Application for NTEH/Small House in New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and

(k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Approval Conditions

- A1. The provision/submission and implementation of drainage facilities.
- A2. The submission and implementation of landscaping proposals.
- A3. The provision of septic tank, as proposed by the applicant, at a location to the satisfaction of the Director of Lands or of the Town Planning Board.

Rejected Application

Application No.	Proposed Development	Date of Consideration	Zoning	Rejection Reasons
A/NE-TK/608	Proposed House (New Territories Exempted House - Small House)	1.9.2017 (on review)	REC	R1-R4

Rejection Reasons

- R1. The proposed development was not in line with the planning intention of the “Recreation” zone which was primarily for recreational developments for the use of the general public. There was no strong planning justification in the submission for a departure from the planning intention.
- R2. The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in the New Territories in that more than 50% of the footprint of the proposed Small House fell outside the “Village Type Development” (“V”) zone and the village ‘environs’ of Lo Tsz Tin
- R3. Land was still available within the “V” zone of Lo Tsz Tin which was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for more orderly development pattern, efficient use of land and provision of infrastructure and services
- R4. The approval of the application would set an undesirable precedent for other similar applications in the area. The cumulative impacts of approving such applications would result in a general degradation of the environment of the area.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD):

- (a) no objection to the application;
- (b) the applicant, Mr LEUNG Ching Kong is an indigenous villager of Lo Tsz Tin Village, as confirmed by the respective Indigenous Inhabitant Representative (IIR). However, his eligibility of Small House grant has yet to be ascertained.
- (c) the Site is not covered by any Modification of Tenancy or Building Licence;
- (d) the Site is held under Block Government Lease (demised for agricultural use). The Small House application submitted by the above-mentioned applicant for the Site is still under processing;
- (e) if and after planning approval has been given by the Board, LandsD will process the Small House application. However, there is no guarantee at this stage that the Small House application would be approved. If the Small House application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD. There is no guarantee to the grant of a right of way to the Small House concerned or approval of the emergency vehicular access (EVA) thereto;
- (f) the application site and footprint of the proposed Small House falls outside the VE of Lo Tsz Tin;
- (g) the proposed sewerage connection will be considered when the application is due for processing. As the public sewerage system is available at the captioned village, the applicant will be advised to connect the sewerage system to the existing Government sewers under DSD's project – "Tolo Harbour Sewerage of Unsewered areas stage I Phase IIC Tai Mei Tuk, Wong Chuk Tsuen, Lung Mei and Lo Tsz Tin".
- (h) the number of outstanding Small House applications and the number of 10-year Small House demand for the village concerned are as follows:

<u>Village</u>	<u>No. of outstanding Small House applications</u>	<u>No. of 10-year Small House demand *</u>
Lo Tsz Tin	26	120

(* The figure of 10-year Small House demand is estimated and provided by the IIR of Lo Tsz Tin. The information so obtained is not verified in any way by DLO/TP).

2. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) in general, she has reservation on the application. Such type of development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application only involves development of a Small House and she considers that this application can be tolerated on traffic grounds.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- (i) In view of the small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (ii) given that the Site falls outside WGG and the applicant has proposed to connect the proposed Small House to the nearby existing public sewer, she has no objection to the application.

4. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) there is no existing DSD maintained public drain available for connection in this area. The proposed Small House should have its own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from the surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient opening should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary/wall/fence are to be erected. Any existing flow path affected should be re-provided. The proposed development should neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas. The applicant should maintain such systems properly and rectify the systems if found to be inadequate or ineffective during operation. The applicant should also be liable for and indemnify claims and demands arising out of damage or nuisance caused by failure of the systems;
- (b) there is existing public sewers in the vicinity of the Site. The applicant shall demonstrate the technical feasibility of sewerage connection and commit to resolve all land encroachment issue if the connection pipes go through other private land; and
- (c) for works to be undertaken outside the lot boundary, prior consent and agreement

from LandsD and/or relevant private lot owners should be sought.

5. Landscape

Comments of the Chief Town Planner/ Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the application from the landscape planning perspective;
- (b) the Site is located in an area of rural coastal plains landscape character surrounded by village houses and temporary structures. According to site record taken on 28.5.2021, despite some existing trees are found within the site, they are of common species and no OVT nor tree of large size is observed. Significant impact on the sensitive landscape resources arising from the proposed development is therefore not anticipated;
- (c) majority of the Site falls within an area zoned “V”, which is not a landscape sensitive zoning. According to record, at least 5 nos. of planning applications (Nos. A/NE-TK/74, 110, 146, 168 and 229) for the same proposed use in close proximity to the Site across the same “V” and “REC” zones were approved by the Board from 1997 to 2007. The proposed development is considered not entirely incompatible with the surrounding environment of the Site.
- (d) noting that there is no major public frontage along the site boundary and there is limited space within the Site for meaningful landscaping, should the Board approve this application, it is considered not necessary to impose a landscape condition as the effect of additional landscaping on enhancing the quality of public realm is not apparent; and
- (e) the applicant should be advised that approval of the application does not imply approval of tree works such as pruning, transplanting and felling under lease. The applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works.

6. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) no in-principle objection to the application; and
- (b) the applicant is reminded to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

7. Demand and Supply of Small House Sites

According to the DLO/TP, LandsD's record, the total number of outstanding Small House applications for Lo Tsz Tin is 26 while the 10-year Small House demand forecast for the same villages is 120. Based on the latest estimate by the PlanD, about 2.03 ha (or equivalent to about 81 Small House sites) of land are available within the "V" zone of Lo Tsz Tin. Therefore, the land available cannot fully meet the future demand of 146 Small Houses (or equivalent to about 3.65 ha of land).

Recommended Advisory Clauses

- (a) to note the comments of District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that:
 - (i) upon the approval given by the Board, LandsD will process the Small House application. However, there is no guarantee at this stage that the Small House application would be approved. If the Small House application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD. There is no guarantee to the grant of a right of way to the Small House concerned or approval of the emergency vehicular access thereto; and
 - (ii) the proposed sewerage connection will be considered when the application is due for processing. As the public sewerage system is available at the captioned village, the applicant will be advised to connect the sewerage system to the existing Government sewers under DSD's project – "Tolo Harbour Sewerage of Unsewered areas stage I Phase IIC Tai Mei Tuk, Wong Chuk Tsuen, Lung Mei and Lo Tsz Tin";
- (b) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
 - (i) there is no existing DSD maintained public drain available for connection in this area. The proposed Small House should have its own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from the surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient opening should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary/wall/fence are to be erected. - (c) to note the comments of the Chief Town Planner/ Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that approval of the application does not imply approval of tree works such as pruning, transplanting and felling under lease. The

applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works;

- (d) to note the comments of the Director of Fire Services (D of FS) that the applicant should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD; and
- (e) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from Town Planning Board where required before carrying out the road work.
