## LOCATION PLAN

## Justification

Appendix G

### Lot 1511 S.K in D.D. 91

1. The applicant Mr Liu Hoo Chi Alex (廖豪志), an indigenous villager of Sheung Shui Wai District North, wishes to apply for planning permission to build a small house under section 16 of the Town Planning Ordinance;
2. 62% of the proposed small house is within the Village Environs ("VE") of Kai Leng, District North whereas the rest of it falls on the Agriculture Zone ("Agr") of Kai Leng. Centre of the proposed house site is about 100 meters in average away from the village type development "V" Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the "V" zone of Kai Leng is very limited and there is a high demand of small house applications. Therefore, it is nearly impossible to purchase land such that the footprint of the proposed small house is completely falling inside the "V" Zone;
4. The proposed development is considered compatible with the adjoining rural environment and will be visually un-intrusive to the surrounding;
5. No tree felling is required in this proposed small house development;
6. There is no ditch or stream course within 30 meters of the application site;
7. At present, there is no vehicular access leading to the application site. It can be accessed on foot only. Therefore, the development would not cause any adverse traffic impacts to the surrounding;
8. Planning Permission had been given to the applicant (Ref no. A/NE-PK/112) on 17/02/2017;
9. Similar applications (Application No. A/NE-PK/94, A/NE-PK/113, A/NE-PK/118, A/NE-PK/119 and A/NE-PK/143) for small house development within the "VE" of Kai Leng were approved by the TPB in the past.

## From Survey Sheet No. 3-SW-A

SCALE 1:5000

JustificationLot 1511 S.G in D.D. 91

1. The applicant Mr Liu Chi Shing (廖自成), an indigenous villager of Sheung Shui Wai District North, wishes to apply for planning permission to build a small house under section 16 of the Town Planning Ordinance;
2. The application site is entirely within the village environs ("VE") of Kai Leng, District North. Centre of the proposed house site is about 88 meters in average away from the village type development "V" Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the "V" zone of Kai Leng is very limited and there is a high demand of small house applications. Therefore, it is nearly impossible to purchase land such that the footprint of the proposed small house is completely falling inside the "V" zone;
4. The proposed development is considered compatible with the adjoining rural environment and will be visually un-intrusive to the surrounding;
5. No trees felling is required in this proposed small house development;
6. There is no ditches or stream courses within 30 meters of the subject site;
7. At present, there is no vehicular access leading to the subject site. It can only be accessed on foot. Therefore, the development would not cause any adverse traffic impacts to the surrounding;
8. Planning Permission had been given to the applicant (Ref no. A/NE-PK/110) on 03/02/2017;
9. Similar applications (Application No. A/NE-PK/94, A/NE-PK/113, A/NE-PK/118, A/NE-PK/119 and A/NE-PK/143) for small house development within the "VE" of Kai Leng were approved by the TPB in the past.

**Relevant Interim Criteria for Consideration of**  
**Application for NTEH/Small House in New Territories**  
**( promulgated on 7.9.2007 )**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village ‘environs’ (‘VE’) of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the “Village Type Development” (‘V’) zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the ‘VE’, favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the “V” zone, provided that there is a general shortage of land in meeting the demand for Small House development in the “V” zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the ‘VE’ and the “V” zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;

- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (j) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

**Detailed Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) for Application No. A/NE-PK/152, the Site partially falls within the ‘village environs’ (‘VE’) of Kai Leng; for Application No. A/NE-PK/153, the Site falls entirely within the same ‘VE’;
- (b) the applicants claimed themselves as indigenous villagers of Sheung Shui Village. Their eligibilities for Small House concessionary grants have yet to be ascertained;
- (c) the Mother Lot (Lot No. 1511) of the Sites is covered by Modification of Tenancy (MOT) No. 37125 and Letter of Approval (LoA) No. L4256. The MOT and LoA will be cancelled if the Small House Applications are approved;
- (d) the Sites are held under Block Government Lease demised for agricultural use;
- (e) the number of outstanding Small House applications and the number of 10-year Small House demand forecast (2018 to 2027) for Kai Leng Village are 69 and 279 respectively. The figure of the 10-year Small House demand forecast was provided by the relevant Indigenous Inhabitant Representative; and
- (f) Small House applications at the Sites of A/NE-PK/152 and 153 were made to his office on 21.4.2015 and 6.10.2015 respectively and are under processing.

**2. Traffic**

Comments of the Commissioner for Transport (C for T):

- (a) in general, he has reservations on the applications. Such type of development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, he considers that the applications involves the construction of limited number of Small Houses. He can be tolerated unless the applications being rejected on other grounds.

### 3. **Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) he does not support the applications from agricultural point of view; and
- (b) the Sites fall within “AGR” zone and are currently abandoned land. Agricultural activities are active in the vicinity and agricultural infrastructures such as road access and water sources are also available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. The Sites possess potential for agricultural rehabilitation.

### 4. **Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed developments, the applications alone are unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection department” and are duly certified by an Authorised Person.

### 5. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the applications from the landscape planning perspective;
- (b) according to aerial photo of 2020, the Sites are located in an area of rural inland plains landscape character comprising vegetated areas, farmlands and village houses. No significant sensitive landscape resource is observed within the Sites. Hence, significant adverse impact on existing landscape resources arising from the proposed developments is not anticipated.
- (c) many applications surrounding and in close proximity to the Sites for NTEH development were approved by the Board. The proposed NTEHs under current applications are considered not entirely incompatible with the surrounding environment of the Sites; and
- (d) as there is no major public frontage along the site boundary, should the application be approved by the Board, it is considered not necessary to impose a landscape condition as the effect of additional landscaping on enhancing the quality of public realm is not apparent.

## 6. **Drainage and Sewerage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) no in-principle objection to the applications from public drainage viewpoint;
- (b) the Sites are in an area where no DSD stormwater drain is available. Should the applications be approved, a condition should be included to request the applicants to submit and implement a drainage proposal for the Sites to ensure that they will not cause adverse drainage impact to the adjacent area. The applicants should note that:
  - all existing flow paths as well as the run-off onto and passing through the Sites should be intercepted and disposed of via proper discharge points. The applicants shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow conditions of the existing drain, channels and water courses on or in the vicinity of the Sites any time during or after works;
  - surface channels should be provided along the perimeter of the lot to collect all the runoff generated from the Sites or passing through the Sites, and discharge the runoff collected to a proper discharge point. Where walls are erected or kerbs are laid along the boundary of the Sites, peripheral channels should be provided on both sides of the walls or kerbs with details to be agreed by DSD; and
  - the proposed drainage works, whether within or outside the lot boundary, should be constructed and maintained by the lot owners at their expense. For drainage works to be undertaken outside the lot boundary, the applicants should obtain prior consents and agreement from DLO/N and/or relevant private lot owners.
- (c) the Sites are in an area where no public sewerage connection is available.

## 7. **Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) no objection to the applications;
- (b) for provision of water supply to the proposed developments, the applicants may need to extend their inside services to the nearest suitable government water mains for connection; and
- (c) for Application No. A/NE-PK/152, as the Site is surrounded by private lots, the applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lot to his office's standard.

## 8. **Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) no in-principle objection to the applications; and
- (b) the applicants are reminded to observe the ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by the LandsD. Detailed fire safety requirements will be formulated upon receipt of formal applications referred by LandsD.

## 9. **District Officer’s Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

The Chairman of Sheung Shui District Rural Committee, the Indigenous Inhabitant Representative and the Resident Representative (RR) of Kai Leng, the incumbent North District Council (NDC) member and the Chairman of Fung Shui Area Committee have no comment on the applications.

## 10. **Demand and Supply of Small House Sites**

According to the DLO/N, LandsD’s record, the total number of outstanding Small House applications for Kai Leng Village is 69 while the 10-year Small House demand forecast for the same villages is 279. Based on the latest estimate by the Planning Department, about 0.63 ha of land (or equivalent to about 25 Small House sites) are available within the “V” zone of Kai Leng Village for Small House development. There is insufficient land in the “V” zone of Kai Leng to meet the demand of land for Small House development (i.e about 8.7 ha which is equivalent to about 348 Small House sites).

Site area : About 149.9sq.m

Zoning : "Agriculture"

Applied development : 2 NET Houses

Dear TPB Members,

Strong objections to yet more development on lots well within the AG zoning of this village. The 300sqft village limit for NET houses has long been breached. There is no condition in the Small House Policy that endorses the creation of new village clusters.

Most of the board members were appointed since 2017 and are required to make decisions with fresh eyes and in line with updated formula.

Septic Tanks, Audit Commission recommended they be phased out

65. Members noted that the requirement of sewerage connection was clearly stated in the HKPSG, and generally considered that the Board should follow the requirement in considering the current application. Mr Elvis W.K. Au, Deputy Director of Environmental Protection (1) of EPD, said that after the promulgation of the guideline on controlling effluent discharge in WGGs under Chapter 9 of the HKPSG, it had been the government policy to require new developments within WGGs to be connected to public sewers. The Government had also briefed the Board on the environmental and health risks arising from septic tank installation in the areas. In 2002, the Board revised the "Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories" which clearly stated that generally the Board only supported new Small House development in WGG if it was connected to the public sewerage system. Notwithstanding that existing buildings with septic tanks in unsewered areas were tolerated, the requirement for sewerage connection would help avoid worsening the water quality in WGGs. So far, EPD and WSD had consistently followed that requirement in handling similar cases

In addition the number of applications for KAI LENG NEW TOWN should raise suspicions that Ding Rights have been manipulated and a villa development is being launched. This was not the intention of the Small House Policy that has been

abused to an incredible level.

## **Proposed House (New Territories Exempted House - Small House) (Application No. A/NE-PK/152 and A/NE-PK.153)**

Dear Chairman and Members,

Designing Hong Kong Limited **objects** the captioned for the following reasons:

- The proposed area is zoned as "**Agriculture (AGR)**". The planning intention of this zone is primarily for retaining and safeguarding good quality agricultural land/farm/fish ponds for agricultural purposes. It is also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes.
- **Land is still available** within the "V" zone of Kai Leng which is primarily intended for Small House development. It is considered more appropriate to concentrate the proposed development within the "V" zone for more orderly development pattern, efficient use of land and provision of infrastructure and services. There is no strong planning justification in the submission for a departure from the planning intention.
- The approval of the application would set an undesirable precedent for other applications within the "Agriculture (AGR)" zone, and lead to a general degradation of the rural environment of the area.

Here we submit our concerns for your consideration.

Yours,

**Designing Hong Kong Limited**

**Recommended Advisory Clauses**

- (a) to note the comments of Chief Engineer/Mainland North, Drainage Services Department that the Sites are in an area where no stormwater drain is available. The applicants should note that:
- all existing flow paths as well as the run-off onto and passing through the Sites should be intercepted and disposed of via proper discharge points. The applicants shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow conditions of the existing drain, channels and water courses on or in the vicinity of the Sites any time during or after works;
  - surface channels should be provided along the perimeter of the lot to collect all the runoff generated from the Sites or passing through the Sites, and discharge the runoff collected to a proper discharge point. Where walls are erected or kerbs are laid along the boundary of the Sites, peripheral channels should be provided on both sides of the walls or kerbs with details to be agreed by DSD; and
  - the proposed drainage works, whether within or outside the lot boundary, should be constructed and maintained by the lot owners at their expense. For drainage works to be undertaken outside the lot boundary, the applicants should obtain prior consents and agreement from DLO/N and/or relevant private lot owners;
- (b) to note the comments of the Chief Engineer/Construction, Water Supplies Department that:

**Application No. A/NE-PK/152 and 153**

- for provision of water supply to the proposed development, the applicant may need to extend his/her inside services to the nearest suitable government water mains for connection; and

**Application No. A/NE-PK/152**

- as the Site is surrounded by private lots, the applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lot to his office's standard;
- (c) to note the comments of Director of Fire Services that the applicants are reminded to observe the 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal applications referred by LandsD;
- (d) to note the comments of the Director of Environmental Protection that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorised Person; and

- (e) to note that the permission is only given to the development under the applications. If provision of an access road is required for the proposed development, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
