Government Land in D.D. 316L near Pui O San Wai Tsuen, Lantau Island

Site area : About 37.73sq.m Government Land

Zoning: "Coastal Protection Area"

Applied development: Underground Power Cables / **Excavation and Filling of Land**

Dear TPB Members.

CLP applications, particularly when they involve the excavation of government land, should declare what is the end use of the installation. There is no record of approval for any development near the location.

Strong objections in this instance as the location is an area of zoned "CPA". This indicates that the end use will be detrimental to the preservation of the wetlands and the planning intention of the conservation area.

Currently we are experiencing record high temperatures, further erosion of coastal defenses and important ecological habitat cannot be tolerated.

Any power required to the village across the road should be located on "V" zone.

Mary Mulvihill

Recommended Advisory Clauses

1. to note the comments of the Head of the Sustainable Lantau Office, Civil Engineering and Development Department that the construction and demolition wastes during the construction works should be disposed of properly to avoid adverse ecological and environmental impacts on the surroundings;
2. to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department that approval of the application under the Town Planning Ordinance does not imply approval of tree works such as pruning, transplanting and felling. The applicant is reminded to approach relevant authority/government department(s) direct to obtain necessary approval on tree works;
3. to note the comments of the Director of Electrical and Mechanical Services that the Electricity Supply Lines (Protection) Regulation and the “Code of Practice on Working near Electricity Supply Lines” established under the Regulation shall be observed by the applicant and his contractors when carrying out works in the vicinity of electricity supply lines;
4. to note the comments of the Chief Highway Engineer/New Territories East, Highways Department that adequate precaution and exercise extreme care should be taken to avoid damage to public roads/highway structures. Any damage or settlement to public roads/highway structures so caused by the proposed works should be reinstated to the satisfaction of his Office; and
5. to note the comments of Executive Secretary (Antiquities and Monuments), Antiquities and Monuments Office, Development Bureau that the applicant is reminded to inform Antiquities and Monuments Office immediately when any antiquities or supposed antiquities under the Antiquities and Monuments Ordinance (Cap. 53) are discovered in the course of works.
