The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
 現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明）。

本公司有成熟客戶，有立陶宛、波蘭、巴基斯坦的客戶到我司購買報廢車輛。需要場地短暫擺放，已達到不影響交通及環境的臨時停放場。也藉此回收廢鐵，減少堆積大量廢物往堆填區處理。

8. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in an application to the Board and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.
本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

To whom it may concern,

Re: A/YL-SK/311 Departmental Responses in summary as requested:

1. As the neighboring lot (i.e. Lot 1285RP in D.D. 114) currently shares the same access point with Lot 1286RP, please clarify whether Lot 1285RP forms part of the Site, and whether it will be physically separated from the Site (e.g. through fencing, walls) under the proposed scheme.

A: It will be shared with the same access point as I am also the user of 1285RP which has got the permission to use the area.

2. Please clarify the vehicular and pedestrian access to Lot 1297 both from Lot 1286RP and Kam Sheung Road.

A: The access to lot 1297 is the same access with lot 1286RP and 1285RP, currently shared with the same exit/enter entrance.

3. Please advise on the mitigation measures of the proposed workshop activities on the surrounding residential dwellings.

A: There is not much dwellings for the proposed workshop activities, it's mainly taking parts out from the total lost cars. All noisy work will only be carried out during office hours between 9-6pm and done inside a fencing area.

4. Please clarify the use(s) of the uncovered area at Lot 1286 RP (Part) in D.D.114

A: The uncovered area at lot 1286 RP (part) will be used to kept / parked some of the total loss cars which required to take into pieces and remove some of the spare parts before it's total crash as trash.

5. Please provide more details on the proposed temporary structures A & B (e.g. material used, whether they are canopies or closed structures, etc.)

A: It will just be a canopies structure with 6 support at 4 corners and in the middle for a flat steel platform with a 20ft container at the top

6. Please confirm if Lot 1297 in D.D.114 will only be used for car parking. If not, please provide more details on the use(s) involved, e.g. open storage, etc.

A: It will just be a parking space for private cars only.

7. As Lot 1297 is physically separated from Lot 1286RP by private lots, please clarify whether the applicant has the right of way to access Lot 1297 from Lot 1286RP through the private lots

A: We like to confirm our access to Lot 1297 from Lot 1286RP through the private lots was agreed with the land owner and is aware of it is related to this application.

In response to TD

a. There will be less than 7 cars parked at one time in the proposed parking lot in 1286RP, and it's mainly parked for a short period of time for trashing it down and it's not a space for public parking. Loading / unloading of the total loss cars will only happen once a week or two weeks as work are required to be done before it can be taken away due to limited space and resources.

b. There will not be a major traffic impact on Kam Sheung Road with the minimal activities. For trip generation, we anticipate weekly 2-3 trips in/out to the site with one total loss car per trip. This will mainly be in the hours between 12noon to 4pm.

This is what we can take up in the site with our current resources.

c. With our past experience and similar activities on the site at 1285RP, we can ensure there will not be an impact to the traffic on Kam Sheung Road or within the site.

d. Yes, we will mark the nearest public transport on the layout plan for reference.

In response to EPD

1. What repair works will be carried out in the application site?

A: We are mainly collecting the total loss cars (electrical) and breaking them into parts for proper disposal, no major repair works will be carried out except maybe replacing batteries and seats if it is still in good condition for any interested parties.

2. What is the frequency and duration of the repair works (if any)?

A: The repair works will fairly depend on interested clients to get spare parts for replacement, and it will be done during the operating hours between 9am to 6pm weekdays if any.

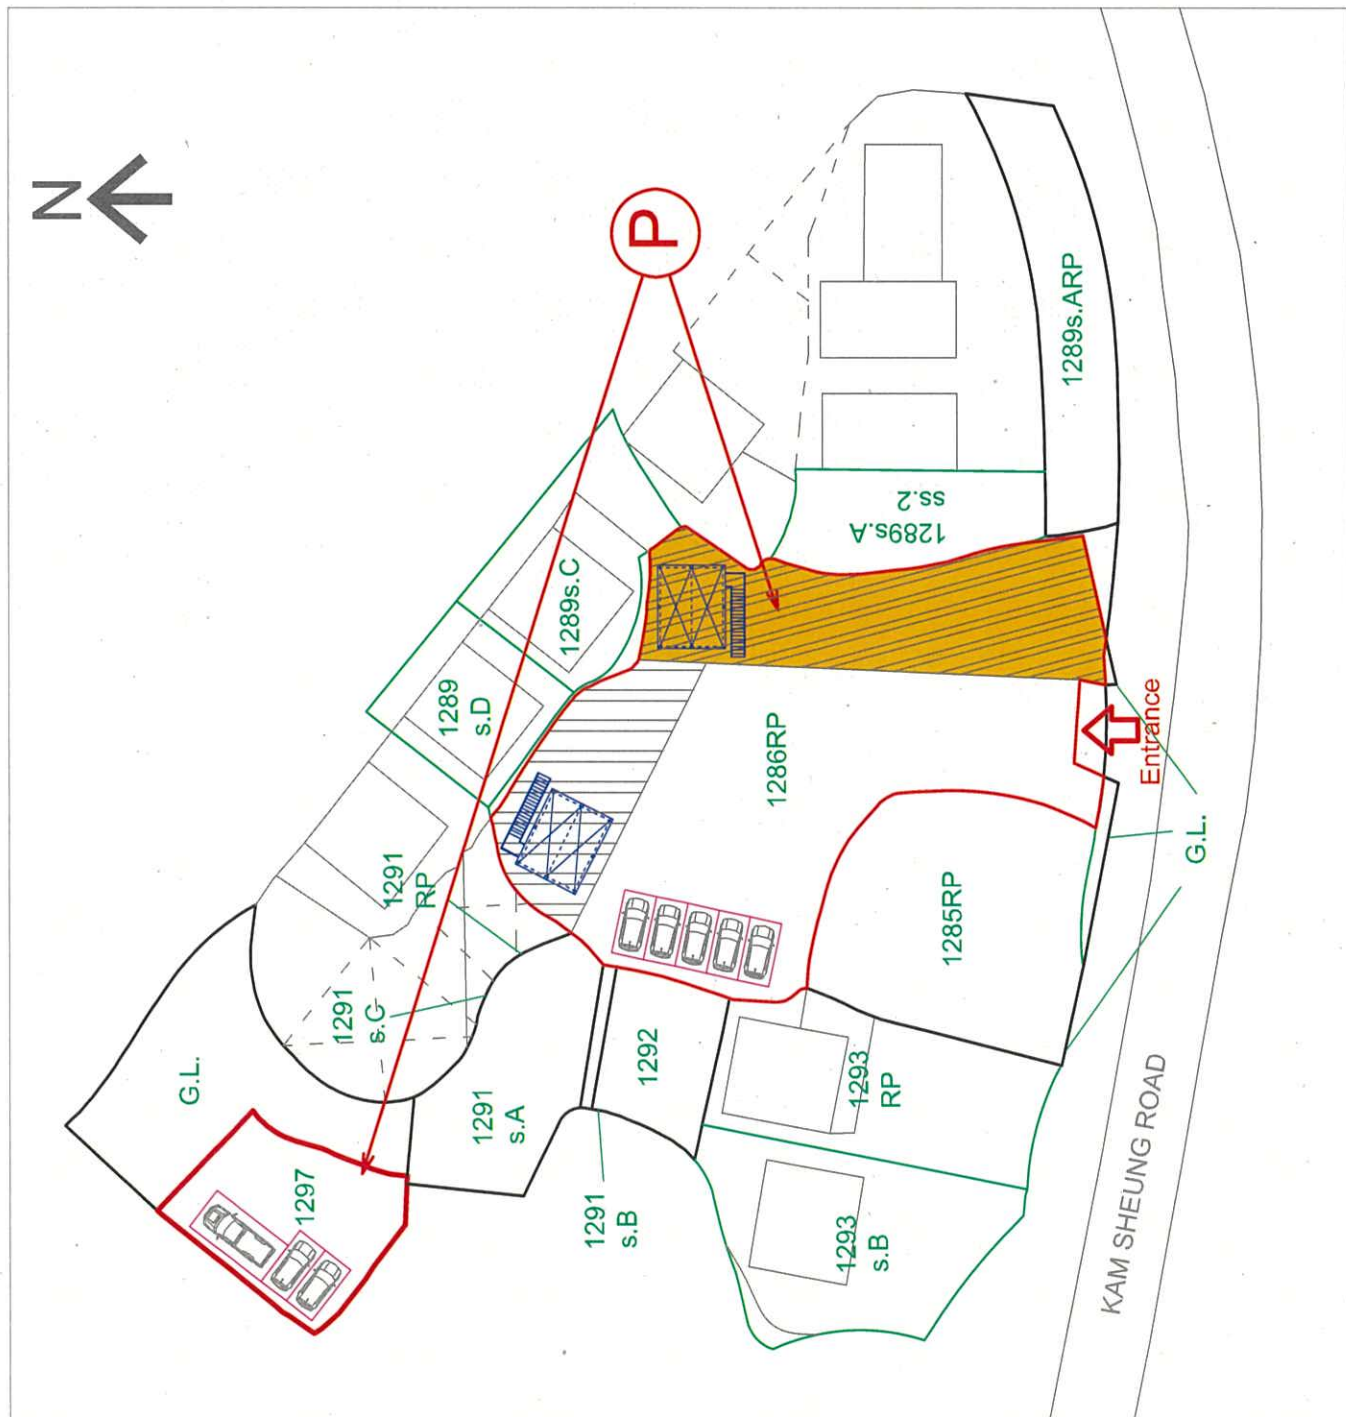

3. If there is any paint spraying and other process, which may cause odour nuisance?

A: There will not be any paint spraying or bleaching and we don't see any works that we are carrying out will cause odour nuisance.

4. If there is any measure to control the noise & odour generated during repair works? (e.g. enclosed area and provision of movable noise barrier, etc.?)

A: We do not anticipate any major work is required to carry out on site, if there is any noisy works, it will be carried out in the back corner of the site with movable partitions. We will ensure pollution control and minimise negative impacts if any, use of non chemical spray, filter and exhaust the smell, also control of dust generation during any repair works.

Should there be further clarifications is required, please do not hesitate to contact us at anytime.
Thank you.

**Extract of the Town Planning Board Guidelines for
Application for Open Storage and Port Back-up Uses**
(TPB PG-No. 13F)

1. On 27.3.2020, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13F) were promulgated, which set out the following criteria for the various categories of area:
 - (a) Category 1 areas: favourable consideration will normally be given to applications within these areas, subject to no major adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments should be submitted if the proposed uses may cause significant environmental and traffic concerns;
 - (b) Category 2 areas: planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments, where appropriate, should be submitted to demonstrate that the proposed uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas;
 - (c) Category 3 areas: applications would normally not be favourably considered unless the applications are on sites with previous planning approvals. Sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. Planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions; and
 - (d) Category 4 areas: applications would normally be rejected except under exceptional circumstances. For applications on sites with previous planning approvals, and subject to no adverse departmental comments and local objections, sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and included in the applications relevant technical assessments/proposals to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. The intention is however to encourage the phasing out of such non-conforming uses as early as possible. A maximum period of 2 years may be allowed upon renewal of planning permission for an applicant to identify suitable sites for relocation. No further renewal of approval will be given unless under very exceptional circumstances and each application for renewal of approval will be assessed on its individual merits.

2. In assessing applications for open storage and port back-up uses, the major relevant assessment criteria are also summarized as follows:

- (a) the use of sites of less than 2,000m² each for port back-up uses, and below 1,000m² each for open storage uses in rural areas, is generally not encouraged, other than sites located in major road corridors, industrial/godown/workshop areas, quarrying activities or where it is demonstrated that optimum use is made of the site. This is to prevent the further proliferation of small sites in rural areas and concentrate activities within appropriate surroundings, thus minimising sprawl over countryside areas and reducing travel trips;
- (b) port back-up sites and those types of open storage generating adverse noise, air pollution and visual intrusion and frequent heavy vehicle traffic should not be located adjacent to sensitive receivers such as residential dwellings, hospitals, schools and other community facilities;
- (c) port back-up uses are major generators of traffic, with container trailer/tractor parks generating the highest traffic per unit area. In general, therefore, port back-up sites should have good access to the strategic road network, or be accessed by means of purpose built roads;
- (d) adequate screening of sites through landscaping and/or fencing should be provided at the periphery of the site within the boundary, especially where sites are located adjacent to public roads or are visible from surrounding residential areas;
- (e) there is a general presumption against conversion of agricultural land and fish ponds to other uses on an ad-hoc basis in rural areas, particularly in flood prone areas (i.e. in flood plains) or sites which would obstruct natural drainage channels and overland flow; and
- (f) for applications involving sites with previous planning approvals, should there be no evidence to demonstrate that the applicants have made any genuine effort to comply with the approval conditions of the previous planning applications, the Board may refuse to grant permission, or impose a shorter compliance period for the approval conditions, notwithstanding other criteria set out in this Guidelines are complied with.

Zoning : "VTD"

Applied Use :Storage of Scrapped Vehicles / 8 Vehicle Parking

Dear TPB Members,

So approval was revoked because it turns out that instead of the village parking as touted by PlanD it was actually intended to be a scrap yard.

This operation is certainly not compatible with V zoning as it presents a number of undesirable issues like poor hygiene, leaching of toxins into the ground, noise, etc.

The site owner could of course turn the larger area into a recreation ground for the community to enjoy.

Site area : About 1,111m²

Zoning : "VTD"

Applied Use :50 Vehicle Parking

Dear TPB Members,

This would appear to be an application to legitimize existing illegal brownfield activities.

The planning intention of the "Village Type Development" ("V") zone is to designate both existing recognised villages and areas of land considered suitable for village expansion. Land within this zone is primarily intended for development of Small Houses by indigenous villagers. The applied development is not in line with the planning intention of the "V" zone. No strong planning justification has been given in the submission for a departure from such planning intention, even on a temporary basis,

The applied development is not compatible with the surrounding land uses which are predominantly residential in nature.

The applicant fails to demonstrate that the development would not generate adverse environmental impact on the surrounding residences.

Parking facilities should be accommodated in high rise buildings, underground or in stacked facilities, see attached, the villagers own 2,100 sqft homes. If they want to keep a car then they should convert a portion of the ground floor of their spacious residences into a car port. This is common practice all over the world.

Approval of the application, even on a temporary basis, would set an undesirable precedent for similar uses. The cumulative impact of approving such applications would result in a general degradation of the environment of the area.

Mary Mulvihill

Advisory Clauses

- (a) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that:
 - (i) the Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government; and
 - (ii) the lot owner(s) will need to apply to his office to permit the structure(s) to be erected or regularise any irregularities on-site, if any. Besides, given the proposed use is temporary in nature, only application for regularisation or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by LandsD acting in the capacity as the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by LandsD.
- (b) to note the comments of the Commissioner of Transport (C for T) that the Site is connected to the public road network via a section of a local access road which is not managed by his department. The land status of the local access road should be checked with the LandsD. Moreover, the management and maintenance responsibilities of the local access road should be clarified with the relevant lands and maintenance authorities accordingly.
- (c) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD) that:
 - (i) HyD shall not be responsible for the maintenance of any access connecting the Site and Kam Sheung Road;
 - (ii) the applicant should provide the run-in/out at Kam Sheung Road in accordance with the latest version of Highways Standard Drawing No. H1113 and H1114, or H5133, H5134 and H5135, whichever set is appropriate to match with the existing adjacent pavement; and
 - (iii) adequate drainage measures should be provided to prevent surface water running from the Site to nearby public roads and drains.
- (d) to note the comments of the Director of Environmental Protection (DEP) that:
 - (i) the applicant is strongly advised to properly design and maintain the facilities to minimize any potential environmental nuisance, e.g. all car repair or breaking activities should be conducted in an indoor workshop with proper soundproofing materials, etc.; and

- (ii) the applicant is also reminded to observe/note the requirement stipulated in "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Site"; the requirements stipulated in ProPECC PN5/93 with regard to the soakaway and septic tank system, if connection to public sewers is not feasible; and it is the obligation of the applicant to meet the statutory requirements under relevant pollution control ordinances.
- (e) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
- (i) as there is no record of approval granted by the Building Authority (BA) for the existing structures at the Site, he is not in a position to offer comments on their suitability for the use proposed in the application;
 - (ii) if the existing structures (not being a New Territories Exempted House) are erected on leased land without approval of the BA, they are unauthorized building works (UBW) under the Buildings Ordinance (BO) and should not be designated for any proposed use under the application;
 - (iii) for UBW erected on leased land, enforcement action may be taken by BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - (iv) before any new building works (including containers/open sheds as temporary buildings, demolition, land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the coordinator for the proposed building works in accordance with the BO;
 - (v) the two Sites shall be considered as two separate sites and provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively;
 - (vi) the two Sites do not abut on a specified street of not less than 4.5m wide, and the permitted development intensity of each individual site shall be determined under Regulation 19(3) of the B(P)R at building plan submission stage;
 - (vii) any temporary shelters or converted containers for office, storage, washroom or other uses are considered as temporary buildings which are subject to the control of Part VII of the B(P)R; and
 - (viii) detailed checking under the BO will be carried out at the building plan submission stage.
- (f) to note the comments of the Director of Fire Services (D of FS) that:

- (i) in consideration of the design/nature of the proposal, fire service installations (FSIs) are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location where the proposed FSIs to be installed should be clearly marked on the layout plans; and
- (ii) the applicant is reminded that if the proposed structure(s) is required to comply with BO, detailed fire service requirements will be formulated upon receipt of formal submission of general building plans.
