Dear Candice,

Regarding our application No. A/NE-SSH/145, we would like to have a deferral request for further information submission.

Deferral period
2 months

Reason
Preparing the document about landowner (Tin Liu Village House No. 120).

Subject: RE: Planning Application No. A/NE-SSH/145 - Comments from EPD

Dear Candice,

CLP received an electricity supply application for one village houses No. 120 at Tin Liu Village. We would like to reply to you in the following notes.

1. For the voltage level, there is a LV cable laying which is 380V.
2. The proposed works would not involve tree felling.
3. There is a tree on the linear distance. To avoid the tree, the proposed cable route is the best routing with least environmental impact.
4. 0.55m is a standard depth. 1.2m is our estimate depth. To prevent any blocks under the ground, an estimated depth is needed.
