10. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

Having considered the load growth of the existing services/customers and development of new small houses in Kan Tau Tsuen, a HV pillar is suggested to be installed, which is an essential facility for alleviating the heavy load condition of existing supply facilities, catering for the anticipated load growth from new small houses, and enhancing the reliability of the electricity supply system to Kan Tau Tsuen and the villages in the vicinity.

Please note that the HV pillar is a specially designed electrical equipment that occupies an area of less than 12 sq.m. It is of prefabricated design and totally enclosed to accommodate the required equipment. It is of unmanned design, easy to install, maintenance free and made of fireproof materials. Its impact to the nearby areas and local traffic is minimal.

On-site inspections have been carried out for technical feasibility of several potential locations for the installation, including Government land in "V" zone. However, with the practical considerations of spatial requirements, equipment delivery routings, proximity to load centre, provision of road with adequate space for laying power cable and coordination with existing power network to meet the needs of electrical load in the area, the proposed location was identified to be the only feasible option for this installation.

Hence, we hereby submit application to Town Planning Board for the approval of planning permission for the subject installation.

11. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

Government Land in D.D. 76, Kan Tau Tsuen, Fanling

Site area: About 11.95sq.m

Zoning: "Agriculture"

Applied development: HV Pillar

Dear TPB Members,

Again an application from CLP with no information provided with regard to end user.

There have been a number of applications to extend the village into the AG zoning. Strong objections to any facility that encourages this development.

Mary Mulvihill

Recommended Advisory Clauses

- (a) to note the comments of the District Lands Officer/North, Lands Department that should planning approval be given to the subject planning application, the applicant needs to apply to the Lands Department for an Excavation Permit for the proposed works. Application will be considered by Lands Department acting in the capacity of the landlord at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including among others the payment of fee, as may be imposed by the Lands Department;
- (b) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department that approval of the application does not imply approval of tree works such as pruning, transplanting and felling under lease. The applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of works;
- (c) to follow the environmental mitigation measures as set out in the latest 'Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites' issued by the Director of Environmental Protection in order to minimize any possible environmental nuisances;
- (d) to note the following comments of the Chief Building Surveyor/New Territories West, Buildings Department:
 - (i) if the existing structures are erected on leased land without approval of the Buildings Department (BD) (not being a New Territories Exempted House), they are unauthorized under the Buildings Ordinance (BO) and should not be designated for any approved use under the application;
 - (ii) before any new building works (including drainage works) are to be carried out on the Site, prior approval and consent of the Building Authority (BA) should be obtained unless they are exempted building works or commenced under the simplified requirement under the Minor Works Control System. Otherwise they are unauthorized building works (UBW). An Authorized Person (AP) should be appointed as the coordinator for the proposed building works in accordance with the BO;
 - (iii) for UBW erected on leased land, enforcement action may be taken by the BA to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - (iv) any temporary shelters or converted containers for storage or other uses are considered as temporary buildings subject to the control of Part VII of the Building (Planning) Regulations (B(P)R);
 - (v) the Site shall be provided with means of obtaining access thereto from a street under the B(P)R 5 and emergency vehicular access shall be provided under B(P)R 41D;
 - (vi) if the Site is not abutting on a specified street having a width not less than 4.5m

wide, the development intensity shall be determined by the BA under B(P)R 19(3) at the building plan submission stage;

- (vii) if the proposed use under application is subject to the issue of a licence, please be reminded that any existing structures on the Site intended to be used for such purposes are required to comply with the building safety and other relevant requirements as may be imposed by the licensing authority; and
- (viii) formal submission under the BO is required for any proposed new works, including any temporary structures and site formation works like filling of pond and land. Detailed comments under the BO will be provided at the building plan submission stage.
