

**Relevant Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls within the village ‘environs’ (‘VE’) of Ma Mei Ha Leng Tsui and Leng Pei Tsuen;
- (b) the applicant under application is an indigenous villager of Hok Tau Wai of Fanling Heung. His eligibility for Small House grant has been ascertained;
- (c) the Site is not covered by any Modification of Tenancy/ Building Licence;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand for the villages concerned are as follows:

<u>Villages</u>	<u>No. of the outstanding Small House applications</u>	<u>No. of 10-year Small House demand*</u>
Ma Mei Ha Leng Tsui	28	110
Leng Pei Tsuen	21	22

*The figures of the 10-year Small House demand forecast were provided by the relevant Indigenous Inhabitant Representatives of Leng Pei Tsuen and Ma Mei Ha Leng Tsui

- (e) the Small House application was made to this office on 18.3.2010, which was approved by this office on 5.10.2012 but the execution of the licence documents is yet to be completed.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) has reservation on the application. Such type of development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial;
- (b) notwithstanding the above, the application only involves construction of one Small House. She considers that the application can be tolerated unless being rejected on other grounds; and
- (c) the access road leading to the Site from the Sha Tau Kok Road is not managed by Transport department.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- (a) in view of small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorised Person (AP).

4. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the applications from the landscape planning perspective;
- (b) there has been no significant change in the landscape character surrounding the Site since the last planning application (No. A/NE-LYT/547) was approved by the Committee. The Site is currently covered with self-seeded vegetation. Further significant adverse impact on existing landscape resources within the Site arising from the proposed Small House is not anticipated; and
- (c) should the Board approve the application, it is considered not necessary to impose a landscape condition as its effect on enhancing the quality of public realm is not apparent. Significant landscape impact by the proposed use is not anticipated.

5. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) no in-principle objection to the applications from public drainage viewpoint;
- (b) should the application be approved, a condition should be included to request the applicants to submit and implement a drainage proposal for the Site to ensure that it will not cause adverse drainage impact to the adjacent area; and
- (c) the Site is in an area where no public sewer connection is available.

6. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) does not support the application from agricultural perspective as the Site possess potential for agricultural rehabilitation; and

- (b) the Site is abandoned. Agricultural activities are active in the vicinity and agricultural infrastructures such as water source and a local track are available. The Site can be used for agricultural activities such as open-field cultivation, plant nurseries and greenhouses, etc.

7. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) no in-principle objection to the application; and
- (b) the applicant is reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

8. Water Supply

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) no objection to the application; and
- (b) for provision of water supplies to the development, the applicant may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to his office's standards.

9. District Officer's Comments

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

- he has consulted the locals regarding the application. The Chairman of Lung Shan Area Committee has no comment on the application. Other consultees including the Chairman of Fanling District Rural Committee, the incumbent North District Councilor of N18 Constituency, the indigenous Inhabitant Representative (IIR) and Resiednt Representative (RR) of Kan Tau Tsuen do not reply.

10. Demand and Supply of Small House Sites

According to DLO/N's records, the total number of outstanding Small House applications for Ma Mei Ha Leng Tsui and Leng Pei Tsuen is 49 while the 10-year Small House demand forecast for the same village is 132. According to PlanD's latest estimate, about 0.79 ha (equivalent to 31 Small House sites) of land are available within the "V" zone of Ma Mei Ha and Leng Tsui Leng Pei Tsuen for Small House development. There is insufficient land in the "V" zone of Ma Mei Ha Leng Tsui and Leng Pei Tsuen to meet the demand of land for Small House development (i.e. about 4.53 ha of land which is equivalent to 181 Small House sites).

Dear TPB Members,

It is quite alarming to note that PlanD continues to encourage the expansion of village sprawl when it very clear that this is a most inefficient land use.

*"Besides, the Sites are surrounded by existing village houses and similar applications approved for Small Houses, the implementation of which are **forming a new village cluster in the locality**"*

Members instead of rubber stamping PlanD recommendations have a duty to look into matters.

It was never the intention of the Small House Policy to create new villages.

As a general rule, VE refers to **a 300-feet radius from the edge of the last village type house built before the introduction of the Policy on December 1, 1972.**

So how far is this lot from the stipulated borderline?

In addition there is the issue of the proliferation of septic tanks that both the Audit Commission and the board itself have agreed should be phased out.

The demand for small houses is infinite, land in Hong Kong is finite. The constant message of lack of land should be addressed by limiting where possible inefficient development.

Mary Mulvihill

Recommended Advisory Clauses

- (a) to note the comments of the Commissioner for Transport (C for T) that the access road leading to the Site from Ma Mei Ha Leng Tsui is not managed by Transport Department;
- (b) to note the comments of the Director of Fire Services (D of FS) that the applicant should observe ‘NTEHs – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the Site is in an area where no public sewerage connection is available;
- (d) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that for provision of water supply to the development, the applicant may need to extend the inside services to nearest suitable Government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD’s standards;
- (e) to note the comments of the Director of Environmental Protection (DEP) that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorised Person (AP); and
- (f) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the TPB where required before carrying out the road works.

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

此申請個案其實早於2009年已經連同其他4座小型屋宇提交申請，其後於2014年亦重新提交過申請，申請編號為A/NE-LYT/547，其後分別於2018年及2021年再申請續期，惟許可續期之期限已滿，該申請不能再續期；其實此小型屋宇申請已獲北區地政處批准並已安排好簽契手續，惟申請人受疫情影響無法安排回港，現只好單獨重新再向 貴委員會提交規劃申請，希望 貴委員會可以批准此次新申請，令申請人的小型屋宇申請可以繼續處理。
