<u>No. of 10-year Small House demand*</u>
Ma Mei Ha Leng Tsui	28	110
Leng Pei Tsuen	20	22

\*The figures of the 10-year Small House demand forecast were provided by the relevant Indigenous Inhabitant Representatives without any supporting evidence and his office is not in a position to verify the forecasts;

- (e) the Small House application was made to his office on 2.1.2013; and
- (f) the Small House application was approved by his office in November 2017. The Small House grant application has been approved pending the execution of building licence.

**2. Traffic**

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the application. Such type of development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the "V" zone; if permitted, will set undesirable precedent cases for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application only involves construction of one Small House. She considers that the application can be tolerated unless it is rejected on other grounds.

**3. Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) the septic tank and soakaway system is an acceptable means for collection, treatment

and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person.

#### **4. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the application from the landscape planning perspective; and
- (b) the Site is situated in an area of rural landscape character surrounded by village houses, farmland and clusters of trees. The proposed use is considered not incompatible with the surrounding environment. Significant adverse impact on existing landscape resources arising from the development is not anticipated.

#### **5. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the application from public drainage viewpoint;
- (b) should the application be approved, a condition should be included to request the applicant to submit and implement a drainage proposal for the Site that it will not cause adverse drainage impact to the adjacent area; and
- (c) the Site is in an area where no public sewerage connection is available.

#### **6. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the application; and
- (b) the applicant is reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

#### **7. Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) he has no objection to the application; and
- (b) for provision of water supply to the development, the applicant may need to extend the inside services to nearest suitable Government water mains for connection. The applicant should resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards.

## **8. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) she does not support the application from the agricultural point of view; and
- (b) the Site is currently abandoned. The agricultural activities are active in the vicinity and agricultural infrastructures such as road access and water source are available. The Site can be used for agricultural activities such as open-field cultivation, greenhouse, plant nursery, etc. As the Site possesses potential for agricultural rehabilitation, the application is not supported from agricultural point of view.

## **9. District Officer's Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

he has consulted the locals regarding the application. The Chairman of Lung Shan Area Committee has no comment on the application. The Resident Representative (RR) of Leng Tsui, the Chairman, the First Vice-Chairman and Vice-Chairman of Fanling District Rural Committee object to the application mainly on the grounds of adverse traffic impact, environmental pollution and affecting the living quality of the current villagers. The North District Council Member of the subject constituency and the Indigenous Inhabitant Representative (IIR) of Leng Tsui did not reply.

## **10. Demand and Supply of Small House Site**

According to DLO/N's records, the total number of outstanding Small House applications for Ma Mei Ha Leng Tsui and Leng Pei Tsuen village cluster is 48 while the 10-year Small House demand forecast for the same village is 132. According to the latest estimate by PlanD, about 0.79 ha (equivalent to about 31 Small House sites) of land are available within the "V" zone of Ma Mei Ha Leng Tsui and Leng Pei Tsuen village cluster. There is insufficient land in the "V" zone of Ma Mei Ha Leng Tsui and Leng Pei Tsuen village cluster to meet the future demand of Small Houses (i.e. about 4.5 ha of land which is equivalent to 180 Small House sites).

Dear Sir/ Madam,

**Proposed House (New Territories Exempted House - Small House)**  
**(A/NE-LYT/753)**

1. We refer to the captioned.
2. The site is within Agriculture zone. We urge the Board to consider with relevant authorities as to whether there would still be space available for building Small Houses in surrounding Village Type Development zones before making a decision.
3. Thank you for your attention.

**Recommended Advisory Clauses**

- (a) to note the comments of Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that for provision of water supply to the development, the applicant may need to extend the inside services to nearest suitable Government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards;
- (b) to note the comments of Director of Fire Services (D of FS) that the applicant should to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (c) to note the comments of Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the Site is in an area where no public sewerage connection is available;
- (d) to note the comments of the Director of Environmental Protection (DEP) that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person; and
- (e) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
