**Relevant Interim Criteria for Consideration of**  
**Application for NTEH/Small House in New Territories**  
**(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

\*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

**Detailed Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) more than 50% of the Sites fall within the village ‘environs’ (‘VE’) of Ma Mei Ha;
- (b) the applicants claimed themselves as the indigenous villagers of Ma Mei Ha. Their eligibilities for Small House grant have yet to be ascertained;
- (c) the Sites are not covered by Modification of Tenancy/ Building Licence;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand forecast for Ma Mei Ha are 19 and 82 respectively. The 10-year Small House demand forecast was provided by the relevant Indigenous Inhabitant Representative without any supporting evidence. His office is not in a position to verify the forecast; and
- (e) the Small House applications under the Applications No. A/NE-LYT/756 and 757 in respect of the Sites were received by his office on 5.4.2016 and 12.7.2016 respectively, and the applications are being processed by his office.

**2. Traffic**

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the applications. Such type of developments should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of developments outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the applications only involve construction of two Small Houses. She considers that the applications can be tolerated unless being rejected on other grounds.

**3. Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of small scale of the proposed developments, the applications alone are unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the

requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorised Person (AP).

#### **4. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the applications from the landscape planning perspective;
- (b) the Sites are located in an area of rural inland plain landscape character comprising village houses, vacant land, farmlands and clusters of tree groups. The Sites are covered by wild grass with some trees of common species, significant adverse impact on the existing landscape resources arising from the proposed developments is not anticipated. The proposed use is considered not incompatible with the surrounding environment;
- (c) at least 9 nos. of planning applications (Nos. A/NE-LYT/617 to 623 and 633 to 634) to the north of the Sites within the same “AGR” zone for the same use were approved by the TPB in 2017. The proposed use under applications are considered not entirely incompatible with their surrounding environment;
- (d) approval of the applications does not imply approval of tree works such as pruning, transplanting and felling under lease. The applicants are reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works; and
- (e) given that the Sites are surrounded by vegetation and woodland, and there is no major public frontage along the site boundaries, should the TPB approve the applications, it is considered not necessary to impose a landscape condition as its effect on enhancing the quality of public realm is not apparent.

#### **5. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the applications from public drainage viewpoint;
- (b) should the applications be approved, a condition should be included to request the applicants to submit and implement a drainage proposal for the Sites to ensure that they will not cause adverse drainage impact to the adjacent area; and
- (c) the Sites are in an area where no public sewerage connection is available. EPD should be consulted regarding the sewage treatment/disposal facilities for the proposed developments.

## **6. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the Sites are currently abandoned land. Agricultural activities are active in the vicinity and agricultural infrastructures such as road access and water source are available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. As the Sites possess potential for agricultural rehabilitation, the applications are not supported from agricultural point of view.

## **7. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the applications; and
- (b) the applicants are reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

## **8. Water Supplies**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) he has no in-principle objection to the applications; and
- (a) for provision of water supplies to the developments, the applicants may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to his office's standards.

## **9. District Officer's Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

- he has consulted the locals regarding the applications. The Resident Representative (RR) of Ma Mei Ha objects to the applications on the grounds that the applicants are not indigenous villagers; the proposed developments would cause environmental pollution and adverse impacts to the agriculture nearby. The Chairman of Fanling District Rural Committee has no comment on the applications. The North District Council member of the subject constituency, the Chairman of Lung Shan Area Committee a did not respond.

## **10. Demand and Supply of Small House Sites**

- according to DLO/N's records, the total number of outstanding Small House applications for Ma Mei Ha is 19 while the 10-year Small House demand forecast for the same village cluster is 82. According to the latest estimate by PlanD, about 1.45 ha (equivalent to 58 Small House sites) of land are available within the "V" zone of Ma Mei Ha for Small House development. There is insufficient land in the "V" zone of Ma Mei Ha to meet the future demand of land for Small House development (i.e. about 2.53 ha of land which is equivalent to 101 Small House sites).

Site area : About 183 / 167.8sq.m

Zoning : "Agriculture"

Applied development : 2 NET Houses

Dear TPB Members,

Two adjacent sites will be considered together.

Strong objections. Not only is this AG zoning it is separated from the village by a green belt. Unfortunately some years ago the board approved a number of similar applications on nearby lots.

Plan D recommended approval on the premises that :

*and there were 16 similar applications within/partly within the "AGR" and "GB" zones in the vicinity approved by the Committee, **the implementation of which were forming a new village cluster** in the locality.*

However times have changed and there are plans to develop a number of new towns under the Northern Metropolis plan. Under the original NET House guidelines these villages were to be contained within 300ft of the original footprint rather than extend indefinitely.

It is therefore not conducive to this vision to encourage additional villa development as this is a most inefficient land use and can impede plans for more intensive development.

- (d) to note the comments of the Chief Engineer/Construction, Water Supplies Department that for the provision of water supplies to the developments, the applicants may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to his department’s standards;
- (e) to note the comments of Chief Town Planner/ Urban Design and Landscape Section, Planning Department that approval of the applications does not imply approval of tree works such as pruning, transplanting and felling under lease. The applicants are reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works; and
- (f) to note that the permission is only given to the development under applications. If provision of an access road is required for the proposed development, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
