Lot 1604 S.G RP in D.D. 17, Lo Tsz Tin Village, Tai Po

Site area : About 113.5sq.m

Zoning : "Recreation"

Applied use : 4 Vehicle Parking

Dear TPB Members,

In May 2020 Application 684 for 40 parking spaces was approved. Conditions as of date have not been fulfilled. Recently 747 approved for 30 cars. How can all this parking be justified?

The intention of zoning is to provide recreational facilities for the community but the entire zone is given over to parking. This parking at grade is the most inefficient land of all.

Members should recognize that by approving applications like this it is encouraging further abuse of the zoning and removing all pockets of possible open space from villages.

This is certainly not in line with the directions of President Xi who mandated that there must be 'Common Prosperity' going forward and that the benefits, in this instance space, be shared.

Mary Mulvihill

**Recommended Advisory Clauses**

- (a) shorter compliance periods are imposed in order to closely monitor the progress of compliance with approval conditions. If there is further non-compliance with any of the approval conditions again resulting in revocation of the planning permission, sympathetic consideration would not be given to any further application;
- (b) to note the comments of District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that:
  - (i) the Site falls on Lot 1604 S.G RP in D.D.17 which is held under the Block Government Lease demised for agricultural purpose. No structure shall be erected on the lot without the prior approval from LandsD;
  - (ii) should the application be approved by the Board, the lot owner is required to submit an application for Short Term Waiver (STW) to LandsD if he wishes to erect any structures on the lot. However, there is no guarantee at this stage that the STW application would be approved. If the STW application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as imposed by LandsD where appropriate, including payment of waiver fee and administrative fee;
  - (iii) the village road leading to the Site at its north is on unallocated government land. As such, no trees thereon shall be interfered with unless prior approval is obtained from LandsD. The maintenance and management responsibility of the said government land and any other government land leading to the Site should be sorted out with the relevant government departments, prior to making use of them for the proposed vehicular access purpose. Neither occupation nor works of any kind thereon is allowed without the prior approval from LandsD; and
  - (iv) there is no guarantee to the grant of a right of way to the Site or approval of the emergency vehicular access (EVA) thereto;
- (c) to note the comment of the Commissioner for Transport (C for T) that the village access connecting Ting Kok Road is not under Transport Department's management. The land status, management and maintenance responsibilities of the village access should be clarified with the relevant lands and maintenance authorities accordingly in order to avoid potential land disputes;
- (d) to note the comment of the Director of Environmental Protection (DEP) that the applicant should follow the relevant mitigation measures and requirements in the "Code of Practice on Handling Environmental Aspects of Temporary Uses and Open Storage Sites" to minimize any potential environmental nuisance;
- (e) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
  - (i) the applicant is advised to refer to the "Technical Note to Prepare a Drainage Submission Relating to Applications for Temporary Change of Land Use under

S.16 of the Town Planning Ordinance” promulgated by DSD in preparing the drainage proposal;

- (ii) there is no existing DSD maintained public drain available for connection in the area. The applicant should have his own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient openings should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary wall/fence are to be erected. Any existing flow path affected should be re-provided. The applicant should neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas. The applicant is required to maintain drainage systems properly and rectify the systems if they are found to be inadequate or ineffective during operation. The applicant shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure of the systems; and
  - (iii) for works to be undertaken outside the lot boundary, prior consent and agreement from LandsD and/or relevant private lot owners should be sought; and
- (f) to note the comment of the Director of Fire Services (D of FS) that the applicant should submit relevant layout plans incorporated with the proposed fire service installations (FSIs) for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy and the location of the proposed FSIs to be installed should be clearly marked.
