Justification

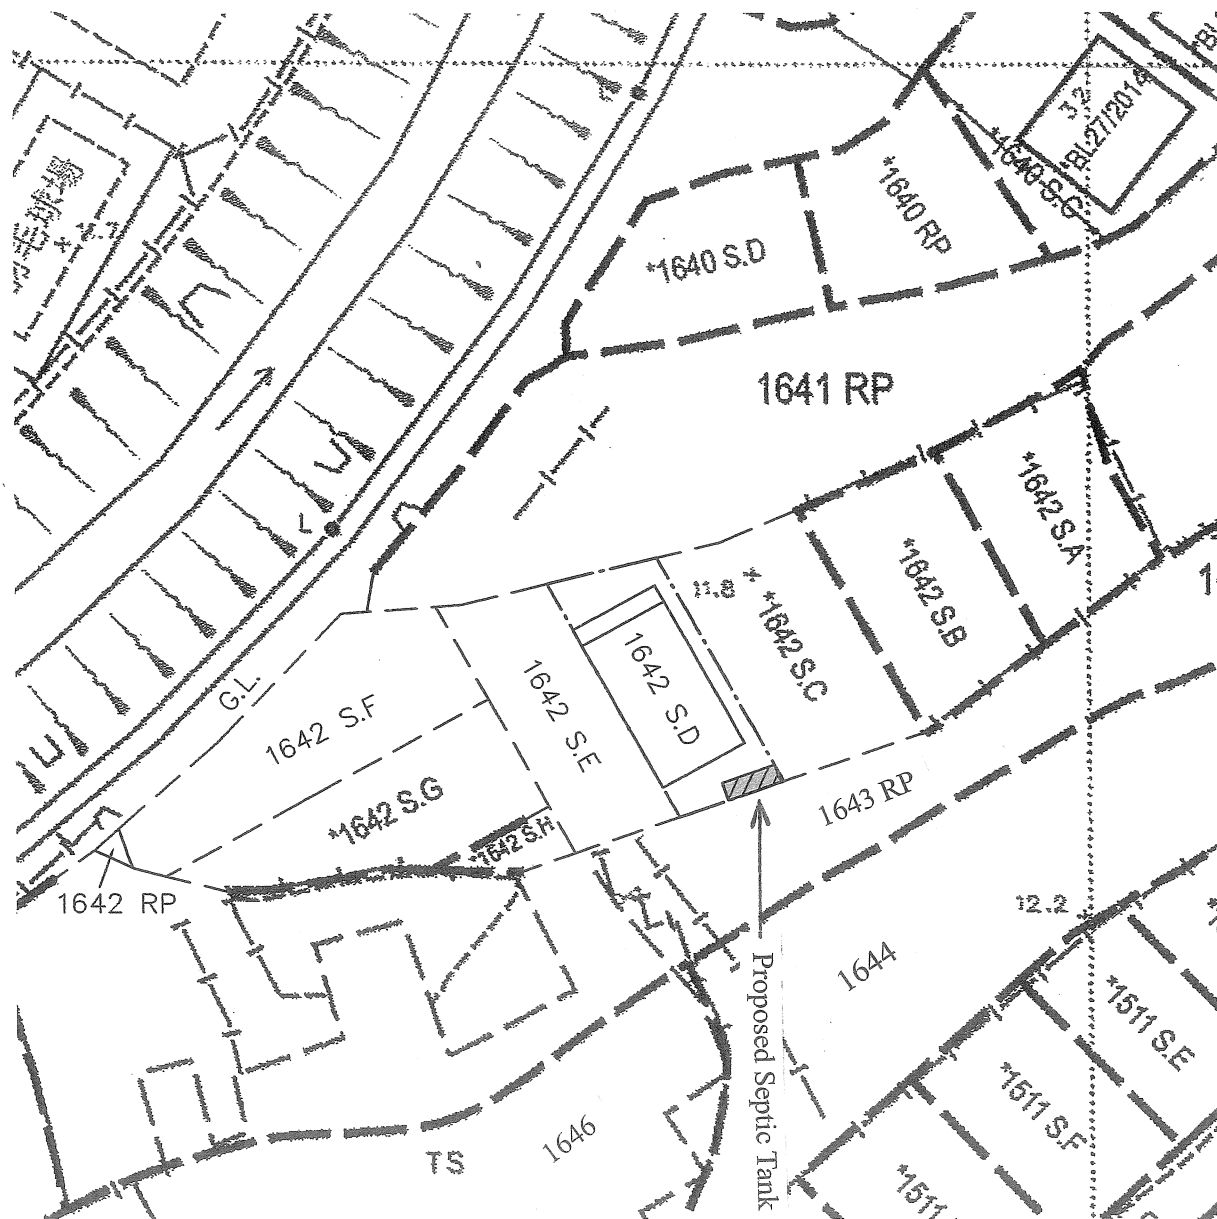

Appendix **F**

Lots 1642 S.D in D.D. 91

1. The applicant, Mr. Cheung Hok Kan (張學勤), an indigenous villager of Sheung Shui Heung, North, wishes to apply for planning permission to build a small house under section 16 of the Town Planning Ordinance;
2. The proposed house site wholly falls within the Village Environs Boundary and AGR Zone of Kai Leng, North. Centre of the proposed house site is about 52 meters in average away from the Village Type Development Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the “V” Zone of Kai Leng is very limited and there is high demand of small house applications. “V” Zone land owner is unwilling to release his land property to others, therefore, it is nearly impossible to purchase land such that the footprint of the proposed small house is completely falling inside the “V” Zone;
4. On western side, about 39 metres in average away from the centre of the proposed site, there is a nullah running northwards;
5. No tree felling and earth filling are required in this proposed small house development;
6. The proposed development is considered compatible with the adjoining rural environment and will be visually un-intrusive to the surrounding;
7. At present, there is no vehicular access leading to the application site, it can only be accessed on foot. Therefore, the proposed development would not cause any adverse traffic impact to the surrounding;
8. The application site had been approved by the Board, A/NE-PK/85-1 refers;
9. The small house grant has not been approved by DLO/North as it is beyond the control by the applicant;
10. Similar applications (Application No. or Lot Nos. 1511 S.A to 1511 S.G, A/NE-PK/29, A/NE-PK/82-1, A/NE-PK/83-1, A/NE-PK/84-1, A/NE-PK/86-1, A/NE-PK/87-1 and A/NE-PK/123-1) for small houses development within AGR Zone of Kai Leng were approved by the T.P.B. in the past.

Justification

Appendix.....

Lots 1642 S.E in D.D. 91

1. The applicant, Mr. Liu Yuen Pang (廖淵彭), an indigenous villager of Sheung Shui Heung, North, wishes to apply for planning permission to build a small house under section 16 of the Town Planning Ordinance;
2. The proposed house site wholly falls within the Village Environs Boundary and AGR Zone of Kai Leng, North. Centre of the proposed house site is about 57 meters in average away from the Village Type Development Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the “V” Zone of Kai Leng is very limited and there is high demand of small house applications. “V” Zone land owner is unwilling to release his land property to others, therefore, it is nearly impossible to purchase land such that the footprint of the proposed small house is completely falling inside the “V” Zone;
4. On western side, about 37 metres in average away from the centre of the proposed site, there is a nullah running northwards;
5. No tree felling and earth filling are required in this proposed small house development;
6. The proposed development is considered compatible with the adjoining rural environment and will be visually un-intrusive to the surrounding;
7. At present, there is no vehicular access leading to the application site, it can only be accessed on foot. Therefore, the proposed development would not cause any adverse traffic impact to the surrounding;
8. The application site had been approved by the Board, A/NE-PK/86-1 refers;
9. The small house grant has not been approved by DLO/North as it is beyond the control by the applicant;
10. Similar applications (Application No. or Lot Nos. 1511 S.A to 1511 S.G, A/NE-PK/29, A/NE-PK/82-1, A/NE-PK/83-1, A/NE-PK/84-1, A/NE-PK/85-1, A/NE-PK/87-1 and A/NE-PK/123-1) for small houses development within AGR Zone of Kai Leng were approved by the T.P.B. in the past.

Proposed Small House Plan of Lot No. 1642 S.F in D.D. 91

EXTRACT PLAN

From O.Z.P. S/NE-PK/11

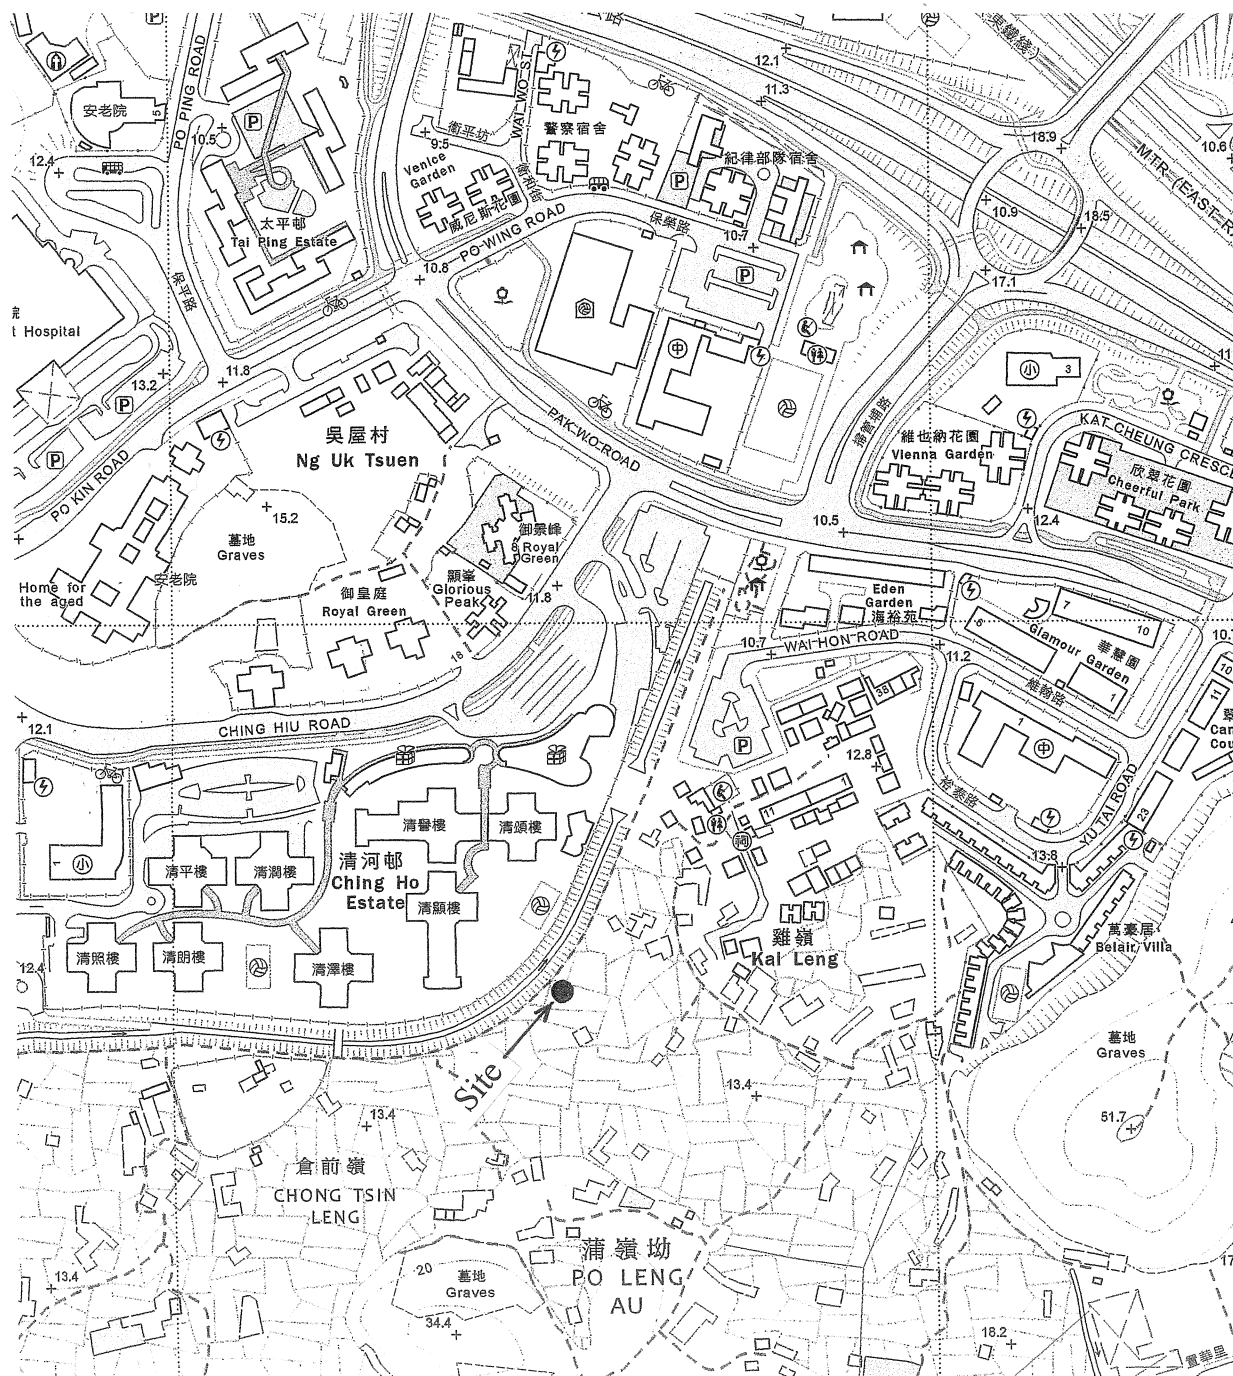

SCALE 1:7500

LOCATION PLAN

From Survey Sheet No. 3-SW-A

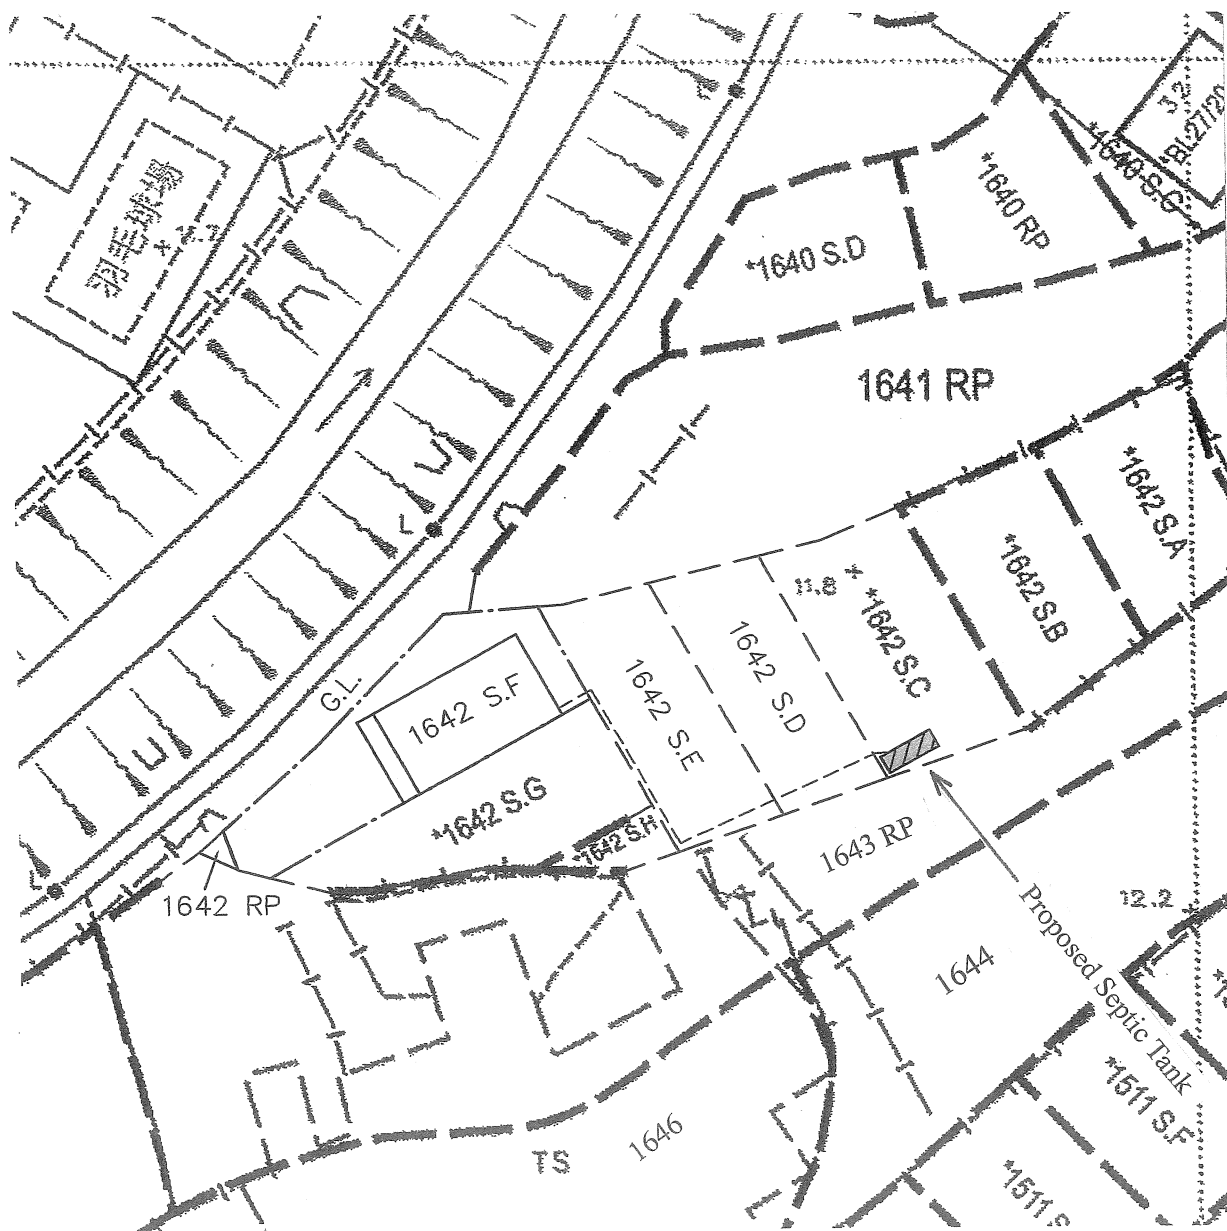

SCALE 1:5000

Justification

Lots 1642 S.F in D.D. 91

1. The applicant, Mr. Liu, Lewise Gee Yung (廖智仁), an indigenous villager of Sheung Shui Heung, North, wishes to apply for planning permission to build a small house under section 16 of the Town Planning Ordinance;
2. The proposed house site wholly falls within the Village Environs Boundary and AGR Zone of Kai Leng, North. Centre of the proposed house site is about 61 meters in average away from the Village Type Development Zone on the Ping Kong Outline Zoning Plan S/NE-PK/11;
3. Land supply within the "V" Zone of Kai Leng is very limited and there is high demand of small house applications. "V" Zone land owner is unwilling to release his land property to others, therefore, it is nearly impossible to purchase land such that the footprint of the proposed small house is completely falling inside the "V" Zone;
4. On western side, about 25 metres in average away from the centre of the proposed site, there is a nullah running northwards;
5. No tree felling and earth filling are required in this proposed small house development;
6. The proposed development is considered compatible with the adjoining rural environment and will be visually un-intrusive to the surrounding;
7. At present, there is no vehicular access leading to the application site, it can only be accessed on foot. Therefore, the proposed development would not cause any adverse traffic impact to the surrounding;
8. The application site had been approved by the Board, A/NE-PK/87-1 refers;
9. The small house grant has not been approved by DLO/North as it is beyond the control by the applicant;
10. Similar applications (Application No. or Lot Nos. 1511 S.A to 1511 S.G, A/NE-PK/29, A/NE-PK/82-1, A/NE-PK/83-1, A/NE-PK/84-1, A/NE-PK/86-1, and A/NE-PK/123-1) for small houses development within AGR Zone of Kai Leng were approved by the T.P.B. in the past.

hi John,

我翻查過我們的資料，附上相片一張，當時情況沒有任何小樹，我相信這是野生的，地上的並不是混凝土，只是碎石，防止落雨的時候製造的濕滑。
所以懇請當局盡快批出我們的申請。

Relevant Revised Interim Criteria for Consideration of
Application for New Territories Exempted House (NTEH)/Small House in New
Territories
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
 - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- ^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Rejected Applications

Application No.	Uses/ Development	Date of Consideration	Rejection Reasons
A/NE-PK/114 ¹	Temporary Private Car Park (Private Car and Light Goods Vehicle) for a Period of 3 Years	26.5.2017	R1 – R3
A/NE-PK/128 ¹	Temporary Private Car Park (Private Car and Light Goods Vehicle) for a Period of 3 Years	7.9.2018	R1 – R3

Remarks

- ¹: The sites of application Nos. A/NE-PK/203 and 204 partly overlap with application Nos. A/NE-PK/114 and 128.

Rejection Reasons:

- R1. The temporary private car park under application was not in line with the planning intention of the “Agriculture” (“AGR”) zone in the Ping Kong area which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes, and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the submission for a departure from the planning intention, even on a temporary basis.
- R2. The applicant fails to demonstrate in the submission that the development would not result in adverse landscape impact on the surrounding areas.
- R3. The approval of the application would set an undesirable precedent for similar applications within the same “AGR” zone. The cumulative effect of approving such similar applications would result in a general degradation of the environment of the area.

Government Departments' General Comments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- the application sites (the Sites) for lots 1642 S.D and 1642 S.E in D.D. 91 fall entirely within the village 'environs' ('VE') of Kai Leng Village, whereas lot 1642 S.F in D.D. 91 partly falls within the 'VE' of Kai Leng Village;
- the Small House applications are under their processing. All applicants claimed themselves as indigenous villagers of Sheung Shui, Sheung Shui Heung. The applicants' eligibilities for Small House grant have yet to be ascertained;
- the Sites are Old Schedule Agriculture Lots held under Block Government Lease; and
- the locations of the proposed septic tank and soakage pit as shown in the application form under Applications No. A/NE-PK/203 to 205 are the same as those in the Small House applications.

2. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the proposed developments are not supported from agricultural perspective; and
- the Sites fall within the "Agriculture" zone and are generally abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water sources are also available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. The Sites possess potential for agricultural rehabilitation.

3. Traffic

Comments of the Commissioner for Transport (C for T):

- Small House development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of development outside the "V" zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- the applications only involve development of one Small House at each of the Sites and they can be tolerated on traffic grounds.

4. Environment

Comments of the Director of Environmental Protection (DEP):

- in view of small scale of the proposed developments, the applications alone are unlikely to cause major pollution.

5. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection to the applications from public drainage viewpoint;
- the Sites are in an area where no stormwater drain maintained by DSD is available; and
- the Sites are within an area where no existing public sewerage connection is available. DEP should be consulted regarding the sewage treatment/disposal aspects of the development and the provision of septic tank.

6. **Water Supplies**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- no objection to the applications;
- existing water mains inside the Site may be affected. The applicant is required to either divert or protect the water mains found on Site;
- if diversion is required, existing water mains inside the Site areas are needed to be diverted outside the Site boundary of the Site to lie in Government land. A strip of land of minimum 1.5 in width should be provided for the diversion of existing water mains. The cost of diversion of existing water mains upon request will have to be borne by the applicant; and the applicant shall submit all the relevant proposal to WSD for consideration and agreement before the works commence;
- If diversion is not required, the following conditions shall apply:
 - (i) existing water mains are affected as indicated on the Site plan and no development which requires resiting of water mains will be allowed;
 - (ii) details of site formation works shall be submitted to the Director of Water Supplies (D of WS) for approval prior to commencement of works;
 - (iii) no structures shall be built or materials stored within 1.5 meters from the centre line(s) of water main(s) shown on the plan. Free access shall be made available at all times for staff of the D of WS or their contractor to carry out construction, inspection, operation, maintenance and repair works;
 - (iv) no trees or shrubs with penetrating roots may be planted within the Water Works Reserve or in the vicinity of the water main(s) shown on the plan. No change of existing site condition may be undertaken within the aforesaid area without the prior agreement of the D of WS. Rigid root barriers may be required if the clear distance between the proposed tree and the pipe is 2.5m or less, and the barrier must extend below the invert level of the pipe;

- (v) no planting or obstruction of any kind except turfing shall be permitted within the space of 1.5m around the cover of any valve or within a distance of 1m from any hydrant outlet; and
- (vi) tree planting may be prohibited in the event that the D of WS considers that there is any likelihood of damage being caused to water mains.

7. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- no objection to the applications from the landscape planning perspective;
- the Sites are located in an area of rural inland plains landscape character comprising village houses, farmland and clusters of tree groups; and
- the Sites are partly hard-paved and partly occupied by vegetation with trees of common species and undesirable species. It is noted from the FI (**Appendix Id**) that the applicant proposes removing the self-seeded small trees within the Site. Significant adverse impact on the existing landscape resources arising from the proposed use is not anticipated.

8. Fire Safety

Comments of the Director of Fire Services (D of FS):

- no in-principle objection to the applications provided that the proposed developments would not encroach on any existing emergency vehicular access (EVA) or planned EVA under application in accordance with LandsD's record; and
- his advisory comments are set out at **Appendix VI**.

9. Demand and Supply of Small House Sites

According to DLO/N, LandsD's record, the total number of outstanding Small House applications for Kai Leng Village is 69, while the 10-year Small House demand forecast for concerned village is 279. Based on the latest estimate by the Planning Department, about 0.67ha (or equivalent to about 26 Small House sites) of land is available within the "V" zones of Kai Leng Village. Therefore, the land available cannot fully meet the future demand of 348 Small Houses (or equivalent to about 8.7ha of land).

Recommended Advisory Clauses

- (a) to note the comments of the Director of Environmental Protection that septic tank and soakaway system are an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person;
- (b) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department that approval of the application does not imply approval of tree works such as pruning, transplanting and felling. The applicant is reminded to seek approval for any proposed tree works from relevant authority prior to commencement of the works;
- (c) to note the comments of the Director of Fire Services that the applicants are advised to observe ‘New Territories Exempted Houses — A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD; and
- (d) to note that the permissions are only given to the developments under applications. If provision of an access road is required for the proposed developments, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtains planning permission from Town Planning Board where required before carrying out the road work.
