**Relevant Extract of Town Planning Board Guidelines
on Renewal of Planning Approval and Extension of Time for Compliance with
Planning Conditions for Temporary Use or Development
(TPB PG-No. 34D)**

1. The criteria for assessing applications for renewal of planning approval include:
 - (a) whether there has been any material change in planning circumstances since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
 - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
 - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant government departments within the specified time limits;
 - (d) whether the approval period sought is reasonable; and
 - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

Government Departments' General Comments

1. Land Administration

Comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD):

- the Premises comprise an Old Schedule Agricultural Lot held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government;
- his site inspections revealed that a single-storey structure is found erected on Lot Nos. 787 RP and 793 in D.D. 107. The structure at the Premises seems to form an integral part of the larger structure. As the structure on Lot Nos. 787 RP and 793 are in breach of the relevant lease conditions, warning letters to the registered owners of the lots were registered in the Land Registry as the breaches had not been purged by the stipulated deadline; and
- LandsD has concerns given that there are unauthorised building works and/or uses on Lot Nos. 787 RP in D.D. 107 which are already subject to lease enforcement actions according to case priority. The lot owner(s) should remedy the lease breaches as demanded by LandsD.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- no comment on the application from traffic engineering perspective.

Comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD):

- Fung Kat Heung Road is not maintained by HyD; and
- HyD is not/shall not be responsible for the maintenance of any access connecting the Site and San Tam Road.

3. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection in-principle from public drainage point of view given that the proposed development only occupies an area of 65m².

4. **Fire Safety**

Comments of the Director of Fire Services (D of FS):

- no objection in-principle to the application subject to the existing fire service installations implemented at the Premises being maintained in efficient working order at all times.

5. **Environment**

Comments of the Director of Environmental Protection (DEP):

- there was no environmental complaint case concerning the Premises received in the past three years.

Comments of the Director of Food and Environmental Hygiene (DFEH):

- no adverse comment on the application.

6. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- no significant landscape impact is anticipated.

7. **Building Matters**

Comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD):

- there is no record of approval by the Building Authority for the existing structures at the application site and BD is not in a position to offer comments on their suitability for the use proposed in the application.

8. **District Officer's Comments**

Comments of the District Officer (Yuen Long), Home Affairs Department (DO(YL), HAD):

- his office has not received any local's comment on the application and he has no comment on the application.

9. **Other Departments**

The following government departments have no objection to/no adverse comment/no comment on the application:

- Project Manager (West), Civil Engineering and Development Department (PM(W), CEDD);

- Director of Agriculture, Fisheries and Conservation (DAFC);
- Chief Engineer/Construction, Water Supplies Department (CE/C, WSD);
- Director of Electrical and Mechanical Services (DEMS); and
- Commissioner of Police (C of P).

Recommended Advisory Clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the Premises;
- (b) to follow the relevant mitigation measures and requirements in the latest 'Code of Practice on Handling the Environmental Aspects of Temporary uses and Open Storage Sites' issued by the Environmental Protection Department;
- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that:
 - should planning approval be given to the application, the lot owner(s) will need to apply to his Office to permit the structure(s) to be erected or regularise any irregularities on site. Besides, given the proposed use is temporary in nature, only application for regularisation or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by LandsD acting in the capacity as landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by LandsD;
- (d) to note the comments of the Commissioner for Transport (C for T) that:
 - the Premises are connected to the public road network via a section of local access road which is not managed by Transport Department. The land status of the local access road should be checked with LandsD. Moreover, the management and maintenance responsibilities of the local access road should be clarified with the relevant lands and maintenance authorities accordingly;
 - No vehicle is allowed to queue back to or reverse onto/from public road at any time during the planning approval period;
- (e) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD) that:
 - adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to nearby public roads or exclusive road drains;
- (f) to note the comments of the Director of Food and Environmental Hygiene (DFEH) that:
 - no Food and Environmental Hygiene Department (FEHD) facilities should be affected;
 - proper licence/permit issued by his department is required if there is any food business/catering service/activities regulated by DFEH under the Public Health and Municipal Services Ordinance (Cap. 132) and other relevant legislation for the public. Under the Food Business Regulation, Cap. 132X, a food business licence is required for the operation of the relevant type of food business listed in the Regulation. For any premises intended to be used for food business (e.g. a restaurant, a food factory, a fresh provision shop), a food business licence from the FEHD in accordance with the Public Health and Municipal Services Ordinance (Cap. 132) shall be obtained. The

application for licence, if acceptable by FEHD, will be referred to relevant government departments such as the Buildings Department, Fire Services Department and Planning Department for comment. If there is no objection from the departments concerned, a letter of requirements will be issued to the applicant for compliance and the licence will be issued upon compliance of all the requirements;

- depending on the mode of operation, generally there are several types of food business licence/permits that the operator of a store may apply for under the Food Business Regulation :
 - (i) if food is sold to customers for consumption on the premises, a restaurant licence should be obtained;
 - (ii) if food is only prepared for sale for consumption off the premises, a food factory licence should be obtained;
 - (iii) if fresh, chilled or frozen meat is sold, a fresh provision shop licence should be obtained;
 - (iv) if milk, frozen confections, non-bottled drinks, cut fruit etc. are to be sold, relevant restricted food permits should be obtained;
 - the operators of related shop or store should take measures to prevent the existence of nuisance such as noise nuisance, pest nuisance and accumulation of refuse at the site. The refuse generated by the proposed eating place are regarded as trade refuse. The management or owner of the site is responsible for its removal and disposal at their expenses. The operation of any business should not cause any obstruction or environmental nuisance in the vicinity;
 - Proper licence issued by FEHD is required if related place of entertainment is involved. Any person who desires to keep or use any place of public entertainment for example a theatre and cinema or a place, building, erection or structure, whether temporary or permanent, on one occasion or more, capable of accommodating the public presenting or carrying on public entertainment within Places of Public entertainment (PPE) Ordinance (Cap. 172) and its subsidiary legislation, such as a concert, opera, ballet, stage performance or other musical, dramatic or theatrical entertainment, cinematograph or laser projection display or an amusement ride and mechanical device which is designed for amusement, a Place of Public Entertainment Licence (or Temporary Place of Public Entertainment Licence) should be obtained from FEHD whatever the general public is admitted with or without payment;
- (g) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
- if the existing structures (not being New Territories Exempted Houses) are erected on leased land without approval of the BA, they are unauthorised building works (UBW) under the Buildings Ordinance (BO) and should not be designed for any proposed use under the application;
 - for UBW erected on leased land, enforcement action may be taken by BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on site under the BO;
 - before any new building works (including containers/open sheds as temporary buildings, demolition and land filling) are to be carried out on site, prior approval and

consent of the BA should be obtained, otherwise they are UBW. An Authorised Person (AP) should be appointed as the coordinator for the proposed building works in accordance with the BO;

- the site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively;
 - the site does not abut on a specified street of not less than 4.5m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage; and
- (h) To note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the proposed development should neither obstruct overland flow nor adversely affect any existing natural streams, village drains, ditches and the adjacent areas.

Dear TPB Members,

Conditions for Application 707 never fulfilled. Previous application 573 revoked for failure to fulfill Fire Conditions.

Members should question this as fire in an industrial building poses serious issues for the community.

If the authorities on their part are being too stringent in their requirements, then this should be reviewed.

Either way members cannot continue to rubber stamp applications.

Mary Mulvihill
