A/ST/1026

**Relevant Extracts from the Town Planning Board Guidelines**  
**For Use/Development Within “Industrial” Zone**

- 6.2 For a proposed commercial use in an industrial building or on the upper floors of an I-O building, the following main planning criteria are relevant:
- (a) It should be demonstrated that there is a genuine need for the proposed use under application and no suitable alternative accommodation can be found in the vicinity. The location and scale of the proposed use should be justified on operational grounds.
  - (b) Depending on the circumstances of individual cases and the availability of I-O or ‘business’ buildings in the vicinity at the time of application, the Board may grant temporary permission for ancillary showroom use exceeding 20% of the total UFA of an industrial firm in industrial buildings.
  - (c) Provided that other criteria could be met and with good justifications, favourable consideration would be given to applications for showrooms requiring large floor area for the display of bulky goods and provision of adequate on-site loading/unloading facilities, which could not normally be accommodated in conventional commercial/office buildings.
  - (d) There should be an adequate provision of parking and loading/unloading facilities within the site in accordance with the Hong Kong Planning Standards and Guidelines and to the satisfaction of the Transport Department. The inclusion and operation of the proposed commercial use should not adversely affect the traffic conditions in the local road network.

- (e) The Fire Services Department (FSD) should be satisfied on the risks likely to arise or increase from the proposed commercial use under application. Owing to fire safety concern, the aggregate commercial floor areas<sup>3</sup> on the ground floor of an existing industrial/I-O building with and without sprinkler systems should as a general principle not exceed 460m<sup>2</sup> and 230m<sup>2</sup> respectively. For any application which would result in a slight exceedance of the relevant floor area limit, the applicant has to demonstrate that the fire safety concern can be satisfactorily addressed, and each case will be considered by the Board on its own merits. The above limits on commercial floor area do not apply to uses which are ancillary to or for the purposes of supporting the industrial activities and the routine activities of the workers in the industrial or I-O building. These uses include bank, fast food counter (sited at street level without seating accommodation and licensed as food factory), electrical shop (selling electrical accessories usually with repairing services and small in scale), local provisions store (selling cigarettes, drinks, canned food and other local convenience goods, and small in scale) and showroom in connection with the main industrial use. Any prospective applicant may check with the Planning Department on the aggregate commercial floor area figure in the concerned industrial or I-O building. Moreover, the 230m<sup>2</sup>/460m<sup>2</sup> criteria do not apply to cases involving conversion of the low zone of an existing industrial or I-O building for commercial uses if the commercial portion is completely separated from the industrial or I-O portion on the upper floors by a buffer floor of non-hazardous occupancy such as a car-parking floor. In all cases, separate means of escape should be available for the commercial portion. Also, FSD will not support commercial uses in the basement(s) of an industrial or I-O building as the basement(s) are more susceptible to fire risk and pose more serious hazards when involved in fire.

**Recommended Advisory Clauses**

- (a) prior planning permission should have been obtained before commencing the applied use at the Premises;
- (b) a temporary approval of five years is given in order to allow the Board to monitor the compliance of the approval conditions and the supply and demand of industrial floor space in the area to ensure that the long term planning intention of industrial use for the Premises will not be jeopardized;
- (c) to note the comments of the District Lands Officer/Shia Tin, Lands Department (DLO/ST, LandsD) that the ‘Shop and Service (Fast Food Shop) with Ancillary Store Room’ is not permitted under New Grants. LandsD has received an application for a waiver for the uses under the planning application. If the planning application is approved by the Board, the waiver application will be processed by LandsD further to allow the applied use. However, there is no guarantee that the waiver application will be approved. Such application will be considered by LandsD acting in its capacity as the landlord at its sole discretion and any approval for the waiver given would be subject to such terms and conditions including, inter alia, payment of waiver fee and administrative fee as may be imposed by LandsD;
- (d) to note the following comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
  - (i) the applied use shall comply with the requirements under the Buildings Ordinance. For instance, the shop shall be separated from adjoining workshops by fire barriers with Fire Resistance Rating of 120 minutes, and the means of escape of the existing adjoining workshop shall not be adversely affected. Building safety requirements will be formulated upon receipt of food premises licence application, where appropriate; and
  - (ii) the applicant should engage an authorized person to co-ordinate the building works, if any;
- (e) to note the following comments of the Director of Fire Services (D of FS) that:
  - (i) detailed fire service requirements will be formulated upon receipt of formal submission of general building plans or referral from licensing authority and the ‘fast food shop’ to be licensed as ‘food factory’ or ‘factory canteen’ only; and
  - (ii) regarding matters related to fire resisting construction of the Premises, the applicant is reminded to comply with the “*Code of Practice for Fire Safety in Buildings*” which is administered by the Building Authority.
