According to the Notes of the OZP, ‘Public Vehicle Park (excluding container vehicle)’ and ‘Shop and Services’ are Column 2 uses in the “REC” zone which require planning permission from the Town Planning Board (the Board). The Site is currently vacant and largely vegetated with an abandoned temporary structure.
- 1.2 The proposed development consists of one 2-storey structure (about 6m in height) with a total floor area of about 180m<sup>2</sup> for shop and services and ancillary storage/office uses. According to the applicant, the proposed convenience store will be selling general grocery goods. A total of 26 parking spaces for private cars and one loading/unloading (L/UL) bay for light goods vehicles are proposed within the Site. The PVP will be operating 24 hours daily, while the operation hours of the convenience store are from 9:00 a.m. to 8:00 p.m. daily, including public holidays. The Site is accessible via Lin Ma Hang Road from its north (**Plan A-2**). The layout plan submitted by the applicant is shown in **Drawing A-1**.

- 1.4 On 28.7.2023, the Committee agreed to the applicant's request to defer making a decision on the application for two months to address departmental comments.

## **2. Justifications from the Applicant**

The justifications put forth by the applicant in support of the application are detailed at **Appendix I**, as summarized below:

- (a) the proposed development could serve the nearby residents/villagers and cross-boundary travellers by providing parking spaces and retail services;
- (b) the PVP would alleviate the pressing need for parking facilities associated with the opening of Liantang/Heung Yuen Wai Boundary Control Point (LT/HYW BCP);
- (c) the proposed development is compatible with the surrounding environment. Temporary approval would not jeopardize the long-term planning intentions of the "V" and "REC" zones;
- (d) there are similar applications approved by the Committee in the vicinity of the Site (Applications No. A/NE-TKLN/33, 35 and 37) involving PVP and shop and services uses; and
- (e) signage and notice would be posted near the ingress/egress of the Site to ensure pedestrian safety. No significant adverse traffic, drainage, environmental, visual and landscape impact arising from the proposed development is anticipated.

## **3. Compliance with the "Owner's Consent/Notification" Requirements**

The applicant is the sole "current land owner" of the Site. Detailed information would be deposited at the meeting for Members' inspection.

## **4. Background**

The Site is not subject to any active enforcement case.

## **5. Previous Application**

The Site is not the subject of any previous application.

## 6. **Similar Applications**

- 6.1 There are four similar applications (No. A/NE-TKLN/23, 33, 39 and 53) involving three sites for PVP and/or shop and services uses falling within the “REC” zone/straddling over the “REC” and “V” zones in the vicinity of the Site in the Ta Kwu Ling North area. All the applications were approved with conditions by the Committee between 2020 and 2023. Details of the similar applications are summarized at **Appendix II** and their locations are on **Plan A-1**.
- 6.2 Two applications (No. A/NE-TKLN/23 and 39) falling within the REC” zone for various uses including shop and services were approved mainly on considerations that the developments could provide catering services to meet the needs of the local villagers and visitors in the vicinity; the developments were not incompatible with the surrounding environment and no adverse impact was anticipated; and there was no adverse departmental comment.
- 6.3 The remaining two applications (No. A/NE-TKLN/33 and 53) involving one site straddling over the “REC” and “V” zones for PVP were approved mainly on considerations that approval of the applications could alleviate the parking demand in the concerned area; no adverse departmental comment; and similar applications had been approved in the vicinity of the Site.
- 6.4 For Members’ information, two applications involving shop and services use (i.e. one for proposed temporary shop and services (real estate agency) submitted by a different applicant as the current application (No. A/NE-TKLN/55); and another for the same applied use submitted by the same applicant as the current application (No. A/NE-TKLN/57)) both located to the west of the Site will be considered by the Committee at the same meeting (**Plans A-1 and A-2**).

## 7. **The Site and Its Surrounding Areas (Plans A-1 to A-4)**

- 7.1 The Site is:
- (a) currently vacant and largely vegetated with an abandoned temporary structure; and
  - (b) accessible via Lin Ma Hang Road from its north.
- 7.2 The surrounding areas are predominantly rural in character comprising village houses of Tsung Yuen Ha, PVPs approved under Applications No. A/NE-TKLN/37 and 53, vacant land and fallow agricultural land. LT/HYW BCP is located to the further southwest of the Site.

## 8. **Planning Intention**

The planning intention of the “REC” zone is primarily for low-density recreational developments for the use of the general public. It encourages the development of active and/or passive recreation and tourism/eco-tourism. Uses in support of the low-density recreational developments may be permitted subject to planning permission.

## **9. Comments from Relevant Government Departments**

- 9.1 All the government departments consulted have no objection to or no adverse comment on the application. Their general comments on the application and advisory comments in the Recommended Advisory Clauses are provided in **Appendices III** and **IV** respectively.
- 9.2 Commission for Transport (C for T) supports the application from traffic engineering perspective for meeting the public demand for car parking spaces. With the commissioning of passenger clearance in HYW BCP since January 2023, the trend of cross-boundary parking demand has been kept on increasing, especially during the weekends. There is a shortfall in parking spaces in the concerned area. The proposed PVP can alleviate the demand for parking spaces. Should the application be approved, an approval condition requiring the applicant to implement the proposed traffic management measures should be imposed.
- 9.3 District Officer (North) of Home Affairs Department (DO(N), HAD) has relayed the following local views and comments on the application:
- (a) the Indigenous Inhabitant Representative (IIR) of Tsung Yuen Ha supports the application without providing justification. The IIR of Heung Yuen Wai supports the application on consideration that there is parking demand in the area;
  - (b) the Chairman of Fung Shui Area Committee, the incumbent North District Councilor of N16 Constituency, the IIR and the Resident Representative (RR) of Chuk Yuen have no comment on the application; and
  - (c) Ta Kwu Ling District Rural Committee, the RR of Heung Yuen Wai and the RR of Tsung Yuen Ha do not reply on the application.

## **10. Public Comments Received During Statutory Publication Period**

On 9.6.2023, the application was published for public inspection. During the statutory public inspection period, two public comments were received, including one from the Chairman of Sheung Shui District Rural Committee indicating no comment on the application and an individual objecting to the application (**Appendix V**). The major grounds of objection are that the demand of parking spaces should be absorbed and coped with by the parking facilities provided in LT/HYW BCP; and approval conditions of the previous application have not been complied with.

## **11. Planning Considerations and Assessments**

- 11.1 The application is for proposed temporary PVP for private cars and shop and services for a period of three years at the Site zoned “REC” on the OZP. The proposed uses are considered not entirely in line with the planning intention of the “REC” zone, which is intended for low-density recreation development for the use of the general public. However, according to the applicant, the proposed uses could provide parking spaces and retail services to meet any such demand arising from the opening of LT/HYW BCP in the area. C for T supports the application from traffic engineering perspective and advises that the proposed PVP could alleviate the parking demand in the concerned area. Approval of the application on a temporary basis will not frustrate the long-term planning intention of the “REC” zone.

- 11.2 The Site is largely vegetated and currently vacant. It is mainly surrounded by village houses, PVPs (approved by the Committee between 2020 and 2023), vacant land, vegetated areas and fallow agricultural land. The proposed uses are not entirely incompatible with the surrounding land uses. Chief Town Planner/Urban Design and Landscape of Planning Department has no objection to the application from landscape planning perspective and advises that adverse impact on the landscape character and the existing landscape resources within the Site are not anticipated.
- 11.3 Other relevant governments concerned, including Chief Engineer/Mainland North, Drainage Service Department, Director of Fire Services and Director of Agriculture, Fisheries and Conservation, etc., have no objection to or no adverse comment on the application.
- 11.4 There are four similar applications involving shop and services and/or PVP uses approved by the Committee between 2020 and 2023 as detailed in paragraph 6 above. The planning circumstances of the above four applications are similar with the current application.
- 11.5 Regarding the objecting public comment on the application as detailed in paragraph 10, government departments' comments and planning assessments above are relevant.

## **12. Planning Department's Views**

- 12.1 Based on the assessments made in paragraph 11 and having taken into account the public comments and the local views/comments as conveyed by District Officer (North), Home Affairs Department in paragraphs 10 and 9.3 respectively, the Planning Department has no objection to the application.
- 12.2 Should the Committee decide to approve the application, it is suggested that the permission shall be valid on a temporary basis for a period of three years until 22.9.2026. The following conditions of approval and advisory clauses are also suggested for Members' reference:

#### Advisory Clauses

The recommended advisory clauses are at **Appendix IV**.

12.3 Alternatively, should the Committee decide to reject the application, the following reason for rejection is suggested for Members' reference:

- The proposed uses are not in line with the planning intention of the "REC" zone in the Ta Kwu Ling North area, which is primarily for low-density recreation development for the use of the general public. It encourages the development of active and/or passive recreation and tourism/eco-tourism. Uses in support of the low-density recreational developments may be permitted subject to planning permission. There is no strong planning justification in the submission for a departure from such planning intentions, even on a temporary basis.

**13. Decision Sought**

- 13.1 The Committee is invited to consider the application and decide whether to grant or refuse to grant the permission.
- 13.2 Should the Committee decide to approve the application, Members are invited to consider the approval condition(s) and advisory clause(s), if any, to be attached to the permission, and the period of which the permission should be valid on a temporary basis.
- 13.3 Alternatively, should the Committee decide to reject the application, Members are invited to advise what reason(s) for rejection should be given to the applicant.
