我司回應運輸署道路使用之關注, 在車場路口及道路安全使用上將作出全力配合及監控, 本公司有 6 部貨櫃車租用此場地營運已經 23 年, 每天運作時間由早上 8 時至下午 7 時止, 只作停泊拖頭拖架用途, 平均每天車輛行駛次數為 2-3 次, 早出晚歸, 只供自己公司車輛使用, 一律不允許其他車輛進入. 而且本公司亦非常關注司機的駕駛安全問題, 要求在進入車場前之道路上一定要將車速減慢至 10 公里, 如有貨櫃車同時用來回線時, 將車速減慢至 5 公里, 兩邊車輛亦可通過而沒有太大影響, 因為貨櫃車的闊度為 2.5 米, 而路面的闊度為 6 米, 所以並不需要使用村民的行人路亦可通過. 並且我司嚴控司機的車速, 命令司機在進入車場前用車上的傳呼機確定是否有其他車輛進出, 盡量避免同一時間使用來往路口.

申請地點長 42 米, 闊 36.4 米共 1530 平方米足夠停放 15 部拖架及 6 部貨櫃拖頭.

附上手繪圖一張, 圖中預留掉頭位置, 貨櫃車可車前倒後掉頭, 晚上收工後, 最後的車輛也可停泊在該處. 早上開工後, 所有拖頭及部份拖架便駛離場地, 直至晚上收工才返回車場, 是足夠擺放運作的.

Relevant Extracts of Town Planning Board Guidelines on
Application for Open Storage and Port Back-up Uses
(TPB PG-No.13G)

1. On 14.4.2023, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13G) were promulgated, which set out the following criteria for the various categories of area:
 - (a) Category 1 areas: favourable consideration will normally be given to applications within these areas, subject to no major adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments should be submitted if the proposed uses may cause significant environmental and traffic concerns;
 - (b) Category 2 areas: planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments, where appropriate, should be submitted to demonstrate that the proposed uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas;
 - (c) Category 3 areas: applications would normally not be favourably considered unless the applications are on sites with previous planning approvals (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant). Sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and/or relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. Planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions; and
 - (d) Category 4 areas: applications would normally be rejected except under exceptional circumstances. For applications on sites with previous planning approvals (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant), and subject to no adverse departmental comments and local objections, sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and/or relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. The intention is however to encourage the phasing out of such non-conforming uses as early as possible. A maximum period of 3 years may be allowed for an applicant to identify suitable sites for relocation. Application for renewal of approval will be assessed on its individual merits.

2. In assessing applications for open storage and port back-up uses, the other major relevant assessment criteria are also summarized as follows:
 - (a) port back-up sites and those types of open storage uses generating adverse noise, air pollution, visual intrusion and frequent heavy vehicle traffic should not be located adjacent to sensitive receivers such as residential dwellings, hospitals, schools and other community facilities;
 - (b) port back-up uses are major generators of traffic, with container trailer/tractor parks generating the highest traffic per unit area. In general, port back-up sites should have good access to the strategic road network, or be accessed by means of purpose built roads;
 - (c) adequate screening of sites through landscaping and/or fencing should be considered where sites are located adjacent to public roads or are visible from surrounding residential areas;
 - (d) there is a general presumption against conversion of active or good quality agricultural land and fish ponds to other uses on an ad-hoc basis. For flood prone areas or sites which would obstruct natural drainage channels and overland flow, advice should be sought; and
 - (e) for applications involving sites with previous planning approvals, should there be no evidence to demonstrate that the applicants have made any genuine effort to comply with the approval conditions of the previous planning applications, planning permission may be refused notwithstanding other criteria set out in the Guidelines are complied with.

Relevant Extracts of Town Planning Board Guidelines
on Renewal of Planning Approval and Extension of Time for Compliance with
Planning Conditions for Temporary Use or Development
(TPB PG-No. 34D)

1. The criteria for assessing applications for renewal of planning approval include:
 - (a) whether there has been any material change in planning circumstances since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
 - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
 - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant government departments within the specified time limits;
 - (d) whether the approval period sought is reasonable; and
 - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

Government Departments' General Comments

1. Land Administration

Comments of the District Lands Officer/Yuen Long, Lands Department:

- no adverse comment on the application;
- the application site (the Site) comprises Old Schedule Agricultural Lot 617 RP and 618 RP in D.D. 103 held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government; and
- Lot 617 RP in D.D. 103 is covered by Short Term Waiver No. 2567 for the purpose of “office and watchman shed ancillary to open storage of vehicles for sale/disposal and container trailer/tractor park”.

2. Traffic

Comments of the Commissioner for Transport:

- no adverse comment on the application from traffic engineering perspective.

Comments of the Chief Highway Engineer/New Territories West, Highways Department:

- no adverse comment on the application from highway maintenance perspective.

3. Agricultural and Nature Conservation

Comments of the Director of Agriculture, Fisheries and Conservation:

- considering that the previous application for the same use on the Site was approved, he has no strong view against the application for renewal of the planning approval from agricultural and nature conservation perspectives.

4. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department:

- no objection in principle to the application from public drainage point of view.

5. Fire Safety

Comments of the Director of Fire Services:

- no objection in principle to the application subject to the existing fire service installations implemented on the Site being maintained in an efficient working order at all times.

6. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department:

- no objection to the application from landscape planning perspective; and
- the Site is situated in an area of miscellaneous rural fringe landscape character composing of temporary structures, open storage and scattered tree groups. Comparing the aerial photo of 2020 and 2023, there is no significant change to the landscape character of the surrounding area since the last application was approved. Based on the site photos taken in July 2024, some existing trees of common species are observed within the Site. According to the layout plan provided, there is no significant change in the proposed layout. Further significant adverse landscape impact within the Site arising from the continuous use is not anticipated.

7. **Building Matters**

Comments of the Chief Building Surveyor/New Territories West, Buildings Department:

- there is no record of approval by the Building Authority for the existing structures at the Site.

8. **District Officer's Comments**

Comments of the District Officer (Yuen Long), Home Affairs Department:

- no comment on the application.

9. **Other Departments**

The following government departments have no objection to / no comment on the application:

- Director of Electrical and Mechanical Services; and
- Commissioner of Police.

Recommended Advisory Clauses

- (a) to resolve any land issues relating to the proposed use with the concerned owner(s) of the application site (the Site);
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (LandsD) that:
 - the Short Term Wavier (STW) holder(s) will need to apply to his office for modification of the STW conditions where appropriate and the lot owner(s) shall apply to his office for a STW to permit the structure(s) erected within Lot 618 RP in D.D. 103. The application(s) for STW will be considered by the Government in its capacity as a landlord and there is no guarantee that it will be approved. The STW, if approved, will be subject to such terms and conditions including the payment of waiver fee and administration fee as considered appropriate by LandsD. Besides, given the proposed use is temporary in nature, only erection of temporary structure(s) will be considered;
- (c) to note the comments of the Commissioner for Transport (C for T) that:
 - the Site is connected to the public road network via a section of a local access road which is not managed by Transport Department. The land status of the local access road should be checked with the LandsD. Moreover, the management and maintenance responsibilities of the local access road should be clarified with the relevant lands and maintenance authorities accordingly. Sufficient manoeuvring space shall be provided within the Site. No vehicle is allowed to queue back to or reverse onto/from public road at any time during the planning approval period;
- (d) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department (HyD) that:
 - HyD shall not be responsible for the maintenance of any access connecting the Site and Kam Tin Road; and
 - adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public road and drains;
- (e) to note the comments of the Director of Environmental Protection (DEP) that:
 - the applicant is advised to follow the relevant mitigation measures and requirements in the revised "Code of Practice on Handling the Environmental Aspects of Temporary uses and Open Storage Sites" issued by the Environmental Protection Department;
- (f) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (DSD) that:
 - the applicant is reminded to maintain all the drainage facilities on-site in good condition and ensure that the applied use would neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas, etc. The applicant is required to rectify the drainage system at their own expense to the satisfaction of the government parties concerned if they are found to be inadequate or ineffective during operation;

- (g) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that:
- if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of BD, they are unauthorised building works (UBW) under the Buildings Ordinance (BO) and should not be designated for any proposed use under the application;
 - for UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - before any new building works (including containers/open sheds as temporary buildings and land filling) are to be carried out on Site, prior approval and consent of the BD should be obtained, otherwise they are UBW. An Authorised Person (AP) should be appointed as the co-ordinator for the proposed building works in accordance with the BO;
 - the Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations respectively; and
 - if the Site does not abut on a specified street of less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the Building (Planning) Regulations at the building plan submission stage.
