I noticed the comment from Fire Services Department and will submit relevant Fire Services document later stage.

**Relevant Extracts from the Town Planning Board Guidelines  
For Use/Development Within “Industrial” Zone**

- 6.2 For a proposed commercial use in an industrial building or on the upper floors of an I-O building, the following main planning criteria are relevant:
- (a) It should be demonstrated that there is a genuine need for the proposed use under application and no suitable alternative accommodation can be found in the vicinity. The location and scale of the proposed use should be justified on operational grounds.
  - (b) Depending on the circumstances of individual cases and the availability of I-O or ‘business’ buildings in the vicinity at the time of application, the Board may grant temporary permission for ancillary showroom use exceeding 20% of the total UFA of an industrial firm in industrial buildings.
  - (c) Provided that other criteria could be met and with good justifications, favourable consideration would be given to applications for showrooms requiring large floor area for the display of bulky goods and provision of adequate on-site loading/unloading facilities, which could not normally be accommodated in conventional commercial/office buildings.
  - (d) There should be an adequate provision of parking and loading/unloading facilities within the site in accordance with the Hong Kong Planning Standards and Guidelines and to the satisfaction of the Transport Department. The inclusion and operation of the proposed commercial use should not adversely affect the traffic conditions in the local road network.

- (e) The Fire Services Department (FSD) should be satisfied on the risks likely to arise or increase from the proposed commercial use under application. Owing to fire safety concern, the aggregate commercial floor areas<sup>3</sup> on the ground floor of an existing industrial/I-O building with and without sprinkler systems should as a general principle not exceed 460m<sup>2</sup> and 230m<sup>2</sup> respectively. For any application which would result in a slight exceedance of the relevant floor area limit, the applicant has to demonstrate that the fire safety concern can be satisfactorily addressed, and each case will be considered by the Board on its own merits. The above limits on commercial floor area do not apply to uses which are ancillary to or for the purposes of supporting the industrial activities and the routine activities of the workers in the industrial or I-O building. These uses include bank, fast food counter (sited at street level without seating accommodation and licensed as food factory), electrical shop (selling electrical accessories usually with repairing services and small in scale), local provisions store (selling cigarettes, drinks, canned food and other local convenience goods, and small in scale) and showroom in connection with the main industrial use. Any prospective applicant may check with the Planning Department on the aggregate commercial floor area figure in the concerned industrial or I-O building. Moreover, the 230m<sup>2</sup>/460m<sup>2</sup> criteria do not apply to cases involving conversion of the low zone of an existing industrial or I-O building for commercial uses if the commercial portion is completely separated from the industrial or I-O portion on the upper floors by a buffer floor of non-hazardous occupancy such as a car-parking floor. In all cases, separate means of escape should be available for the commercial portion. Also, FSD will not support commercial uses in the basement(s) of an industrial or I-O building as the basement(s) are more susceptible to fire risk and pose more serious hazards when involved in fire.

1.	A/ST/191	Unit I	Restaurant	152	24.1.1992	R1, R2, R3

Rejection Reasons:

- R1            there is already an abundant supply of eating facilities in the Fo Tan Industrial Area. Hence there is no strong justification to sacrifice the industrial ground floor space for subject use
- R2            the proposed restaurant would attract people who are not workers in the subject industrial building and would expose them to fire and life risks which they are neither aware of nor prepared to face
- R3            approval of the proposed use would set an undesirable precedent thereby stimulating similar conversion of existing industrial ground floor space for non-industrial uses

**Recommended Advisory Clauses**

- (a) prior planning permission should have been obtained before commencing the applied use at the Premises;
- (b) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department that:
  - (i) the applied use shall comply with the requirements under the Buildings Ordinance (BO). For instance, the shop shall be separated from adjoining workshops by fire barriers with Fire Resistance Rating of 120 minutes, and the means of escape of the existing adjoining workshop shall not be adversely affected. Building safety requirements will be formulated upon receipt of food premises licence application, where appropriate; and
  - (ii) the subdivision of the unit/premises should comply with the provisions of BO/Building (Minor Works) Regulations. The applicant should engage a registered building professional under the BO to co-ordinate the buildings works, if any;
- (c) to note the comments of the Director of Fire Services that:
  - (i) detailed fire services requirements will be formulated upon receipt of formal submission of general building plans; and
  - (ii) the applicant's attention is drawn to the "Guidance Note on Compliance with Planning Condition on Provision of Fire Safety Measures for Commercial Uses in Industrial Premises";
- (d) to note the comments of the Director of Food and Environmental Hygiene (DFEH) that:
  - (i) no Food and Environmental Hygiene Department's (FEHD) facilities should be affected;
  - (ii) proper licence / permit issued by FEHD is required if there is any food business / catering service / activities regulated by the DFEH under the Public Health and Municipal Services Ordinance (Cap. 132) and other relevant legislation for the public. Under the Food Business Regulation, Cap. 132X, a food business licence is required for the operation of the relevant type of food business listed in the Regulation. For any premises intended to be used for food business (e.g. a restaurant, a food factory, a fresh provision shop), a food business licence from the FEHD in accordance with the Public Health and Municipal Services Ordinance (Cap. 132) shall be obtained. The application for licence, if acceptable by the FEHD, will be referred to relevant government departments such as the Buildings Department, Fire Services Department and Planning Department for comment. If there is no objection from the departments concerned, a letter of requirements will

be issued to the applicant for compliance and the licence will be issued upon compliance of all the requirements; and

- (iii) there should be no encroachment on the public place and no environmental nuisance should be generated to the surroundings. Its state should not be a nuisance or injurious or dangerous to health and surrounding environment. Also, for any waste generated from such activities/ operation, the applicant should arrange disposal properly at their own expenses.
