**Extract of Town Planning Board Guidelines
on Renewal of Planning Approval
and Extension of Time for Compliance
with Planning Conditions for Temporary Use or Development**

(TPB PG-No. 34C)

1. The criteria for assessing applications for renewal of planning approval include:
 - (a) whether there has been any material change in planning circumstances since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
 - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
 - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;
 - (d) whether the approval period sought is reasonable; and
 - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request. may be shorter than the time under request.

Advisory clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (the Site);
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that the Site comprises an Old Schedule Agricultural Lots and Government Land (GL). The Old Schedule Agricultural Lots are held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. The private land of lot no. 81 in D.D. 135 is covered by Short Term Waiver (STW) No. 3673 to permit structures for the purpose of temporary place of recreation, sports or culture (fishing ground). No permission is given for occupation of the GL included in the Site (about 100m² subject to verification). The act of occupation of GL without Government's prior approval is not allowed. The STW holders will need to apply to his office for modification of the STW conditions where appropriate and the lot owner(s) of the lot without STW will need to apply to his office for permitting the structures to be erected or to regularize any irregularities on site, if any. The applicant has to either exclude the GL from the Site or apply for a formal approval prior to the actual occupation of the GL. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. Application(s) for any of the above will be considered by LandsD acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by LandsD;
- (c) to note the comments of the Commissioner for Transport that the applicant shall remind visitors to arrive the Site by using public transport services;
- (d) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD) that adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to nearby public roads/drains. HyD shall not be responsible for the maintenance of any access connecting the Site and Nim Wan Road;
- (e) to note the comments of the Director of Agriculture, Fisheries and Conservation (DAFC) that the applicant should adopt appropriate measures to prevent any disturbance or environmental hygiene problems that may affect the nearby fish ponds and fish culture activities during the operation of the fishing ground;
- (f) to note the comments of the Director of Environmental Protection (DEP) that the applicant is advised to follow the relevant mitigation measures and requirements in the latest "Code of Practice (COP) on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites";
- (g) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that the objects and trolleys stacked in the planting area should be removed. The applicant is reminded that there should be no storage of any material within the planting area. Ropes and ties attached to the trees should be removed. The applicant is advised that the approval of the landscape proposal under planning application does not imply approval of tree works such as pruning, transplanting and felling under lease. Tree works applications should be submitted direct to DLO/YL, LandsD for approval;
- (h) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that if the existing structures (not being a New Territories

Exempted House) are erected on leased land without the approval of the BD, they are unauthorised building works (UBW) under the Buildings Ordinance (BO) and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new Building works (including containers/open sheds as temporary buildings) are to be carried out on the leased land of the Site, prior approval and consent of the BD should be obtained, otherwise they are UBW. An Authorised Person (AP) should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage;

- (i) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the applicant is reminded that the required condition record should include coloured photos showing the current condition of the drainage facilities and a layout plan indicating the locations of the photos taken. The submitted photos should cover all internal surface channels, catch pits, and traps, manholes, terminal catch pits / manholes and the downstream discharge path as indicated on the submitted drainage proposal;
- (j) to note the comments of the Director of Fire Services (D of FS) that in consideration of the design/nature of the proposal, fire services installations (FSIs) are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. In addition, the applicant should be advised that the layout plans should be drawn to scale and depicted with dimensions and nature of occupancy and the location of the proposed FSIs to be installed should be clearly marked on the layout plans. The applicant is also reminded that if the proposed structure(s) is required to comply with the BO, detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and
- (k) to note the comments of the Director of Electrical and Mechanical Services (DEMS) that the applicant shall approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within or in the vicinity of the Site. Based on the cable plans and the relevant drawings obtained, if there is underground cable and/or overhead line within or in the vicinity of the application site, the applicant shall carry out the following measures:
 - (i) For the Site within the preferred working corridor of high voltage overhead lines at transmission voltage level 132kV or above as stipulated in the Hong Kong Planning Standards and Guidelines (HKPSG) published by PlanD, prior consultation and arrangement with CLP Power is necessary;
 - (ii) Prior to establishing any structure within the Site, the applicant and/or his contractors shall liaise with the electricity supplier and, if necessary, ask CLP Power to divert the underground cable and/or overhead line away from the vicinity of the proposed structure; and
 - (iii) The Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation shall be

observed by the applicant when carrying out works in the vicinity of the electricity supply lines.
