Application for Open Storage and Port Back-up Uses
(TPB PG-No. 13G)

1. On 14.4.2023, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13G) were promulgated, which set out the following criteria for the various categories of area:
 - (a) Category 1 areas: favourable consideration will normally be given to applications within these areas, subject to no major adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments should be submitted if the proposed uses may cause significant environmental and traffic concerns;
 - (b) Category 2 areas: planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments, where appropriate or if required, should be submitted to demonstrate that the proposed uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas;
 - (c) Category 3 areas: applications would normally not be favourably considered unless the applications are on sites with previous planning approvals (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant). Sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and/or relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. Planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions; and
 - (d) Category 4 areas: applications would normally be rejected except under exceptional circumstances. For applications on sites with previous planning approvals (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant), and subject to no adverse departmental comments and local objections, sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and/or relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. The intention is however to encourage the phasing out of such non-conforming uses as early as possible. Planning permission for a maximum period of 3 years may be allowed for an applicant to identify suitable sites for relocation. Application for renewal of approval will be assessed on its individual merits.

2. In assessing applications for open storage and port back-up uses, the other major relevant assessment criteria are also summarised as follows:
 - (a) port back-up sites and those types of open storage uses generating adverse noise, air pollution, visual intrusion and frequent heavy vehicle traffic should not be located adjacent to sensitive receivers such as residential dwellings, hospitals, schools and other community facilities;
 - (b) port back-up uses are major generators of traffic, with container trailer/tractor parks generating the highest traffic per unit area. In general, port back-up sites should have good access to the strategic road network, or be accessed by means of purpose built roads;
 - (c) adequate screening of the sites through landscaping and/or fencing should be provided where sites are located adjacent to public roads or are visible from surrounding residential areas;
 - (d) there is a general presumption against conversion of active or good quality agricultural land and fish ponds to other uses on an ad-hoc basis. For flood prone areas or sites which would obstruct natural drainage channels and overland flow, advice should be sought; and
 - (e) for applications involving sites with previous planning approvals, should there be no evidence to demonstrate that the applicants have made any genuine effort to comply with the approval conditions of the previous planning applications, planning permission may be refused, notwithstanding other criteria set out in the Guidelines are complied with.

Government Departments' General Comments

1. Land Administration

Comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD):

- (a) The Site comprises Old Schedule Agriculture Lots (OSALs) and Government Land (GL). The OSALs are held under Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government.
- (b) The portion of GL (about 48m² subject to verification) at the Site is covered by a Short Term Tenancy (STT) No. 2619 for the purpose of "Temporary Open Storage of Construction Materials". No permission is given for occupation of the remaining GL (about 2m² subject to verification) included in the Site. The act of occupation of GL without Government's prior approval is not allowed.
- (c) The private lots in the Site are covered by Short Term Waivers (STWs) as listed below:

Lot No.	STW No.	Purposes

2378 RP	3556	
	4319	Temporary Open Storage of Metal Ware, Construction Machinery and Materials, Brand-new Trailer with Ancillary Canteen and Trailer Park

- (d) Should planning approval be given to the subject planning application, the lot owner(s) shall apply to his office for STW(s) and/or STT(s) to permit the structure(s) erected or to be erected within the subject lots, if any and the occupation of the GL and apply for modification of STT/STW conditions where appropriate. If such application(s) is approved, it will be subject to such terms and conditions, including the payment of waiver fee and administrative fee as considered appropriate by the LandsD. Besides, given the proposed use is temporary in nature, only application erection of temporary structure(s) will be considered.

- (c) The applicant should note his advisory comments at **Appendix V**.

3. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) He has no objection in principle to the application from drainage point of view.

- (c) The applicant should note his advisory comments at **Appendix V**.

4. **Fire Safety**

Comments of the Director of Fire Services (D of FS):

 - (iv) for UBW erected on leased land, enforcement action may be taken by BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - (v) any temporary shelters or converted containers for office, storage, washroom or other uses are considered as temporary buildings and are subject to the control of Part VII of the B(P)R; and

Temporary Open Storage of Sand, Bricks and Gravel for a Period of 3 Years
at
Lots 2189 RP, 2378 RP (Part) and Adjoining Government Land in D.D.129, Lau Fau Shan, Yuen Long, N.T.

Annex 1. Estimated Traffic Impact

- 1.1 The proposed development is not a development on green site. It is subject to six previous planning permissions since 2006. The vehicular access point of the application site is abutting Lau Fau Shan Road.
- 1.2 Having mentioned that the application site is intended for open storage of sand, bricks and gravel only, traffic generated by the proposed development is actually insignificant.
- 1.3 Due to the size of the site, light goods vehicle is adequate to transport the sand, bricks and gravel to/from the application site. No medium and heavy goods vehicle and container trailer are allowed to enter/park at the application site.
- 1.4 The estimated average traffic generation and traffic generation rate at peak hours are as follow:

	<u>Average</u> Traffic Generation Rate (pcu/hr)	<u>Average</u> Traffic Attraction Rate (pcu/hr)	Traffic Generation Rate at <u>Peak Hours</u> (pcu/hr)	Traffic Attraction Rate at <u>Peak Hours</u> (pcu/hr)
Light goods vehicle	0.33	0.33	1.5	1.5

Note 1: The opening hour of the proposed development is restricted to 9:00 a.m. to 6:00 p.m. from Mondays and Saturdays. No operation will be held on Sundays and public holidays;

Note 2: The pcu of light goods vehicle is assumed as 1.5; &

Note 3: Morning peak is defined as 7:00a.m. to 9:00a.m. whereas afternoon peak is defined as 5:00p.m. to 7:00p.m.

- 1.5 In association with the proposed open storage purpose, adequate space for manoeuvring and loading/unloading of sand, bricks and gravel would be provided. By virtue of the fact that the application site subjects to 6 previous planning permissions since 2006 and the application site is directly linked with Yuen Long Highway via Tin Wah Road and Tin Ying Road, the open storage being applied would not aggravate the traffic condition of Lau Fau Shan area.
