

**Relevant Interim Criteria for Consideration of  
Application for NTEH/Small House in New Territories  
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

\*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

**Government Departments' General Comments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- the Site falls within the 'VE' of Kan Tau Tsuen;
- the applicant claimed himself to be an indigenous villager of Fanling Village, Fanling Heung. His eligibility for Small House grant has yet to be ascertained;
- the Site is not covered by any Modification of Tenancy/Building Licence;
- the number of outstanding Small House applications and the number of 10-year Small House demand for the village concerned are as follows:

<u>Villages</u>	<u>No. of outstanding Small House applications</u>	<u>No. of 10-year Small House demand*</u>
Kan Tau Tsuen	44	78

\*The figures of the 10-year Small House demand forecast were provided by the relevant Indigenous Inhabitant Representative without any supporting evidence and his office is not in a position to verify the forecasts.

- the Small House application was made to his office on 11.6.2014; and the Small House application is currently under processing.

**2. Traffic**

Comments of the Commissioner for Transport (C for T):

- there is reservation on the application from traffic engineering perspective. Such type of development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the "V" zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic could be substantial;
- notwithstanding the above, the application only involves the construction of one Small House. It is considered that the application can be tolerated unless it is rejected on other grounds;
- the access road leading to the Site from Sha Tau Kok Road is not managed by TD; and

Comments of the Chief Highways Engineer/New Territories East, Highways Department (CHE/NTE, HyD):

- the access road adjacent to the Site is not maintained by the Highways Department.

### 3. **Environment**

Comments of the Director of Environmental Protection (DEP):

- in view of the small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- the septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the EPD” and are duly certified by an Authorised Person (AP).

### 4. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- no objection to the application from landscape planning perspective;
- the Site is located in an area of rural inland plain landscape character comprising of farmlands, vegetated areas, clusters of tree groups and village houses. The proposed development is considered not incompatible with the surrounding environment. Significant adverse impact on existing landscape resources arising from the proposed development is not anticipated; and
- should the application be approved, it is considered not necessary to impose a landscape condition as there is limited space within the Site for meaningful landscaping and major public frontage along the site boundaries.

### 5. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- he has no objection to the application from the public drainage viewpoint;
- should the application be approved, conditions should be included to request the applicant to submit and implement a drainage proposal for the Site; and
- the Site is in an area where no public sewerage connection is available.

### 6. **Fire Safety**

Comments of the Director of Fire Services (D of FS):

- no in-principle objection to the application provided that the proposed development would not encroach on any existing EVA or planned EVA under application in accordance with LandsD’s record; and
- the applicant is reminded to observe ‘NTEHs – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application by LandsD.

## **7. Water Supply**

Comments of the Chief Engineer/Construction, Water Supply Department (CE/C, WSD):

- no objection to the application; and
- for provision of water supply to the development, the applicant may need to extend the inside services to nearest suitable government water mains for connection. The applicant should resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within private lots to WSD's standards.

## **8. Agriculture**

Comments from the Director of Agriculture, Fisheries and Conservation (DAFC):

- does not support the application from agricultural perspective;
- the Site possesses potential for agricultural rehabilitation, and agricultural activities are active in the vicinity; and
- agricultural infrastructures such as road access and water source are also available in the vicinity of the Site, which can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc.

## **9. District Officer's Comments**

Comments from the District Officer (North) (DO(N)):

- he has consulted the locals. The Chairman of Fanling District Rural Committee has no comment on the application.

## **10. Demand and Supply of Small House Site**

According to DLO/N's record, the total number of outstanding Small House applications for Kan Tau Tsuen village cluster is 44 while the 10-year Small House demand forecast for the same village cluster is 78. According to the latest estimate by PlanD, about 1.86 ha (equivalent to about 74 Small House sites) of land is available within the "V" zone of Kan Tau Tsuen village cluster. There is insufficient land in the "V" zone of Kan Tau Tsuen village cluster to meet the future demand of Small Houses (i.e. about 3.05 ha of land which is equivalent to 122 Small House sites).

## **11. Other Departments**

the following government department has no comment on/no objection to the application:

- Project Manager (North), Civil Engineering and Development Department (PM (N), CEDD).

Lot 1584 S.F in D.D. 76, Kan Tau Tsuen, Lung Yeuk Tau

Site area : About 152sq.m

Zoning : "Agriculture"

Applied development : NET House / Septic tank

Dear TPB Members,

**According to recent application minutes "Land available within the "V" zone was sufficient to meet the 56 outstanding Small House applications."**

No justification for approval.

Mary Mulvihill

**Recommended Advisory Clauses**

- (a) to note the comments of the Commissioner for Transport (C for T) that the access road leading to the Site from Sha Tau Kok Road is not managed by the Transport Department;
- (b) to note the following comments of the Director of Environmental Protection (DEP) that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the EPD” and are duly certified by an Authorised Person (AP);
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
  - (i) the Site is in an area where no public sewer connection is available;
  - (ii) the applicant is advised on the following general requirements of the drainage proposal:
    - surface channel with grating covers should be provided along the site boundary;
    - a drainage plan should be provided clearly showing the size, levels and routes of the proposed drainage. The details (invert level, gradient, general sections etc.) of the proposed drain/ surface channel, catchpits and the discharge structure shall be provided;
    - the cover levels of proposed channels should be flushed with the existing adjoining ground level;
    - a catchpit with covers should be provided where there is a change of direction of the channel/drain. The details of the catchpit with covers shall be provided;
    - catchpits with sand trap shall be provided at the outlets of the proposed drainage system. The details of the catchpit with sand trap should be provided;
    - the applicant should check and ensure that the existing drainage downstream to which the proposed connection will be made have adequate capacity and satisfactory condition to cater for the additional discharge from the Site. The applicant should also ensure that the flow from the Site will not overload the existing drainage system;
    - the applicant is reminded that where walls are erected or kerbs are laid along the boundary of the same, peripheral channels should be provided on both sides of the walls or kerbs, and/or adequate openings should be provided at the walls/kerbs to allow existing overland flow passing through the Site to be intercepted by the drainage system of the Site with details to be agreed by DSD, unless justified not necessary;
    - the applicant is reminded that all existing flow paths as well as the run-off falling onto and passing through the Site should be intercepted and disposed of via proper discharge points. The applicant shall also ensure that no works,

including any site formation works, shall be carried out as may adversely interfere with the free flow condition of the existing drains, channels and watercourses on or in the vicinity of the Site any time during or after the works;

- the proposed drainage works, whether within or outside the site boundary, should be constructed and maintained properly by the applicant and rectify the system if it is found to be inadequate or ineffective during operation.at his/her own expense;
- for works to be undertaken outside the lot boundary, the applicant should obtain prior consent and agreement from DLO/N and/or relevant private lot owners;
- the applicant should make good all the adjacent affected areas upon the completion of the drainage works;
- the applicant shall allow all time free access for the Government and its agent to conduct site inspection on his completed drainage works;
- the applicant and the successive lot owners shall allow connections from the adjacent lots to the completed drainage works on Government Land when so required;
- photos should be submitted clearly showing the current conditions of the area around the Site, the existing drainage/flowpaths around the Site, the proposed drainage from the Site to the downstream existing watercourse and the existing watercourse at about 20 m intervals. The locations of the camera and the direction of each photo should also be indicated on a plan;

- (d) to note the following comments of the Director of Fire Services (D of FS) that the applicant should observe 'NTEHs - A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD; and
- (e) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that for provision of water supply to the development, the applicant may need to extend the inside services to nearest suitable Government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards.
