**Relevant Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Rejected Applications

Application No.	Uses/Development	Date of Consideration	Rejection Reasons
A/NE-TKL/183	Proposed New Territories Exempted House (NTEH) (Small House)	22.2.2002 (on review)	R1 - R3
A/NE-TKL/369	Proposed 3 Houses (New Territories Exempted Houses (NTEHs) - Small Houses)	2.9.2011	R4 - R6
A/NE-TKL/383	Proposed 2 Houses (New Territories Exempted Houses - Small Houses)	21.12.2012	R5, R7 & R8
A/NE-TKL/617	Proposed House (New Territories Exempted House - Small House)	8.11.2019 (on review)	R5, R9 & R10
A/NE-TKL/619	Proposed House (New Territories Exempted House - Small House)	2.8.2019	R5 & R10

Reasons for Rejection:

- R1 A large portion of the application site (about 97%) fell within an area zoned “Agriculture” (“AGR”) with predominantly agricultural land. The proposed development was not in line with the planning intention of the “AGR” zone which was to retain and safeguard agricultural land for agricultural purposes and to retain fallow arable land with good potential for rehabilitation. No strong justifications had been provided in the submission to merit a departure from the planning intention.
- R2 The proposed development did not comply with the interim criteria for assessing planning applications for New Territories Exempted House/Small House development in the New Territories in that only a small portion (about 3%) of the application site fell within the “Village Type Development” zone. Village development should be sited close to the village proper to ensure orderly development and provision of facilities.
- R3 The approval of the application would set an undesirable precedent for other similar applications.
- R4 The approval of the application would set an undesirable precedent for other similar applications within the “AGR” zone. The cumulative effect of approving such applications would result in a general degradation of the rural environment.
- R5 The proposed development was not in line with the planning intention of the “Agriculture” zone which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the current submission for a departure from the planning intention.

- R6 The proposed development did not comply with the 'Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in the New Territories' in that the footprint of each of the proposed Small Houses fell entirely outside the village 'environs' of a recognised village.
- R7 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that the application site and the proposed houses were entirely outside both the village 'environs' and the "Village Type Development" zone of recognised villages.
- R8 The approval of the application would cause adverse landscape and drainage impacts on the surrounding areas.
- R9 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that more than 50% of the footprint of the proposed Small House fell outside the "Village Type Development" ("V") zone and the village 'environs' of Ping Yeung Village.
- R10 Land was still available within the "Village Type Development" zone of Ping Yeung where land was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for orderly development pattern, efficient use of land and provision of infrastructures and services.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls partly within the village 'environs' ('VE') of Ping Yeung;
- (b) the applicant has been certified by the Vice-Chairman of Ta Kwu Ling Rural Committee in statutory declaration that the applicant is an indigenous villager of Ping Yeung in Ta Kwu Ling Heung.
- (c) the Site is not covered by any Modification of Tenancy / Building Licence;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand for Ping Yeung village is 44 and 1035 respectively; and
- (e) the Small House grant application was made to his office on 28.10.2014 and is still under processing.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the application. Such type of development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the "V" zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application involves the construction of one Small House. She considers that the application can be tolerated unless being rejected on other grounds.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person.

4. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the application from the landscape planning point of view;
- (b) according to her record, the Site is a scrubland covered by self-weeded vegetation. No existing trees is observed within the Site. The Site is located in an area of rural landscape character predominated by fallow farmlands, village houses, tree groups and some open storage yard and warehouse. In view that there are existing village houses in similar scale to the proposed Small House to the north-west of the Site, the applied use is considered not incompatible with the landscape character of the surrounding area; and
- (c) as significant landscape impact arising from the proposed development is not anticipated, it is considered not necessary to impose any landscape condition should the application be approved by the Board.

5. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the application from the public drainage viewpoint;
- (b) should the application be approved, a condition should be included to request the applicant to submit and implement a drainage proposal for the Site to ensure that it will not cause adverse drainage impact to the adjacent area; and
- (c) the Site is in an area where no public sewerage connection is available. EPD should be consulted regarding the sewage treatment/disposal facilities for the proposed development.

6. Nature Conservation and Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

the Site falls partly within "AGR" zone and is currently an abandoned land. Agricultural infrastructures such as road access and water source are available. The Site can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. As the Site possesses potential for agricultural rehabilitation, the applications is not supported from agricultural point of view.

7. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the application; and
- (b) the applicant is reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

8. District Officer's Comments

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

he has consulted the locals regarding the application and all consultees have no comment on the application.

9. Demand and Supply of Small House Sites

According to DLO/N, LandsD's records, the total number of outstanding Small House applications of Ping Yeung village is 44 while the 10-year Small House demand forecast for the same village cluster is 1035. According to the latest estimate by PlanD, a total of about 4.9 ha. (equivalent to 196 Small House sites) of land are available within the "V" zone of Ping Yeung village for Small House development (**Plan A-2b**). There is insufficient land in the "V" zone of Ping Yeung village to meet the future demand of Small Houses (i.e. about 27 ha which is equivalent to 1079 Small House sites).

Zoning : "Agriculture"
Applied development : Net House

Dear TPB Members,

Land available within the "Village Type Development" ("V") zone of Ping Yeung is sufficient to meet the 65 outstanding Small House applications (2019)

The lot is well outside the VTD Zone and there is the issue of septic tank.

The application has no justification.

Dear Sir/ Madam,

Proposed House (New Territories Exempted House - Small House)
(A/NE-TKL/664)

1. We refer to the captioned.
2. We object to this application as the proposed use is not in line with the planning intention of Agriculture zone. We urge the Board to reject this application.
3. We also urge the Board to investigate with relevant authorities as to whether the nearby Village Type Development zone at Ping Yeung still contains available space for Small House development.
4. Thank you for your attention.

**Proposed House (New Territories Exempted House - Small House)
(Application No. A/NE-TKL/664)**

Dear Chairman and Members,

Designing Hong Kong Limited **objects** the captioned for the following reasons:

- The proposed area is zoned as "**Agriculture (AGR)**". The planning intention of this zone is primarily for retaining and safeguarding good quality agricultural land/farm/fish ponds for agricultural purposes. It is also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes.
- **Land is still available** within the "V" zone of Ping Yeung which is primarily intended for Small House development. It is considered more appropriate to concentrate the proposed development within the "V" zone for more orderly development pattern, efficient use of land and provision of infrastructure and services. There is no strong planning justification in the submission for a departure from the planning intention.
- The applicant fails to show in the drainage impact assessment and sewage impact assessment that the proposed development would not bring any adverse environmental impact to the surrounding areas.
- The approval of the application would set an undesirable precedent for other applications within the "Agriculture (AGR)" zone, and lead to a general degradation of the rural environment of the area.

Here we submit our concerns for your consideration.

Yours,
Designing Hong Kong Limited

Recommended Advisory Clauses

- (a) to note the comments of D of FS that the applicant should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (b) to note the comments of CE/MN, DSD that the Site is in an area where no public sewerage connection is available;
- (c) to note the advice of DEP that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person; and
- (d) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
