Relevant Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village ‘environs’ (‘VE’) of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the “Village Type Development” (‘V’) zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the ‘VE’, favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the “V” zone, provided that there is a general shortage of land in meeting the demand for Small House development in the “V” zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the ‘VE’ and the “V” zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Rejected Applications

Application No.	Uses/ Development	Date of Consideration	Rejection Reasons
A/NE-LYT/756	Proposed House (New Territories Exempted House (NTEH) - Small House)	4.3.2022	(1) and (2) (<i>RNTPC</i>)
A/NE-LYT/757	Proposed House (New Territories Exempted House (NTEH) - Small House)	4.3.2022	(1) and (2) (<i>RNTPC</i>)

Rejection Reasons

- (1) The proposed development was not in line with the planning intention of the “Agriculture” zone which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the submission for a departure from the planning intention.
- (2) Land was still available within the “Village Type Development” (“V”) zone of Ma Mei Ha where land was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development within the “V” zone for more orderly development pattern, efficient use of land and provision of infrastructures and services.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) more than 50% of the Site falls within the village ‘environs’ (‘VE’) of Ma Mei Ha;
- (b) the applicant claimed himself as an indigenous villager of Ma Mei Ha. His eligibility for Small House grant has yet to be ascertained;
- (c) the Site is not covered by Modification of Tenancy/ Building Licence;
- (d) the number of outstanding Small House application and the number of 10-year Small House demand forecast for Ma Mei Ha are 19 and 82 respectively. The 10-year Small House demand forecast was provided by the relevant Indigenous Inhabitant Representative without any supporting evidence. His office is not in a position to verify the forecast; and
- (e) the Small House application under the application was received by his office on 5.4.2016, and the application is being processed by his office.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the application. Such type of development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application only involves construction of one Small House. She considers that the application can be tolerated unless being rejected on other grounds.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- (a) in view of small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93

“Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorised Person (AP).

4. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the application from landscape planning perspective;
- (b) the Site is located in an area of rural inland plain landscape character comprising village houses, vacant land and clusters of tree groups. The Site is covered with wild grass and self-seeded vegetation. Significant adverse impact on the landscape resources arising from the proposed development is not anticipated. The proposed use is considered not incompatible with the surrounding environment; and
- (c) given that the Site is surrounded by vegetation, and there is no major public frontage along the site boundaries, should the TPB approve the application, it is considered not necessary to impose a landscape condition as its effect on enhancing the quality of public realm is not apparent.

5. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the application from public drainage viewpoint;
- (b) should the application be approved, a condition should be included to request the applicant to submit and implement a drainage proposal for the Site to ensure that they will not cause adverse drainage impact to the adjacent area; and
- (c) the Site is in an area where no public sewerage connection is available.

6. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the Site falls within the “AGR” zone and is abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water source are also available in the vicinity of the Site, which can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. As the Site possesses potential for agricultural rehabilitation, the development proposal falling within the "AGR" zone is not supported from agricultural perspective.

7. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the application; and
- (b) the applicant is reminded to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

8. Water Supplies

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) he has no in-principle objection to the application; and
- (b) provision of water supplies to the development, the applicant may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to his office’s standards.

9. District Officer’s Comments

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

- he has consulted the locals regarding the application. The Resident Representative (RR) of Ma Mei Ha objects to the application mainly on the grounds that the applicant may not be an indigenous villager; and the proposed development would cause adverse drainage impact. The Chairman of Lung Shan Area Committee has no comment. Other consultees, including the Chairman of Fanling District Rural Committee, the incumbent North District Councilor of N18 Constituency, the Indigenous Inhabitant Representative and RR of Leng Tsui did not reply.

10. Demand and Supply of Small House Sites

- according to DLO/N’s records, the total number of outstanding Small House applications for Ma Mei Ha is 19 while the 10-year Small House demand forecast for the same village cluster is 82. According to the latest estimate by PlanD, about 1.34 ha (equivalent to 53 Small House sites) of land are available within the “V” zone of Ma Mei Ha for Small House development. There is insufficient land in the “V” zone of Ma Mei Ha to meet the future demand of land for Small House development (i.e. about 2.53 ha of land which is equivalent to 101 Small House sites).

(A/NE-LYT/764)

1. We refer to the captioned.
2. There are two rejected applications for the same purpose close to the current application site; one is adjoining the current application site. Reasons for the rejection of the one adjacent to the present application site (A/NE-LYT/757; rejected in March 2022) are reproduced below:

(a) the proposed development is not in line with the planning intention of the "Agriculture" zone which is primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There is no strong planning justification in the submission for a departure from the planning intention; and

A/NE-LYT/756 / 757

Lot 162 S.C ss.1 and Lot 162 S.C ss.2 in D.D. 46, Ma Mei Ha Tsuen, Fanling

Site area : About 183 / 167.8sq.m

Zoning : "Agriculture"

Applied development : 2 NET Houses

Dear TPB Members,

Two adjacent sites will be considered together.

Strong objections. Not only is this AG zoning it is separated from the village by a green belt. Unfortunately some years ago the board approved a number of similar applications on nearby lots.

Plan D recommended approval on the premises that :

*and there were 16 similar applications within/partly within the "AGR" and "GB" zones in the vicinity approved by the Committee, **the implementation of which were forming a new village cluster in the locality.***

However times have changed and there are plans to develop a number of new towns under the Northern Metropolis plan. Under the original NET House guidelines these villages were to be contained within 300ft of the original footprint rather than extend indefinitely.

It is therefore not conducive to this vision to encourage additional villa development as this is a most inefficient land use and can impede plans for more intensive development.

Mary Mulvihill

Recommended Advisory Clauses

- (a) to note the comments of Director of Fire Services that the applicant should observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (b) to note the comments of Director of Environmental Protection (DEP) that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorised Person (AP);
- (c) to note the comments of Chief Engineer/Mainland North, Drainage Services Department that the Site is in an area where no public sewerage connection is available;
- (d) to note the comments of the Chief Engineer/Construction, Water Supplies Department that for the provision of water supplies to the developments, the applicant may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to his department’s standards;
- (e) to note the comments of Chief Town Planner/ Urban Design and Landscape Section, Planning Department that approval of the application does not imply approval of tree works such as pruning, transplanting and felling under lease. The applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works; and
- (f) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
