## 8. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.  
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

1. 本人是打鼓嶺的原居民，根據現行的小型屋宇政策，本人有權獲批准興建小型屋宇。
2. 本人申請地段位於打鼓嶺李屋村的「鄉村界線」範圍內。
3. 本人沒有土地在「鄉村式發展」地帶內，而該地段亦是本人僅有的土地可供申請小型屋宇。
4. 本人的擬建的發展計劃與附近土地用途互相協調，而該地段200米範圍內亦有成功的小型屋宇申請個案如LOT 669 A-B-C及RP IN DD82, LOT 671 A-B IN DD82, LOT 680 A及RP IN DD82, LOT 659 A-B-C IN DD82。
5. 本人原於政府土地上申請小型屋宇，由於土地並不足夠供村民興建小型屋宇，因此本人須找到合適土地才能申請小型屋宇。

**9. Declaration 聲明**

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.  
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in this application and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.  
本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

**Relevant Interim Criteria for Consideration of  
Application for NTEH/Small House in New Territories**  
**(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and

(k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

\*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

A/NE-TKL/594	Proposed House (New Territories Exempted House - Small House)	26.10.2018 (on review)	R1 & R2

### **Reasons for Rejection**

- R1 The proposed development was not in line with the planning intention of the “Agriculture” zone which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the current submission for a departure from the planning intention.
- R2 Land was still available within the “Village Type Development” zone of Lei Uk Village where land was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for orderly development pattern, efficient use of land and provision of infrastructures and services.

**Detailed Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls within the village 'environs' of Lei Uk Village;
- (b) the applicant claimed himself to be an indigenous villager of Fung Wong Wu Village, Ta Kwu Ling Heung. His eligibility for Small House grant has yet to be ascertained;
- (c) the Site is not covered by any Modification of Tenancy / Building Licence;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand forecast for Lei Uk are 45 and 125 respectively. The 10-year Small House demand forecast was provided by the relevant Indigenous Inhabitant Representative without any supporting evidence. His office is not in a position to verify the forecast; and
- (e) the Small House application was made to her office on 18.10.2013 and is under processing.

**2. Traffic**

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the application. Such type of development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the "V" zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application involves construction of one Small House. She considers that the application can be tolerated unless being rejected on other grounds.

**3. Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person.

#### **4. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the application from the landscape planning perspective;
- (b) the Site is located in an area of rural inland plains landscape character comprising vegetated areas, farmlands, clusters of trees and small houses within or in close proximity to the “V” zone at the west. The Site is covered with self-seeded vegetation. Significant adverse impact on existing landscape resources arising from the proposed developments is not anticipated; and
- (c) should the application be approved, it is considered not necessary to impose a landscape condition as there is limited space within the site for meaningful landscaping and the effect of additional landscaping on enhancing the quality of public realm is not apparent.

#### **5. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the application from the public drainage viewpoint;
- (b) should the application be approved, a condition should be included to request the applicant to submit and implement a drainage proposal for the Site to ensure that it will not cause adverse drainage impact on the adjacent area. The drainage system should be properly maintained at all times during the planning approval and rectify if they are found inadequate / ineffective during operation; and
- (c) the Site is in an area where no public sewerage connection is available.

#### **6. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

The Site falls within the “AGR” zone and is currently an abandoned land. Agricultural activities are found in the vicinity and agricultural infrastructures such as water source and road are available. Therefore, the Site is suitable for agricultural rehabilitation for various types of agricultural activities such as open field cultivation, plant nurseries, greenhouses etc. The proposed development is not supported from agricultural perspective.

**7. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the application; and
- (b) the applicant is reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

**8. District Officer's Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

He has consulted the locals regarding the application. The Chairman of Ta Kwu Ling District Rural Committee, the Chairman of Fung Shui Area Committee, the incumbent North District Councilor of N16 Constituency, the Indigenous Inhabitant Representative and the Resident Representative of Lei Uk have no comment on the application.

**9. Demand and Supply of Small House Sites**

According to DLO/N, LandsD's records, the total number of outstanding Small House applications for Lei Uk is 45 while the 10-year Small House demand forecast for the same village cluster is 125. According to the latest estimate by PlanD, about 1.58 ha (equivalent to 63 Small House sites) of land are available within the "V" zone of Lei Uk Village for Small House development. There is insufficient land in the "V" zone of Lei Uk Village to meet the demand of land for Small House development (i.e. about 4.25ha of land which is equivalent to 170 Small House sites).

Dear Sir/ Madam,

**Proposed House (New Territories Exempted House - Small House)**  
**(A/NE-TKL/711)**

1. We refer to the captioned.
2. We visited the area where the site is located recently and please see a photo showing the site and its surroundings in **Figure 1**.
3. Based on our on-site observation, we consider the site and its surroundings would still be largely suitable for cultivation and the current Agriculture (AGR) zoning including the associated planning intention is very appropriate to reflect this existing status. We urge the Board to reject this application as the use is not in line with the planning intention of the AGR zone.
4. There are also some rejected applications for Small House adjacent/ very close to this application site, and the reasons for the rejection of one of these applications (A/NE-TKL/592) are shown below:

*(a) the proposed development is not in line with the planning intention of the "Agricultural" zone which is primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There is no strong planning justification in the current submission for a departure from the planning intention; and*

嘉道理農場暨植物園公司  
Kadoorie Farm & Botanic Garden Corporation

*(b) land is still available within the "Village Type Development" zone of Lei Uk Tsuen where land is primarily intended for Small House development. It is considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for orderly development pattern, efficient use of land and provision of infrastructures and services.*

5. Thank you for your attention.

**Recommended Advisory Clauses**

- (a) to note the comments of D of FS that the applicant should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (b) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
  - (i) the Site is in an area where no public sewerage connection is available;
  - (ii) surface channel with grating covers should be provided along the site boundary;
  - (iii) a drainage plan should be provided clearly showing the size, levels and routes of the proposed drainage. The details (invert level, gradient, general sections etc.) of the proposed drain / surface channel, catchpits and the discharge structure shall be provided;
  - (iv) the cover levels of proposed channels should flush with the existing adjoining ground level;
  - (v) a catchpit with covers should be provided where there is change of direction of the channel/drain. The details of the catchpit with covers shall be provided;
  - (vi) catchpits with sand trap shall be provided at the outlets of the proposed drainage system. The details of the catchpit with sand trap should be provided;
  - (vii) the applicant should check and ensure that the existing drainage downstream to which the proposed connection will be made have adequate capacity and satisfactory condition to cater for the additional discharge from the captioned site. He should also ensure that the flow from the Site will not overload the existing drainage system;
  - (viii) the applicant is reminded that where walls are erected or kerbs are laid along the boundary of the same, peripheral channels should be provided on both sides of the walls/kerbs, and/or adequate openings should be provided at the walls/kerbs to allow existing overland flow passing through the Site to be intercepted by the drainage system of the Site with details to be agreed by DSD, unless justified not necessary;
  - (ix) the applicant is reminded that all existing flow paths as well as the run-off falling onto and passing through the Site should be intercepted and disposed of via proper discharge points. The applicant shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow condition of the existing drains, channels and watercourses on or in the vicinity of the subject site any time during or after the works;

- (x) the proposed drainage works, whether within or outside the site boundary, should be constructed and maintained properly by the applicant and rectify the system if it is found to be inadequate or ineffective during operation at his own expense;
  - (xi) for works to be undertaken outside the lot boundary, the applicant should obtain prior consent and agreement from DLO/N and/or relevant private lot owners;
  - (xii) the applicant should make good all the adjacent affected areas upon the completion of the drainage works;
  - (xiii) the applicant shall allow all time free access for the government and its agent to conduct site inspection on his completed drainage works;
  - (xiv) the applicant and the successive lot owners shall allow connections from the adjacent lots to the completed drainage works on government land when so required; and
  - (xv) photos should be submitted clearly showing the current conditions of the area around the site, the existing drainage/flowpaths around the site, the proposed drainage from the site to the downstream existing watercourse and the existing watercourse at about 20m intervals. The locations of the camera and the direction of each photo should also be indicated on a plan;
- (c) to note the advice of DEP that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person;
- (d) to note the comments of the Project Manager (North), North Development Office, Civil Engineering and Development Department that the Site is located within the proposed New Territories North (NTN) New Town under the Planning and Engineering (P&E) Study for NTN New Town and Man Kam To. The P&E Study was commenced on 29 Oct 2021 for completion around 3 years. The land uses/developments and associated infrastructure and community facilities in the area will be holistically reviewed under the P&E Study. The public will be consulted on the proposals under the study in due course; and
- (e) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
