

Relevant Revised Interim Criteria for Consideration of
Application for New Territories Exempted House (NTEH)/Small House in New
Territories
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
 - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- ^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) no comment to the applications;
- (b) the sites of applications No. A/NE-PK/170 and 171 fall entirely within the village 'environs' ('VE') of Kai Leng Village, while more than 50% of the site of application No. A/NE-PK/172 falls within the 'VE' of Kai Leng Village;
- (c) the applicant of application No. A/NE-PK/170 is an indigenous villager of Sheung Shui Village. Both the applicants of applications No. A/NE-PK/171 and 172 are the indigenous villagers of Tsung Pak Long Village. Their eligibility for Small House grant has been ascertained;
- (d) the application sites (the Sites) are old schedule agriculture lots. All the Small House applications were approved and the Building Licences are yet to be executed;
- (e) the Sites are currently not covered by any Building Licence/Modification of Tenancy; and
- (f) the proposed locations of septic tank and soakage pit for Application No. A/NE-PK/171 are slightly different from the approved locations.

2. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation:

- (a) the proposed developments are not supported from agricultural perspective; and
- (b) the Sites fall within the "Agriculture" zone and are abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water sources are also available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. The Sites possess potential for agricultural rehabilitation.

3. Traffic

Comments of the Commissioner for Transport:

- (a) Small House (SH) development should be confined within the "Village Type Development" ("V") zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of development outside the "V" zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the applications only involve development of three SHs and they can be tolerated on traffic grounds.

4. Environment

Comments of the Director of Environmental Protection:

- in view of small scale of the proposed developments, the applications alone are unlikely to cause major pollution.

5. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) if the applications are approved, an approval condition to request the applicants to submit and implement a drainage proposal for the Sites should be included to ensure that the proposed developments will not cause adverse drainage impact on the adjacent area; and
- (b) the Sites are within an area where no existing public sewerage network is available for connection in the vicinity. Should the applicants choose to connect their proposed sewerage system to DSD's network, they shall furnish DSD with their connection proposal for agreement if the applications are approved. Should the applicants choose to dispose of sewage of the proposed development through other means, septic tank in these cases, views and comments from Environmental Protection Department should be sought.

6. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department:

- (a) no objection to the applications from the landscape planning perspective;
- (b) the Sites are located in an area of rural inland plains landscape character comprising of village houses, vegetated areas and clusters of tree groups; and
- (c) the Sites are vacant and covered by self-seeded vegetation. Some trees of common species are observed along the eastern site boundaries outside the Sites. Significant adverse impact on the landscape character and the existing landscape resources within the Sites arising from the proposed uses is not anticipated.

7. Fire Safety

Comments of the Director of Fire Services:

- no in-principle objection to the applications provided that the proposed houses would not encroach on any existing emergency vehicular access (EVA) or planned EVA.

8. Demand and Supply of Small House Sites

According to DLO/N, LandsD's record, the total number of outstanding SH applications for Kai Leng Village is 67, while the 10-year SH demand forecast for concerned village is 279. Based on the latest estimate by Planning Department, about 0.68 ha (or equivalent to

about 27 SH sites) of land is available within the “V” zones of Kai Leng Village . Therefore, the land available cannot fully meet the future demand of 346 SHs (or equivalent to about 8.65 ha of land).

Applied development: 4 Net Houses

Dear TPB Members,

Another Villa development. The previous approvals have long lapsed and members should consider these applications under current policy initiatives and conditions.

More than 150 NET houses have been approved at Kai Leng over recent years but no public sewerage system installed.

Members should consider the impact of so many septic tanks poorly maintained, leaching into the soil and posing potential community health risks. Expansion of the sprawl of poorly constructed dwellings with no regard for good planning and provision of community facilities is a most inefficient land use.

The applications should be rejected.

Zoning: "Agriculture"

Applied development: 4 Net Houses

Dear TPB Members,

Another Villa development. The previous approvals have long lapsed and members should consider these applications under current policy initiatives and conditions.

More than 150 NET houses have been approved at Kai Leng over recent years but no public sewerage system installed.

Members should consider the impact of so many septic tanks poorly maintained, leaching into the soil and posing potential community health risks. Expansion of the sprawl of poorly constructed dwellings with no regard for good planning and provision of community facilities is a most inefficient land use.

The applications should be rejected.

Recommended Advisory Clauses

- (a) to note the comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD) that the Government does not guarantee any right-of-way to the lot(s) and the applicant(s) must accordingly make his/their own arrangements for acquiring such right-of-way. The final approved footprint/layout of the proposed Small House by LandsD may be subject to amendment/revision;
- (b) to note the comments of the Director of Environmental Protection that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person;
- (c) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department that approval of the applications does not imply approval of tree works such as pruning, transplanting and felling under lease. Approval should be sought for any proposed tree works from relevant departments prior to commencement of the works;
- (d) to note the comments of the Director of Fire Services that the applicants are advised to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal applications referred by LandsD; and
- (e) to note that the permissions are only given to the development under applications. If provision of an access road is required for the proposed developments, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from Town Planning Board where required before carrying out the road work.
