10. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

Having considered the load growth of the existing services/customers especially for newly installed electric vehicle chargers and development of new small houses, a new package substation is suggested to be installed for alleviating the load condition of existing supply facilities and enhancing the reliability of the electricity supply system to the vicinity villages around Ho Chung.

Please note that the package substation is a specially designed electrical equipment that occupies an area of less than 12 sq.m. and has been widely adopted in different areas. It is of prefabricated design and totally enclosed to accommodate the required equipment. It is of unmanned design, easy to install, maintenance free and made of fireproof materials. Its impact to the nearby areas and local traffic is minimal.

The excavation of land of 1.8 m depth is for construction of the concrete plinth for installing the package substation. Cable trench is also included in the concrete plinth for cable laying in/out from the package substation.

Hence, we hereby submit application to Town Planning Board for the approval of planning permission for the subject installation.
