Proposed Small House on Lot 1580 S.A in D.D. 91

Justification

Lot 1580 S.A in D.D. 91

1. The applicant, Mr LIU Kam Wah (廖錦華先生) is an indigenous villager of Kai Leng Village, District North who wishes to apply permission to build a small house under section 16 of the Town Planning Ordinance;
2. The application site is entirely falling within the village environs ("VE") of Kai Leng Village, District North but falling on land classified as "AGR". Center of the proposed house site is about 15 metres in average away from the village type development "V" Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the "V" zone of Kai Leng is very limited and there is a great demand of small house applications, therefore it is nearly impossible for the applicant to purchase land such that the footprint of the proposed small house is completely falling inside the "V" zone;
4. The proposed development is considered compatible with the rural environment and will be visually un-intrusive to the surrounding;
5. The proposed development would not cause adverse environmental impacts. It does not involve tree felling;
6. There is no ditches or stream course within 30 metres of the subject lot;
7. At present, there is no vehicular access leading to the subject site, it can only be accessed on foot. Therefore, the development would not cause adverse traffic impact to the surroundings;
8. The subject site had been granted permission under section 16 of the Town Planning Ordinance (A/NE-PK/50-1 refers);
9. Similar applications (Application No. A/NE-PK/90-1, A/NE-PK/91-1, A/NE-PK/92-1, A/NE-PK/55-1, A/NE-PK/130-1 and A/NE-PK/51-1) for small house development within "VE" of Kai Leng Village were approved by TPB in the past.

Proposed Small House Plan on Lot 1580 S.B in D.D. 91

Justification

Appendix.....^G

Lot 1580 S.B in D.D. 91

1. The applicant, Mr Liu Kai Chun (廖啟鎮先生) is an indigenous villager of Kai Leng Village, District North who wishes to apply permission to build a small house under section 16 of the Town Planning Ordinance;
2. The application site is entirely falling within the village environs ("VE") of Kai Leng Village, District North but falling on land classified as "AGR". Center of the proposed house site is about 28 metres in average away from the village type development "V" Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the "V" zone of Kai Leng is very limited and there is a great demand of small house applications, therefore it is nearly impossible for the applicant to purchase land such that the footprint of the proposed small house is completely falling inside the "V" zone;
4. The proposed development is considered compatible with the rural environment and will be visually un-intrusive to the surrounding;
5. The proposed development would not cause adverse environmental impacts. It does not involve tree felling;
6. There is no ditches or stream course within 30 metres of the subject lot;
7. At present, there is no vehicular access leading to the subject site, it can only be accessed on foot. Therefore, the development would not cause adverse traffic impact to the surroundings;
8. The subject site had been granted permission under section 16 of the Town Planning Ordinance (A/NE-PK/51-1 refers);
9. Similar applications (Application No. A/NE-PK/89-1, A/NE-PK/90-1, A/NE-PK/91, A/NE-PK/50-1 and A/NE-PK/130-1) for small house development within "VE" of Kai Leng Village were approved by TPB in the past.

Relevant Revised Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (j) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Sites fall entirely within the village ‘environs’ (‘VE’) of Kai Leng;
- (b) the applicants claimed themselves as indigenous villagers of Sheung Shui. Eligibility for Small House grant of the applicant of No. A/NE-PK/165 has been ascertained while that of the applicant of No. A/NE-PK/166 is yet to be ascertained;
- (c) the Sites are old schedule agricultural lots. The Small House application at the Site of A/NE-PK/165 was approved on 20.3.2017, the Small House application at the Site of A/NE-PK/166 was made to LandsD on 18.11.2013 and is currently under processing by LandsD;
- (d) the Sites are covered by Modification of Tenancy (MOT) No. 32668. The concerned MOT will be cancelled before the execution of the licence documents for Site of No. A/NE-PK/165;
- (e) the Sites are old schedule agricultural lots;
- (f) according to LandsD’s record, there is no “Fung Shui” area at Kai Leng; and
- (g) while the proposed Small House location under Application No. A/NE-PK/166 is different from the Small House grant application being processed by his office. Should the above application be approved, the applicant should rectify the discrepancy.

2. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) he does not support the applications from agricultural point of view; and
- (b) the Sites fall within “AGR” zone and are vacant. Agricultural activities are active in the vicinity and agricultural infrastructures such as road access and water sources are also available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. The Sites possess potential for agricultural rehabilitation.

3. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) such type of development should be confined within the “Village Type Development” (“V”) zone as far as possible. Although additional traffic generated by the proposed developments are not expected to be significant, such type of development outside “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, he considers that the applications only involving the development of one Small House on each site can be tolerated on traffic grounds.

4. Water Supply

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) no objection to the applications; and
- (b) for provision of water supply to the development the applicants may need to extend the inside services to the nearest suitable government water mains for connection. The applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD’s standards.

5. Environment

Comments of the Director of Environmental Protection (DEP):

- in view of the small scale of the proposed developments, the applications alone are unlikely to cause major pollution.

6. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) no objection to the applications from public drainage viewpoint;
- (b) the Sites are in an area where no DSD stormwater drain is available. Should the applications be approved, a condition should be included to request the applicant to submit and implement a drainage proposal for the Sites to ensure that they will not cause adverse drainage impact to the adjacent area. The applicants should note that:

- (i) all existing flow paths as well as the run-off onto and passing through the Sites should be intercepted and disposed of via proper discharge points. The applicants shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow conditions of the existing drain, channels and water courses on or in the vicinity of the Sites any time during or after works;
 - (ii) surface channels should be provided along the perimeter of the lots to collect all the runoff generated from the Sites or passing through the Sites, and discharge the runoff collected to a proper discharge point. Where walls are erected or kerbs are laid along the boundary of the Sites, peripheral channels should be provided on both sides of the walls or kerbs with details to be agreed by DSD; and
 - (iii) the proposed drainage works, whether within or outside the lot boundary, should be constructed and maintained by the lot owners at their own expense. For drainage works to be undertaken outside the lot boundary, the applicants should obtain prior consents and agreement from LandsD and/or relevant private lot owners; and
- (c) the Sites are in an area where no public sewerage connection is available.

7. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the applications from landscape planning perspective;
- (b) according to aerial photo of 2021, the Sites are located in an area of rural inland plains landscape character comprising farmlands, village houses, vegetated areas, clusters of trees and temporary structures. The Sites are vacant with no significant sensitive landscape resource. Hence, significant adverse landscape impact arising from the proposed developments is not anticipated; and
- (c) many applications surrounding the Sites for the same use were approved by the Town Planning Board. The proposed Small Houses under current applications are considered not incompatible with the surrounding environment of the Sites.

8. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) no in-principle objection to the all applications, provided that the proposed Small Houses would not encroach on any existing Emergency Vehicular Access (EVA) or planned EVA; and
- (b) the applicants are reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by the LandsD. Detailed fire safety requirements would be formulated upon receipt of formal applications referred by the LandsD.

9. Demand and Supply of Small House Sites

According to the DLO/N, LandsD's record, the total number of outstanding Small House applications for Kai Leng is 69 while the 10-year Small House demand forecast is 279. Based on the latest estimate by PlanD, about 0.64 ha of land (or equivalent to about 25 Small House sites) are available within the "V" zone of Kai Leng. There is insufficient land in the "V" zone of Kai Leng to meet the demand of land for Small House development (i.e. about 8.7 ha which is equivalent to about 348 Small House sites).

Recommended Advisory Clauses

- (a) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
 - (i) all existing flow paths as well as the run-off onto and passing through the Sites should be intercepted and disposed of via proper discharge points. The applicants shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow conditions of the existing drain, channels and water courses on or in the vicinity of the Sites any time during or after works;
 - (ii) surface channels should be provided along the perimeter of the lots to collect all the runoff generated from the Sites or passing through the Sites, and discharge the runoff collected to a proper discharge point. Where walls are erected or kerbs are laid along the boundary of the Sites, peripheral channels should be provided on both sides of the walls or kerbs with details to be agreed by DSD; and
 - (iii) the proposed drainage works, whether within or outside the lot boundary, should be constructed and maintained by the lot owners at their expense. For drainage works to be undertaken outside the lot boundary, the applicants should obtain prior consents and agreement from Lands Department (LandsD) and/or relevant private lot owners;
- (b) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that:
 - (i) for provision of water supply to the developments, the applicants may need to extend the inside services to the nearest suitable government water mains for connection; and
 - (ii) the applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards;
- (c) to note the comments of the Director of Fire Services (D of FS) that the applicants are advised to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by the LandsD. Detailed fire safety requirements will be formulated upon receipt of formal applications referred by the LandsD;
- (d) to note the comments of the Director of Environmental Protection (DEP) that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person (AP); and

- (e) to note that the permission is only given to the development under applications. If provision of an access road is required for the proposed developments, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from Town Planning Board where required before carrying out the road works.
