8. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

園下村已無合適土地可提供給村民建屋解決居住問題，
DD23 lot 252 Rb 是祖先留給後人，用作建屋應付人口增加的土
地。在此建屋，除配合政府現行政策善用土地資源，改善
民生及居住問題外，對周邊的環境無不良影響，景觀會正面
提升，減少蚊患滋擾是理想的建屋地段。

**Relevant Revised Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories**
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD):

- (a) the applicant, Mr. LEE Kwok Wing, claims himself as an indigenous villager of Wai Ha. However, his eligibility of Small House grant has yet to be ascertained; and
- (b) the Site is held under Block Government Lease demised for agricultural use and is not covered by any Modification of Tenancy or Building Licence. No valid Small House application has been received by his Office from the applicant as at 16.1.2023; and
- (c) advisory comments are at **Appendix VI**.

2. Agriculture

Comment of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the Site is zoned “AGR” and is a piece of abandoned land overgrown with weeds. There are active agricultural activities in the vicinity, and agricultural infrastructure such as road access and water source is available. The Site can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries etc. As the Site possesses potential for agricultural rehabilitation, the application is not supported from agricultural point of view.

3. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) Small House development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impacts could be substantial; and
- (b) notwithstanding the above, it is noted that there are open spaces around the NTEH within the Site and the application involves only the development of one Small House, and she considers that the application can be tolerated on traffic grounds.

4. Environment

Comment of the Director of Environmental Protection (DEP):

- no in-principle objection to the application provided that the applicant will provide adequate sewer connection for disposal of sewage from the Small House to the existing public sewer at his own costs and reserve adequate land for the sewer connection work.

5. Drainage

Comment of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- if the application is approved, an approval condition on submission and implementation of drainage proposal for the Site is recommended to ensure that it will not cause adverse drainage impact to the adjacent areas.

6. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) no in-principle objection to the application provided that the proposed Small House would not encroach on any existing EVA or planned EVA; and
- (b) advisory comments are at **Appendix VI**.

7. Landscape

Comments of the Chief Town Planner/ Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the application from landscape planning perspective;
- (b) the Site is situated in an area of rural coastal plains landscape character comprising clusters of trees and vegetated areas to its north, vacant lands to its south, and village houses to the east and west in areas zoned “V”. The proposed Small House development is not incompatible with the surrounding environment; and
- (c) the Site is vacant and no significant landscape resource is observed within the Site. Significant adverse impact on landscape resources arising from the proposed Small House development is not anticipated.

8. Demand and Supply of Small House Sites

According to the DLO/TP, LandsD's record, the total number of outstanding Small House applications for Wai Ha is 9. There is no information on the 10-year Small House demand forecast for the same village. Based on the latest estimate by the PlanD, about 0.58ha (or equivalent to about 23 Small House sites) of land are available within the "V" zone of Wai Ha. Therefore, the land available can fully meet the future demand of Small Houses (or equivalent to about 0.23ha of land).

Lot 252 RP in D.D. 23, Wai Ha, Ting Kok, Tai Po

Site area: 830sq.m

Zoning: "Agriculture"

Applied development: NET House

Dear TPB Members,

Strong objections. 800+sq.mts for ONE small house????

This is part of an ongoing push to extend development into the AG zoning between Universal Gate Road and the FAUX Treasure Spot village development. Application 686 got 7 villas on adjoining lot was withdrawn mid 2020 but it is clear that the land is being gradually trashed in Destroy to Build mode.

There is no justification to extend the 'village' to the other side of the road.

Application should be rejected and agricultural land retained in order to ensure that there an adequate level of local produce to provide food security in uncertain times in line with the policies of the central government.

Recommended Advisory Clauses

- (a) to note the comments of District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that:
 - (i) should the application be approved, LandsD will process the Small House application upon receipt from the applicant. However, there is no guarantee at this stage that the Small House application would be approved. If the Small House application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD. There is also no guarantee to the grant of a right of way to the Small House concerned or approval of the emergency vehicular access (EVA) thereto; and
 - (ii) the Site falls outside the 'VE' boundary of Wai Ha Village. As the Site does not fall within 'VE' of a recognized village nor "V" zone encircling a recognized village, the Small House application would generally not be considered;
- (b) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
 - (i) the Site is located in close proximity of an existing box culvert. No structure should be erected within 3m measured from the outer edge of this box culvert;
 - (ii) there is no existing DSD maintained public drain available for connection in this area. The proposed development should have its own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from the surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient opening should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary/wall/fence are to be erected. Any existing flow path affected should be re-provided. The proposed development should neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas. The applicant should maintain the drainage systems properly and rectify the systems if found to be inadequate or ineffective during operation. The applicant should also be liable for and indemnify claims and demands arising out of damage or nuisance caused by failure of the systems; and
 - (iii) for works to be undertaken outside the lot boundary, prior consent and agreement from LandsD and/or relevant private lot owners should be sought;
- (c) to note the comment of the Director of Fire Services (D of FS) that the applicant should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' administered by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD; and

- (d) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed developments, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtains planning permission from Town Planning Board where required before carrying out the road work.
