A/NE-TK/699 Lots 1604 S.G in D.D. 17, Lo Tsz Tin Village, Tai Po Site area : About 113.5sq.m Zoning : "VTD" and "Recreation" Applied use : 5 Vehicle Parking

Dear TPB Members,

The administration has inflicted considerable damage on the environment with its fake beach project.

This site is still vegetated and partly zoned for Rec. There are already a number parking facilities in the district. Clearly what little is left of natural environment should be preserved. However you approved a 40 vehicle car park on adjoining lots 684, Sept 1.

Do you intend to continue approving such uses until all the vegetation is removed from the Rec zoning and it is transformed into one large slab of cement baking under the sun?

Mary Mulvihill

### **Recommended Advisory Clauses**

- (a) to note the comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD):
  - (i) the village road leading to the Site at its north is on unallocated Government Land. There is no guarantee to the grant of a right of way to the Site. As such, no trees thereon shall be interfered with unless prior approval is obtained from LandsD. The maintenance and management responsibility of the said Government Land and any other Government land leading to the Site should be sorted out with the relevant Government departments, prior to making use of them for proposed vehicular access purpose. Further, neither occupation nor works of any kind thereon is allowed without the prior approval from LandsD; and
  - (ii) no structures shall be erected on the Site without prior approval from the LandsD. Should the application be approved by the TPB, the lot owner is required to submit a Short Term Waiver ("STW") application to LandsD if he wishes to erect any structures on the lot. However, there is no guarantee at this stage that the STW application would be approved. If the STW application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD including the payment of waiver fee and administrative fee as considered appropriate;
- (b) to note the comments of the Commissioner for Transport (C for T) that the village access road is not under Transport Deaprtment's management. It is suggested that the land status, management and maintenance responsibility of the village access should be clarified with relevant lands and maintenance authorities accordingly in order to avoid potential land disputes;
- (c) to note the comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/NTE, HyD) that the vehicular access branching from Ting Kok Road to the Site seems encroaching on some private lots. It is the applicant's responsibility to secure his own vehicular access with the private lots owners concerned;
- (d) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
  - (i) there is no existing DSD maintained public drains available for connection in the vicinity of this area. The proposed development should have its own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the site; sufficient openings should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary wall/fence are to be erected. Any existing flow path affected should be re-provided. The proposed development should neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas. The applicant/owner is required to maintain such systems properly and rectify the systems if they are found to be inadequate or ineffective during operation. The applicant/owner shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure of the systems;

- (ii) for works to be undertaken outside the lot boundary, prior consent and agreement from LandsD and/or relevant private lot owners should be sought; and
- (iii) public sewerage connection is available in the vicinity of the Site;
- (e) to note the comments of the Director of Fire Services (D of FS) that:
  - (i) the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to this Department for approval and that:
    - the layout plans should be drawn to scale and depicted with dimensions and nature of occupancy; and
    - the location of where the proposed FSI to be installed should be clearly marked on the layout plans; and
  - (ii) detailed fire safety requirements will be formulated upon receipt of formal submission of general building plans;
- (f) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD):
  - (i) if the existing structures are erected on leased land without approval of the Buildings Department (BD) (not being a New Territories Exempted House), they are unauthorized under the Buildings Ordinance (BO) and should not be designated for any approved use under the captioned application;
  - (ii) before any new building works are to be carried out on the application site, prior approval and consent of the Building Authority (BA) should be obtained unless they are exempted building works or commenced under the simplified requirement under the Minor Works Control System. Otherwise they are Unauthorized Building Works (UBW). An Authorized Person (AP) should be appointed as the coordinator for the proposed building works in accordance with the BO;
  - (iii) for UBW erected on leased land, enforcement action may be taken by the BA to effect their removal in accordance with BD"s enforcement policy against UBW as and when necessary. The granting of any planning approval should not be constructed as an acceptance of any existing building works or UBW on the application site under the BO;
  - (iv) any temporary shelter or converted containers for storage or other uses are considered as temporary buildings are subject to the control of Part VII of the Building (Planning) Regulations;
  - (v) the site shall be provided with means of obtaining access thereto from a street under the Building (Planning) Regulations 5 and emergency vehicular access shall be provided under the Building (Planning) Regulation 41D;
  - (vi) if the site is not abutting on a specified street having a width not less than 4.5m, the development intensity shall be determined by the Building Authority under Building (Planning) Regulation 19(3) at building plan submission stage; and

(vii) formal submission under the BO is required for any proposed new works, including any temporary structures. Detailed comments under BO will be provided at the building plan submission stage.
