**Extract of Town Planning Board Guidelines  
on Renewal of Planning Approval  
and Extension of Time for Compliance  
with Planning Conditions for Temporary Use or Development  
(TPB PG-No. 34D)**

1. The criteria for assessing applications for renewal of planning approval include:
  - (a) whether there has been any material change in planning circumstances since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
  - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
  - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;
  - (d) whether the approval period sought is reasonable; and
  - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

The owner(s) of lot without STW shall apply to his office for STW to permit the structure(s) to be erected or erected within the private lots, if any. The applicant has to either exclude GL from the Site or immediately apply for a formal approval prior to the actual occupation of GL. The application(s) for STW/Short Term Tenancy will be considered by the Government in its capacity as a landlord and there is no guarantee that they will be approved. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of the proposed FSIs to be installed should be clearly marked on the layout plans. If the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans;

The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under BO;
  - (iii) before any new building works (including containers/open sheds as temporary buildings and land filling) are to be carried out on the Site, prior approval and consent of BD should be obtained, otherwise they are UBW.
