According to the Notes of the OZP, 'shop and services' is a column 2 use within the "V" zone, which requires permission from the Board. Since the application is only on a temporary basis, it will not jeopardize the long term planning intention of the "V" zone.

The Site occupied an area of 33 sq.m (about)(Plan P03). One structure is proposed at the site for shop and services and ancillary storage of goods / documents and office with total GFA of 66 sq.m (about)(Plan P04). The operation hours of the proposed development are 09:00 - 19:00 daily (including public holidays). The estimated maximum number of visitor per day are 10 (about). The estimated number of staff working at the Site is 4.

The Site is accessible from Pat Heung Road via a local access (Plan P01). No parking and loading/unloading space is provided at the Site. Since the shop and services is proposed to serve the nearby locals, visitor and staff are required to access the Site by walking.

The applicant will strictly follow the 'Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites' issued by Environmental Protection Department to minimize adverse environmental impacts and nuisance to the surrounding area. The applicant will strictly follow the Professional Persons Environmental Consultative Committee Practice Notes for sewerage treatment at the Site.

The proposed development will not create significant adverse traffic, environmental, landscape and drainage impacts to the surrounding areas. Adequate mitigation measures will be provided after planning approval has been granted from the Board, i.e. submission of drainage and fire service installations proposals to mitigate any adverse impact arising from the proposed development.

In view of the above, the Board is hereby respectfully requested to approve the subject application for 'Proposed Temporary Shop and Services for a Period of 5 Years'.

The existing road and pedestrian passageway are not wide enough for any increased pedestrian flow.

The proposed use will create lots of additional pedestrian and vehicle traffic to the adjoining area which is not capable to cater for any increase of pedestrian flow.

There is no existing public sewage drain and the proposed shop and services may cause illegal discharge of foul water into the nearby storm water river channel.

Advisory Clauses

- (a) note DLO/YL, LandsD's comments that Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contain the restriction that no structures are allowed to be erected without the prior approval of the Government. The lot owner(s) will need to apply to his office to permit the structure(s) to be erected or regularize any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by LandsD acting in the capacity as the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by the LandsD;
- (b) note CHE/NTW, HyD's comments that the maintenance of any access connecting to the Site and Pat Heung Road is not responsible by his department. Adequate drainage measures should be provided to prevent surface water running from the Site to nearby public roads and drains;
- (c) follow the relevant mitigation measures and requirements in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" issued by the Environmental Protection Department to minimize any potential environmental nuisances;
- (d) note CE/MN of DSD's comments that the applicant is reminded to provide his own drainage facilities to collect the runoff generated from the Site or passing through the Site. The development should not obstruct overland flow or cause any adverse drainage impact to the adjacent areas and existing drainage facilities. The applicant is also reminded that to consult DLO/YL and seek consent from the relevant owners for any works to be carried out outside his lot boundary before commencement of the drainage works.
- (e) note D of FS's comments that in consideration of the design/nature of the proposal, FSIs are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSIs to be installed should be clearly marked on the layout plans. The applicant is reminded that if the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and
- (f) note CBS/NTW, BD's comments that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the BA, they are UBW under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works on UBW on the Site under the BO. Before

any new building works (including containers/ open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulation 5 and 41D of the B(P)Rs respectively. The Site does not abut on a specified street of not less than 4.5m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)Rs at building plan submission stage. If the proposed use under application is subject to issue of a license, the applicant should be reminded that any existing structures on the Site intended to be used for such purposes are required to comply with the building safety and other relevant requirements as may be imposed by the licensing authority.
