

**Relevant Interim Criteria for Consideration of Application for
New Territories Exempted House (NTEH)/Small House in New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognised village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Government Departments' General Comments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- the application site (the Site) falls within the village 'environs' ('VE') of Ma Mei Ha Leng Tsui & Leng Pei Tsuen;
- the applicant has submitted a Small House application but rejected by her office. In his previous application, the applicant claimed himself as an indigenous villager of Fanling, Fanling Heung. The eligibility of the applicant for Small House grant is yet to be ascertained; and
- the Site is an Old Schedule Agricultural Lot held under Block Government Lease.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- no objection to the application from traffic engineering perspective;
- Small House developments should be confined within the "Village Type Development" ("V") zone as far as possible. Though additional traffic generated by the proposed development is not expected to be significant, such type of development outside the "V" zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact has to be reviewed on case-by-case basis in the future. Nevertheless, she considers that the application could be tolerated on traffic ground as it only involves the construction of one Small House; and
- her advisory comments are at **Appendix V**.

Comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/NTE, HyD):

- no comment on the application from highways maintenance perspective; and
- his advisory comments are at **Appendix V**.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- in view of the small scale of the proposed development, the application is unlikely to cause major pollution; and
- septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 1/23 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorised Person.

4. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection to the application from public drainage perspective;
- the Site is in an area where public sewerage connection is not available; and
- her advisory comments are at **Appendix V**.

5. **Fire Safety**

Comments of the Director of Fire Services (D of FS):

- no objection in principle to the application at this stage provided that the proposed Small House would not encroach on any existing Emergency Vehicular Access (EVA) or planned EVA under application in accordance with LandsD's record; and
- his advisory comments are at **Appendix V**.

6. **Landscape**

Comments of the Chief Town Planning/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- no adverse comment on the application from landscape planning perspective;
- with reference to the aerial photo of 2023, the Site is located in an area of rural inland plains landscape character comprising village houses, vegetated areas and scattered tree groups. The Site is occupied by vegetation of *Musa sp.* (蕉屬) and some trees of undesirable species. Significant adverse impact on the landscape character and the existing landscape resources within the Site arising from the proposed Small House development is not anticipated; and
- her advisory comments are at **Appendix V**.

7. **Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- does not support the application from agricultural perspective as the Site possesses potential for agricultural rehabilitation; and
- the Site falls within the "AGR" zone and is generally abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water source are also available. The Site can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc.

8. **Water Supplies**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- no objection to the application; and
- his advisory comments are at **Appendix V**.

9. **Electricity Supply Safety**

Comments of the Director of Electrical and Mechanical Services Department (DEMS):

- no particular comment on the application from electricity supply safety perspective; and
- his advisory comments are at **Appendix V**.

10. **Demand and Supply of Small House Sites**

According to the DLO/N, LandsD's records, the number of outstanding Small House applications for Ma Mei Ha Leng Tsui and Leng Pei Tsuen are 21 and 9 respectively, while the 10-year Small House demand forecast are 110 and 22 respectively. According to the latest estimate by PlanD, about 0.63ha (equivalent to about 25 Small House sites) of land are available within the "V" zone of Ma Mei Ha Leng Tsui and Leng Pei Tsuen village cluster for Small House development. There is insufficient land in the "V" zone of Ma Mei Ha Leng Tsui and Leng Pei to meet the future demand of land for Small House development (i.e. about 4.05ha of land which is equivalent to 162 Small House sites).

11. **Other Departments**

The following government departments have no objection to/no comment on the application:

- (a) District Officer (North), Home Affairs Department (DO(N) of HAD); and
- (b) Project Manager (North), Civil Engineering and Development Department (PM(N), CEDD).

Recommended Advisory Clauses

- (a) to note the comments of the Commissioner of Transport (C for T) that the local village access leading to the application site (the Site) from Sha Tau Kok Road – Ma Mei Ha is not managed by Transport Department (TD);
- (b) to note the comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/NTE, HyD) that:
 - (i) the proposed access arrangement of the Site should be commented and approved by TD;
 - (ii) adequate drainage measures shall be provided to prevent surface water running from the Site to the nearby public roads and drains; and
 - (iii) the access road connecting to the Site with the nearby public road is not and will not be maintained by his office. His office should not be responsible for maintaining any access connecting to the Site;
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
 - (i) adequate stormwater drainage collection and disposal facilities shall be provided to deal with the surface runoff of the Site or the same flowing on to the Site from the adjacent areas;
 - (ii) the applicant should check and ensure that the existing drainage channel downstream to which the proposed connection will be made have adequate capacity and satisfactory condition to cater for the additional discharge from the Site. The applicant should also ensure that the flow from the Site will not overload the existing drainage system; and
 - (iii) the Site is in an area where public sewerage connection is not available. Environmental Protection Department (EPD) should be consulted regarding the sewage impact assessment and sewage treatment/disposal facilities for the proposed development;
- (d) to note the comments of the Director of Fire Services (D of FS) that the applicant should observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ which is administrated by the Lands Department (LandsD). Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD;
- (e) to note the comments of the Chief Town Planning/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that the applicant should be advised that approval of the application does not imply approval of tree works such as pruning, transplanting and felling. The applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works;
- (f) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that:
 - (i) for the provision of water supply to the proposed development, the applicant may need to extend his inside services to the nearest suitable government water mains for connection; and

- (ii) the applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standard;
- (g) to note the comments of the Electrical and Mechanical Services Department (DEMS) that:
 - (i) in the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organising and supervising any activity near the underground cable or overhead line under the mentioned document should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site; and
 - (ii) the applicant also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation when carrying out works in the vicinity of the electricity supply lines; and
- (h) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permissions from the Town Planning Board where required before carrying out the road works.

Dear TPB Members,

Despite the availability of lots within the village boundaries you continue to encourage the expansion into Agriculture zoning by approving the development of NET houses, even when there is no record of previous approvals.

This despite the undesirable addition of septic tanks.

Have members read the recent report from the Ombudsman man that underlines the fact that many of these tanks are not properly maintained?

Defective sewage works of NTEHs, such as rupture or leakage of **septic tanks**, may cause serious environmental pollution and nuisance.

Ombudsman Report - Defective Sewage Works of New Territories Exempted Houses

https://www.ombudsman.hk/wp-content/uploads/2023/08/20230814_DI459_Full-Report_EN.pdf.

It is obvious that it would be prudent to restrict these facilities within the village proper to facilitate better monitoring..

Applied development: NET House

Dear TPB Members,

Despite the availability of lots within the village boundaries you continue to encourage the expansion into Agriculture zoning by approving the development of NET houses, even when there is no record of previous approvals.

This despite the undesirable addition of septic tanks.

Have members read the recent report from the Ombudsman man that underlines the fact that many of these tanks are not properly maintained?

Defective sewage works of NTEHs, such as rupture or leakage of **septic tanks**, may cause serious environmental pollution and nuisance.

Ombudsman Report - Defective Sewage Works of New Territories Exempted Houses

https://www.ombudsman.hk/wp-content/uploads/2023/08/20230814_DI459_Full-Report_EN.pdf.

It is obvious that it would be prudent to restrict these facilities within the village proper to facilitate better monitoring..
