Relevant Extracts of the Town Planning Board Guidelines for
Application for Developments within Deep Bay Area under Section 16 of the Town
Planning Ordinance
(TPB PG-No. 12C)

Wetland Buffer Area (WBA)

- (a) The intention of the WBA is to protect the ecological integrity of the fish ponds and wetland within the Wetland Conservation Area (WCA) and prevent development that would have a negative off-site disturbance impact on the ecological value of fish ponds.
- (b) Within the WBA, for development or redevelopment which requires planning permission, an ecological impact assessment (EcoIA) would need to be submitted. Some local and minor uses (including temporary uses) are exempted from the requirement of EcoIA.
- (c) Applications for new open storage or port back-up uses within the WBA, whether temporary or permanent, would normally not be allowed in view of the adverse disturbances of such activities on birds, in particular for those uses involving filling of contiguous ponds. However, open storage or container back-up uses located close to the Lok Ma Chau crossing and without involving pond filling might be sympathetically considered by the Board in view of the genuine need to facilitate cross-boundary movements of goods in the area.
