8. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

申請位置原本屬鄉村式發展用途，因西貢公路改善工程，申請地段部分土地被改劃成道路用途。鑑於在蠔涌的道路改善工程已近完工，而本申請位置並沒有被使用或徵用，因此希望蠔涌鄉村式發展的土地嚴重不足的情況下，貴會可釋放該原本為鄉村式發展土地。

此小型屋宇申請(西貢地政處檔號：DLO/SK 63/SPA/99)，於1999年向西貢地政處呈交申請，因道路改善工程，申請至今仍未獲批准，因此申請人同時懇請貴會恩恤批准此規劃許可申請。

9. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in an application to the Board and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.
本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

Plan No. E289/D/H1/02

**Relevant Revised Interim Criteria for Consideration of Application for
NTEH/Small House in the New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
 - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- ^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Sai Kung, Lands Department (DLO/SK, LandsD):

- (a) no objection to the application;
- (b) the Site is located on Lot No. 1332 S.B in D.D. 244 which is held under the Block Government Lease demised for agricultural use. No structure is allowed to be erected on the Lot without prior approval from his Office pursuant to the lease restriction;
- (c) the Site and the proposed Small House (SH) footprint falls completely within the village environs of Ho Chung in Sai Kung Heung which is a recognized village under the New Territories Small House policy;
- (d) as advised by the Indigenous Inhabitant Representative (IIR) of Ho Chung in early 2020, the 10-year SH demand forecast for the village was 480. It should be noted that the figure has not been verified by his Office;
- (e) the number of outstanding SH applications within and outside the “V” zone in Ho Chung is 55 and 53 respectively;
- (f) the number of approved applications for rebuilding NTEH within the ‘VEs’ of Ho Chung and Nam Pin Wai, but that rebuilding of the concerned NTEH has not yet been completed is 7;
- (g) the applicant, CHAN King Fai, has applied for a SH grant by way of Free Building Licence at the Site. He has been certified as an indigenous villager of Yim Tin Tsai by the IIR of the village;
- (h) the subject SH application is under processing. According to file records, his Office has not received the SH plan as provided; and
- (i) notwithstanding the planning permission may be given, there is no guarantee that the SH application will be approved.

2. Traffic and Project Interface

2.1 Comments of the Commissioner for Transport (C for T):

- (a) such type of SH development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial;
- (b) notwithstanding the above, the application only involves development of one SH and she considers that the application can be tolerated on traffic grounds; and

- (c) her Office does not have any planned/committed road works within the Site and any need for retaining road reserve within the adjacent private lots.

2.2 Comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/NTE, HyD):

no comment on the application as it is outside the boundary of Hiram's Highway Improvement Stage 1 project.

2.3 Comments of the Project Manager (East), East Development Office, Civil Engineering and Development Department (PM(E), EDO, CEDD):

no comment on the application from project interface point of view.

3. **Environment and Sewerage**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) it is noted that septic tank and soakaway system is proposed for treatment of sewage from the proposed house. Septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person (AP).

4. **Drainage**

Comments of the Chief Engineer/Mainland South, Drainage Services Department (CE/MS, DSD):

- (a) provided that adequate stormwater drainage collection and disposal facilities would be provided in connection with the proposed use to deal with the surface runoff of the Site or the same flowing on to the Site from the adjacent areas without causing any adverse drainage impact to the areas or nuisance to the adjoining areas, he has no in-principle objection to the application from a drainage maintenance viewpoint; and
- (b) DEP's comment on the proposed use of septic tank should be sought.

5. **Water Supply**

Comments of the Chief Engineer/ Construction, Water Supplies Department (CE/C, WSD):

- (a) no objection to the application;
- (b) water mains are in close proximity to the proposed lot and are likely to be affected. The grantee/applicant is required to either divert or protect the water mains found on site;

- (c) if diversion is required, existing water mains inside the proposed lot are needed to be diverted outside the site boundary of the proposed development to lie in government land. A strip of land of minimum 1.5 metres in width should be provided for the diversion of the existing water mains. The cost of diversion of existing water mains upon request will have to be borne by the grantee/applicant; and the grantee/applicant shall submit all the relevant proposals to WSD for consideration and agreement before the works commence;
- (d) if diversion is not required, the following conditions shall apply:
 - (i) existing water mains are affected as indicated on the site plan and no development which requires resiting of water mains will be allowed;
 - (ii) details of site formation work shall be submitted to the Director of Water Supplies for approval prior to commencement of works;
 - (iii) no structures shall be built or materials stored within 1.5 metres from the centre line(s) of water main(s). Free access shall be made available at all times for staff of the Director of Water Supplies or their contractor to carry out construction, inspection, operation, maintenance and repair works;
 - (iv) no trees or shrubs with penetrating roots may be planted within the Waterworks Reserve or in the vicinity of the water main(s) shown on the plan. No change of existing site condition may be undertaken within the aforesaid area without the prior agreement of the Director of Water Supplies. Rigid root barriers may be required if the clear distance between the proposed tree and the pipe is 2.5 meters or less, and the barrier must extend below the invert level of the pipe;
 - (v) no planting or obstruction of any kind except turfing shall be permitted within the space of 1.5 metres around the cover of any valve or within a distance of 1 metre from any hydrant outlet;
 - (vi) tree planting may be prohibited in the event that the Director of Water Supplies considers that there is any likelihood of damage being caused to water mains;
- (e) for provision of water supply to the development, the applicant may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards;
- (f) water mains in the vicinity would not be able to support the provision of standard pedestal hydrant; and
- (g) water supply is available for the Site.

6. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

according to the aerial photo of 2020, the Site is entirely a hard-paved vacant land partly used as open car parking. No tree or other significant vegetation is observed within the Site. It is

situated in an area of rural village landscape character within non-sensitive landscape zoning. Significant impact on landscape character and existing landscape resources arising from the application is not anticipated.

7. **Building Matters**

Comments of the Chief Building Surveyor/NTE2 & Rail, Buildings Department (CBS/NTE2&Rail, BD):

- (a) no comment under the Buildings Ordinance (BO);
- (b) all non-exempted ancillary site formation and/or communal drainage works are subject to compliance with BO; and
- (c) AP must be appointed for the site formation and communal drainage works.

8. **Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) no objection in-principle to the application; and
- (b) the applicant is reminded to observe "New Territories Exempted Houses – A Guide to Fire Safety Requirements" published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

9. **Geotechnical**

Comments of the Head of Geotechnical Engineering Office, Civil Engineering and Development Department (H(GEO), CEDD):

- (a) no comment on the application; and
- (b) the applicant is reminded to make necessary submissions to LandsD and/or BD for approval if any existing slope could affect or be affected by the proposed works (if any) in accordance with the provisions of the BO.

10. **Demand and Supply of Small House Sites**

According to DLO/SK, LandsD, the number of outstanding Small House applications in Ho Chung is 108 while the 10-year Small House Demand Forecast for Ho Chung is 480. According to the latest estimate by PlanD, it is estimated that about 2.99 ha of land (equivalent to about 119 SH sites) is available within "V" zone of Ho Chung Village. Therefore, the land available in Ho Chung cannot fully meet the future Small House demand for 588 SH sites.

A/SK-HC/328
Lot 1332 S.B in D.D. 244, Ho Chung, Sai Kung
Site area : About 155sq.m
Zoning : "VTD" and area shown as 'Road'
Applied development : NET House

Dear TPB Members,

As there is no other house encroaching onto the 'Road' zone close to the junction it would appear that the intention is to provide buffer zone and leave room for upgrade of road?

Applicant should swap the lot for one of the many further back currently used for parking.

Mary Mulvihill

Advisory Clauses

- (a) to note the comments of the District Lands Officer/Sai Kung, Lands Department (LandsD) that notwithstanding that planning permission may be given, there is no guarantee that the Small House application will be approved;
