**Relevant Interim Criteria for Consideration of  
Application for New Territories Exempted House (NTEH)/Small House in New Territories  
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and

- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- \*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

A/NE-TKL/327	Proposed House (New Territories Exempted House - Small House)	06.11.2009

**Rejected Application**

<b>Application No.</b>	<b>Uses/Development</b>	<b>Date of Consideration</b>	<b>Rejection Reasons</b>
A/NE-TKL/383	Proposed Two Houses (New Territories Exempted Houses - Small Houses)	21.12.2012	R1 & R3 & R4
A/NE-TKL/619	Proposed House (New Territories Exempted House - Small House)	2.8.2019	R1 & R2
A/NE-TKL/660	Proposed House (New Territories Exempted House - Small House)	13.08.2021	R1 & R2

**Reasons for Rejection:**

- R1 The proposed development was not in line with the planning intention of the “Agriculture” zone in the Ping Che and Ta Kwu Ling area which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the submission for a departure from the planning intention.
- R2 Land was still available within the “Village Type Development” zone of Ping Yeung where land was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for orderly development pattern, efficient use of land and provision of infrastructures and services.

- R3 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that the application site and the proposed houses were entirely outside both the village 'environs' and the "Village Type Development" zone of recognised villages.
- R4 The approval of the application would cause adverse landscape and drainage impacts on the surrounding areas.

**Detailed Comments from Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls largely within the village environs of Ping Yeung Village;
- (b) the applicant claimed himself to be the indigenous villager of Ping Yeung Village, his eligibility for Small House grant has yet to be ascertained;
- (c) the Site is not covered by any Building Licence nor Modification of Tenancy;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand forecast for Ping Yeung Village is 34 and 1,035 respectively; and
- (e) Small House application in respect to the Site was submitted to her office on 22.3.2016 but it was subsequently rejected on 9.3.2023 because no planning approval for Small House development on the Site has been obtained by the applicant.

**2. Traffic**

Comments of the Commissioner of Transport (C of T):

- (a) she has reservation on the application. Such type of development should be confined within the “Village Type Development” (“V”) zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial;
- (b) notwithstanding the above, the application only involve the construction of one Small House. She considers that the application can be tolerated unless being rejected on other grounds; and
- (c) the local village access leading to the Site from Ping Che Road is not managed by TD.

Comments of the Chief Highway Engineer/ New Territories East. Highway Department (CHE/NTE, HyD):

- (a) no comment on the application; and
- (b) the local village access leading the Site from Ping Che Road is not maintained by HyD.

### 3. **Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed development, the application is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person.

### 4. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the application from the landscape planning perspective;
- (b) according to the aerial photo, the Site is located in an area of rural fringe landscape character comprising of Small Houses, clusters of tree groups and vegetated areas. The Site is covered by self-seeded vegetation and some trees of invasive species. Significant adverse impact on the landscape character and existing landscape resources within the Site arising from the proposed use is not anticipated; and
- (c) should the application be approved by the Board, it is considered not necessary to impose a landscape condition as there is limited space within the Site for meaningful landscaping and the effect of additional landscaping on enhancing the quality of public realm is not apparent.

### 5. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the application from the public drainage viewpoint; and
- (b) should the application be approved, a condition should be included to request the applicant to submit and implement a drainage proposal for the Site to ensure that it will not cause adverse drainage impact on the adjacent area, and the drainage system should be properly maintained at all times during the planning approval period and rectified if they are found inadequate / ineffective during operation.

### 6. **Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- he has no objection to the application.

## **7. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) the application is not supported from agricultural perspective as the Site possesses potential for agricultural rehabilitation; and
- (b) the Site falls within the “AGR” zone and is abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water sources are also available. The Site can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc.

## **8. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the application at this stage provided that the proposed house would not encroach onto any existing emergency vehicular access (EVA) or planned EVA under application in accordance with LandsD’s record; and
- (b) the applicant is reminded to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ administrated by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD.

## **9. District Officer’s Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

- he has consulted the locals regarding the application. One Indigenous Inhabitant Representative (IIR) of Ping Yeung supports the application;
- the incumbent North District Councilor of N16 Constituency and two IIRs of Ping Yeung have no comment on the application; and
- the Ta Kwu Ling District Rural Committee, one IIR of Ping Yeung and the Resident Representative (RR) of Ping Yeung did not reply to the local consultation.

## **10. Demand and Supply of Small House Sites**

According to DLO/N’s records, the total number of outstanding Small House applications for Ping Yeung Village is 34 while the 10-year Small House demand forecast for the same village is 1,035. According to the latest estimate by PlanD, about 4.6 ha (equivalent to 183 Small House sites) of land are available within the “V” zones of Ping Yeung Village for Small House development. There is insufficient land in the “V” zones of Ping Yeung Village to meet the future demand of land for Small House development (i.e. about 26.7 ha of land which is equivalent to 1,069 Small House sites).

Lot 234 S.B ss.5 in D.D.79, Ping Yeung Village, Ta Kwu Ling

Site area : 174sq.m

Zoning: "Agriculture"

Applied development: NET House

Dear TPB Members,

Objections, not only is the lot zoned for Agriculture with no previous history of approval, it is also adjacent to a sewerage pumping station.

Development could hinder the future enlargement of the facility to cope with the many development projects planned for the district.

Land available within the "Village Type Development" ("V") zone of Ping Yeung is sufficient to meet the 65 outstanding Small House applications (2019)

Mary Mulvihill

**Recommended Advisory Clauses**

- (a) to note the comments of Director of Fire Services that the applicant should observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ administrated by Lands Department (LandsD). Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD;
- (b) to note the comments of the Director of Environmental Protection that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person;
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department that;
  - (i) the Site is in an area where public sewerage connection is available;
  - (ii) there is no public stormwater system in the vicinity of the Site. The applicant should construct and maintain the proposed drainage works whether within or outside the lot boundary by lot owner at their own expense;
  - (iii) the applicant is advised on the following general requirements of the drainage proposal:
    - surface channel with grating covers should be provided along the site boundary;
    - a drainage plan should be provided clearly showing the size, levels and routes of the proposed drainage. The details (invert level, gradient, general sections etc.) of the proposed drain/ surface channel, catchpits and the discharge structure shall be provided;
    - the cover levels of proposed channels should be flush with the existing adjoining ground level;
    - a catchpit with covers should be provided where there is a change of direction of the channel/drain. The details of the catchpit with covers shall be provided;
    - catchpits with sand trap shall be provided at the outlets of the proposed drainage system. The details of the catchpit with sand trap should be provided;
    - the applicant should check and ensure that the existing drainage downstream to which the proposed connection will be made have adequate capacity and satisfactory condition to cater for the additional discharge from the Site. The applicant should also ensure that the flow from the Site will not overload the existing drainage system;
    - the applicant is reminded that where walls are erected or kerbs are laid along the boundary of the same, peripheral channels should be provided on both sides of the walls or kerbs, and/or adequate openings should be provided at the walls/kerbs to allow existing overland flow passing through the Site to be intercepted by the

drainage system of the Site with details to be agreed by DSD, unless justified not necessary;

- the applicant is reminded that all existing flow paths as well as the run-off falling onto and passing through the Site should be intercepted and disposed of via proper discharge points. The applicant shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow condition of the existing drains, channels and watercourses on or in the vicinity of the Site any time during or after the works;
  - the proposed drainage works, whether within or outside the site boundary, should be constructed and maintained properly by the applicant and rectify the system if it is found to be inadequate or ineffective during operation at his/her own expense;
  - for works to be undertaken outside the lot boundary, the applicant should obtain prior consent and agreement from DLO/N and/or relevant private lot owners;
  - the applicant should make good all the adjacent affected areas upon the completion of the drainage works;
  - the applicant shall allow all time free access for the Government and its agent to conduct site inspection on his completed drainage works;
  - the applicant and the successive lot owners shall allow connections from the adjacent lots to the completed drainage works on Government Land when so required;
  - photos should be submitted clearly showing the current conditions of the area around the Site, the existing drainage/flowpaths around the Site, the proposed drainage from the Site to the downstream existing watercourse and the existing watercourse at about 20 m intervals. The locations of the camera and the direction of each photo should also be indicated on a plan;
- (d) to note the comments of the Commissioner of Transport that the local village access leading the Site from Ping Che Road is not managed by TD;
- (e) to note the comments of the Chief Highway Engineer/ New Territories East, Highway Department that the local village access leading the Site from Ping Che Road is not maintained by HyD; and
- (f) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permissions from the Town Planning Board where required before carrying out the road works.
