10. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

The justifications for the proposed Shop and Services are as follow:

The application site is planning to be used for Retails Shop which is majorly selling construction materials, spare parts for electrical appliances and metal parts to convenience a nearby office and worker in Fo Tan during office hours only.

There is no similar Retails Shop in Hopeful Factory Centre.

Our Shop entrance is facing Au Pui Wan Street and opening hour is Monday to Sunday from 7:00am to 8:00pm including Public Holiday.

Most of our products are provided in Fo Tan from our suppliers. Also, our company also have a unit in same building for storage our goods. This can eliminate manpower and transportation to reduce the traffic load and carbon emission.

Our company also have 2nos parking spaces in this building for loading and unloading. Hence, it would not cause any traffic and environment implication in Fo Tan.

11. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.

Relevant Extracts from the Town Planning Board Guidelines
For Use/Development Within “Industrial” Zone

- 6.2 For a proposed commercial use in an industrial building or on the upper floors of an I-O building, the following main planning criteria are relevant:
- (a) It should be demonstrated that there is a genuine need for the proposed use under application and no suitable alternative accommodation can be found in the vicinity. The location and scale of the proposed use should be justified on operational grounds.
 - (b) Depending on the circumstances of individual cases and the availability of I-O or ‘business’ buildings in the vicinity at the time of application, the Board may grant temporary permission for ancillary showroom use exceeding 20% of the total UFA of an industrial firm in industrial buildings.
 - (c) Provided that other criteria could be met and with good justifications, favourable consideration would be given to applications for showrooms requiring large floor area for the display of bulky goods and provision of adequate on-site loading/unloading facilities, which could not normally be accommodated in conventional commercial/office buildings.
 - (d) There should be an adequate provision of parking and loading/unloading facilities within the site in accordance with the Hong Kong Planning Standards and Guidelines and to the satisfaction of the Transport Department. The inclusion and operation of the proposed commercial use should not adversely affect the traffic conditions in the local road network.

- (e) The Fire Services Department (FSD) should be satisfied on the risks likely to arise or increase from the proposed commercial use under application. Owing to fire safety concern, the aggregate commercial floor areas³ on the ground floor of an existing industrial/I-O building with and without sprinkler systems should as a general principle not exceed 460m² and 230m² respectively. For any application which would result in a slight exceedance of the relevant floor area limit, the applicant has to demonstrate that the fire safety concern can be satisfactorily addressed, and each case will be considered by the Board on its own merits. The above limits on commercial floor area do not apply to uses which are ancillary to or for the purposes of supporting the industrial activities and the routine activities of the workers in the industrial or I-O building. These uses include bank, fast food counter (sited at street level without seating accommodation and licensed as food factory), electrical shop (selling electrical accessories usually with repairing services and small in scale), local provisions store (selling cigarettes, drinks, canned food and other local convenience goods, and small in scale) and showroom in connection with the main industrial use. Any prospective applicant may check with the Planning Department on the aggregate commercial floor area figure in the concerned industrial or I-O building. Moreover, the 230m²/460m² criteria do not apply to cases involving conversion of the low zone of an existing industrial or I-O building for commercial uses if the commercial portion is completely separated from the industrial or I-O portion on the upper floors by a buffer floor of non-hazardous occupancy such as a car-parking floor. In all cases, separate means of escape should be available for the commercial portion. Also, FSD will not support commercial uses in the basement(s) of an industrial or I-O building as the basement(s) are more susceptible to fire risk and pose more serious hazards when involved in fire.

Recommended Advisory Clauses

- (a) prior planning permission should have been obtained before commencing the applied use at the Premises;
- (b) a temporary approval of 5 years is given in order to allow the Town Planning Board (the Board) to monitor the compliance of the approval conditions and the supply and demand of industrial floor space in the area to ensure that the long term planning intention of industrial use for the Premises will not be jeopardized;
- (c) should the applicant fail to comply with the approval condition again resulting in the revocation of the planning permission, sympathetic consideration may not be given by the Board to any further application;
- (d) to note the following comments of District Lands Officer/Shia Tin, Lands Department (DLO/ST, LandsD) that:
 - (i) the Premises for ‘Shop and Services’ are not permitted under the New Grant. Under the established procedures for this case relating to ground floor of industrial building, the owner of the Premises is advised to apply to LandsD for a waiver for the uses under planning application at this stage. If the planning application is approved by the Board, waiver application will then be processed by LandsD to allow the applied use. However, there is no guarantee that the waiver application will be approved. Such application, if received by LandsD, will be considered by LandsD acting in the capacity as the landlord at its sole discretion and any approval for the waiver given would be subject to such terms and conditions including, inter alia, payment of waiver fee and administrative fee as may be imposed by LandsD; and
 - (ii) the Premises together with the remaining floor area of Factory Unit 4 comprising a total floor area of about 216m² are now being used for retail purposes in breach of the lease conditions. For the avoidance of doubt, LandsD will consider the waiver application for the Premises only, if approved by the Board and the applicant is still required to rectify the breach of the remaining floor area. In the event that the application is not approved by the Board, the waiver application will not be considered by LandsD and the applicant should rectify the breach of the whole floor of Factory Unit 4. Otherwise, LandsD will take appropriate lease enforcement action against the breach.
- (e) to note the following comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
 - (i) before any new building works are to be carried out on the application site, prior approval and consent of the Building Authority (BA) should be obtained unless they are exempted building works or commenced under the simplified requirement under the Minor Works Control System. Otherwise they are Unauthorized Building Works (UBWs). An Authorized Person should be appointed as the coordinator for the proposed building works in accordance with the Buildings Ordinance (BO);

- (ii) for UBW erected on leased land, enforcement action may be taken by the BA to effect their removal in accordance with the enforcement policy against UBW of BD as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the application site under the BO;
 - (iii) if the proposed use under application is subject to the issue of a licence, please be reminded that any existing structures on the Premises intended to be used for such purposes are required to comply with the building safety and other relevant requirements as may be imposed by the licensing authority; and
 - (iv) proposed uses shall be separated from others use with adequate fire barriers. Detailed comments under the BO, including provision of sanitary fitment and barrier free access should be demonstrated during building plan submission.
- (f) to note the following comments of the Director of Fire Services (D of FS) that:
- (i) detailed fire services requirements will be formulated upon receipt of formal submission of general building plans;
 - (ii) regarding matters related to fire resisting construction of the Premises, the applicant is reminded to comply with the “*Code of Practice for Fire Safety in Buildings*” which is administered by the BD; and
 - (iii) the applicant should pay attention to the “*Guidance Note on Compliance with Planning Condition on Provision of Fire Safety Measures for Commercial Uses in Industrial Premises*”.
