7. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

The applicant seeks to use Lot 115 in D.D. 108, Fan Kam Road, Pat Heung, Yuen Long, New Territories (the Site) for 'Proposed Temporary Storage of Vehicles and Auto Parts with Ancillary Vehicle Repair Workshop for a Period of 3 Years' (**Plan P01**). The applicant would like to use the site to store vehicle and auto part for its use.

The Site falls within an area zoned as "Residential (Group D)" ("R(D)") on the Approved Pat Heung Outline Zoning Plan: S/YL-PH/11 (**Plan P02**). According to the Notes of the OZP, 'storage of vehicle and auto parts' is not a column 1 nor 2 use within the "R(D)" zone, which requires permission from the Board. Since the application is only on a temporary basis, it will not jeopardize the long term planning intention of the "R(D)" zone.

The Site occupied an area of 1,733 sq.m (about) of private land (**Plan P03**). Two structures are provided at the Site for storage of vehicle, storage of auto parts, ancillary vehicle repair workshop and site office with total GFA of 801 sq.m (about) (**Plan P04**).

The operation hours of the proposed development are 9:00 to 18:00 daily from Monday to Saturday (no operation on Sunday and public holidays). The estimated number of staff working at the Site is 10. No visitor is allowed at the Site.

The Site is accessible from Fan Kam Road via a local access (**Plan P01**). Three private car parking and one L/UL spaces for LGV are provided use of staff only. Sufficient maneuvering space is provided within the Site to ensure no queuing, turning back outside the Site and onto public road. No medium or heavy goods vehicles, including container tractor/trailer are prohibited to parked/stored at the Site.

The applicant will strictly follow the 'Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites' issued by Environmental Protection Department to minimise adverse environmental impacts and nuisance to the surrounding area. The applicant will strictly follow the Professional Persons Environmental Consultative Committee Practice Notes for sewerage treatment at the Site.

The proposed development will not create significant adverse traffic, environmental, landscape and drainage impacts to the surrounding areas. Adequate mitigation measures will be provided after planning approval has been granted from the Board, i.e. submission of drainage and fire service installations proposals to mitigate any adverse impact arising from the proposed development.

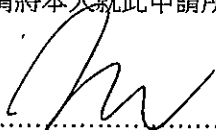

In view of the above, the Board is hereby respectfully requested to approve the subject application for 'Proposed Temporary Storage of Vehicles and Auto Parts with Ancillary Vehicle Repair Workshop for a Period of 3 Years'.

8. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.

Responses-to-Comments

Proposed Temporary Storage of Vehicles and Auto Parts with Ancillary Vehicle Repair Workshop for a Period of 3 Years in
"Residential (Group D)" Zone, Lot 115 in D.D. 108, Fan Kam Road, Pat Heung, Yuen Long, New Territories

(Application No. A/YL-PH/890)

(i) A RtoC Table:

Departmental Comments		Applicant's Responses
1. Comments of Commissioner for Transport (C for T) (Contact Person: Mr. Wilson LEE; Tel: 2399 2421)		
(a)	The applicant should justify the proposed parking and loading / unloading considering the commute of staff / visitors and logistics;	A total of 20 vehicles will be stored at the Site, they will be driven to the Site with trade license by staff. Therefore, towing of vehicle is not required. Please be confirmed that no visitor will access the Site. The estimated number of staff working at the Site is 10. While 3 private car parking spaces are provided for staff, majority of staff is required to make good use of public transport services at Fan Kam Road then walk to the Site (Annex I and Plan 1). 5.5 tonnes lorry will be deployed for transportation of vehicle parts to be stored at the Site, hence, one loading/unloading (L/UL) space for light goods vehicle (LGV) is provided at the Site. In view of the above, the parking and L/UL provision of Site is considered <u>adequate</u> for the Site operation.
(b)	The applicant should provide the trip generation and attraction due to the development and assess the traffic impact to Kam Tin Road and the local access;	Estimated vehicular trips generated by the proposed development is provided for your consideration (Annex II). As extra traffic induced by the proposed development is minimal, adverse traffic impact to Kam Tin Road and the local access should not be anticipated.

(c)	The applicant should demonstrate the smooth manoeuvring of vehicles to / from Fan Kam Road, along the local access and within the site;	Sufficient space is provided for vehicle to smoothly manoeuvre to / from the Fan Kam Road, along the local access and within the Site (Annex III and Plan 2).
(d)	With the proposed transitional housing for adjacent lot, the applicant should clarify the site ingress / egress arrangement with the project; and	The Site is accessible from Fan Kam Road via local access (Plan 3). The applicant will access the Site on the basis that it will not affect the adjacent approved transitional housing development.
(e)	The applicant should provide nearest public transport services and indicate on the layout plan.	Plan showing the nearest public transport services is provided for your consideration (Plan 1).
2. Comments of District Planning Officer/Fanling, Sheung Shui and Yuen Long East, Planning Department (DPO/FSYLE, PlanD) (Contact Person: Mr. Todd WAN; Tel: 3168 4051)		
(a)	Please clarify whether there are any vehicles over 5.5 tonnes involved in the proposed development	Medium and heavy goods vehicles exceeding 5.5 tonnes, including container tractor/trailer will be prohibited to enter/exit the Site at any time during the planning approval period.
(b)	Please clarify whether the structures involved are enclosed or not, and whether there are any mitigation measures for the proposed development (e.g. for the workshop uses involved).	Please be confirmed that structures B1 and B2 are enclosed structures. 2.5m high solid metal wall will be erected along the site boundary by the applicant to minimise noise nuisance to the surroundings. The boundary wall will be installed properly by licensed contractor to prevent misalignment of walls, to ensure that there is no gap or slit on boundary wall. The applicant will also strictly follow the 'Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites' issued by EPD to minimise adverse environmental impacts to the surrounding area.

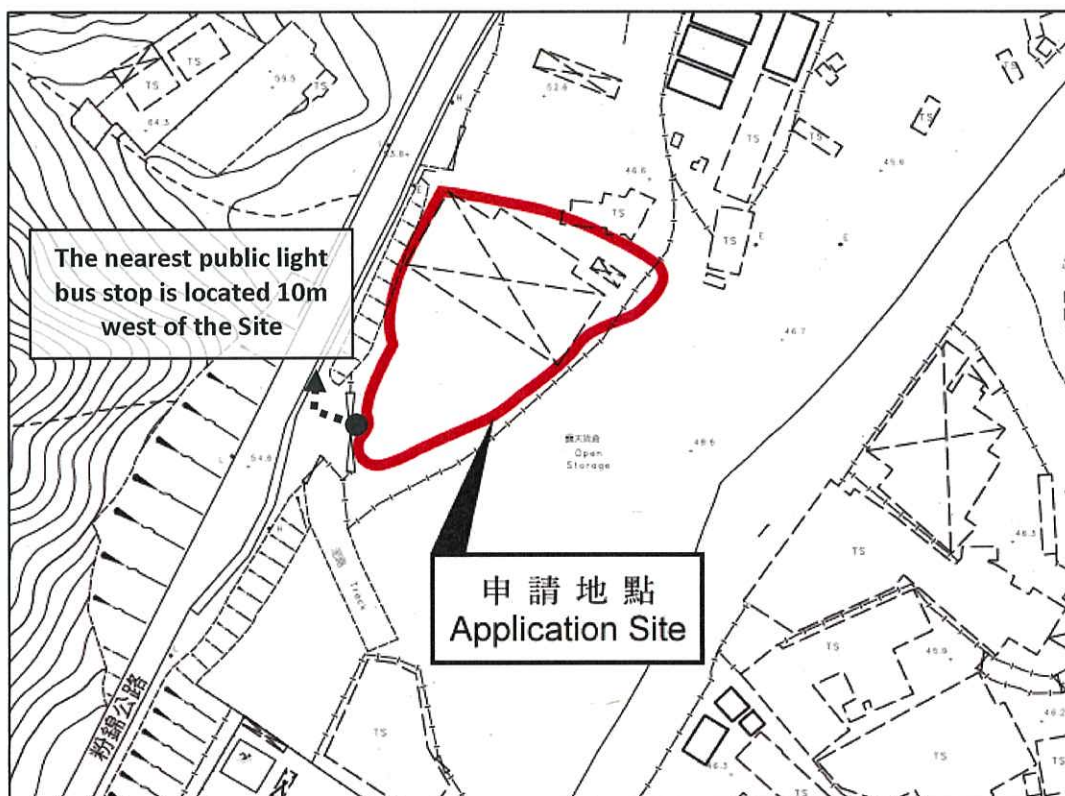

Public Transport Services

Dear TPB Members,

Although the last recorded approval was in 2003, the operation or similar has continued.

So no oversight with regard to the condition of the site and the safety of the operations?

PlanD should provide a description of activity on the site for the past 20 years.

Mary Mulvihill

Advisory Clauses

- (a) prior planning permission should have been obtained before commencing the applied use at the Site;
- (b) the planning permission is given to the proposed development / use under application. It does not condone any other development / use which currently occurs on the Site but is not covered by the application. The applicant shall take immediate action to discontinue such development / use not covered by the permission;
- (c) note DLO/YL, LandsD's comments that the lot owner(s) will need to apply to his office to permit the structure(s) to be erected or regularize any irregularities on Site, if any. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by LandsD acting in the capacity as the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by LandsD;
- (d) note C for T's comments that the Site is connected to the public road network via a section of a local access road which is not managed by Transport Department. The land status of the local access road should be checked with the LandsD. Moreover, the management and maintenance responsibilities of the local access road should be clarified with the relevant lands and maintenance authorities accordingly;
- (e) note CHE/NTW, HyD's comments that HyD shall not be responsible for the maintenance of any access connecting the Site and Fan Kam Road. Adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public roads and drains;
- (f) note DEP's comments that the applicant is advised (i) to follow the relevant mitigation measures and requirements in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" issued by DEP; (ii) to provide adequate supporting infrastructure / facilities for proper collection, treatment and disposal of waste / wastewater generated from the proposed use. If septic tank and soakaway system will be used in case of unavailability of public sewer, its design and construction shall follow the requirements of EPD's Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" including percolation test; and (iii) that it is the obligation of the applicant to meet the statutory requirements under relevant pollution control ordinances;
- (g) note DAFC's comments of the need to avoid disturbance to the vegetation in the vicinity of the Site;

- (h) note D of FS's comments that in consideration of the design/nature of the proposal, FSIs are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSI to be installed should be clearly marked on the layout plans. The applicant is reminded that if the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans;
- (i) note CE/MN of DSD's comment that there is no public sewer connection available in the vicinity. The applicant shall seek views and comments from the DEP regarding the sewage disposal arrangement of the proposed development; and
- (j) note CBS/NTW, BD's comment that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the BA, they are UBW under the BO and should not be designated for any proposed use under this application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/ open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. The Site does not abut on a specified street of not less than 4.5m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage. Any temporary shelters or converted containers for office, storage, washroom or other uses are considered as temporary buildings are subject to the control of Part VII of the B(P)R. Detailed checking under the BO will be carried out at building plan submission stage.
