Objection to building of warehouses in DD119 Lots 1750,1751 & 1845 and Lot 1758

To whom it may concern,

Objection to the two applications for building a temporary warehouse in DD119, one in Lots 1750,1751 & 1845 (Application No. A/YL-TT/629), the other in Lot 1758 (Application No. A/YL-TT/631)

We are writing to raise our objection to the applications for building the two temporary warehouses in the captioned locations.

First and foremost, building of a warehouse in traditional farmland involves filling up of fields so that the warehouse will not be threatened by flooding. However, the raised ground levels will shift the threat of flooding to the neighbouring low-lying land and houses since the farmland plays a vital role in trapping the rainwater in case the two village ditches are overloaded or clogged. As a matter of fact, our two village ditches are already overloaded so flooding has become an everyday occurrence during the downpour. According to our past experiences, the overflowing rainwater tends to flow westwards first to the ditch and continues to flow westwards flooding the houses along the way. If nothing is done to prevent the rainwater flowing westwards out of the site of the warehouses, flooding in Pak Sha Tsuen will become more serious.

Another cause for concern is the potential danger, the air and noise pollution that might be caused by the trucks getting to and away from the warehouses. Though the suggested warehouses will be closer to Tai Tong Tsuen, there is yet an up-to-standard driveway there for the trucks to use. Instead, the trucks of all sizes will tend to enter Pak Sha Tsuen near the 2nd footbridge of the village through the open gathering area (serving as a temporary car park if no gatherings are held) and a makeshift driveway on the farmland and drive quite a long way before arriving at their destinations. The speeding trucks and the giant trucks will certainly pose a safety hazard to the villagers and residents, especially the kids and the elderly. In addition to the dust stirred up by the trucks, the nerve-racking noise created by the passing trucks day and night certainly undermines our sleep quality and badly affects our health.

We have no bias against warehouses but the recommended locations are far from being ideal. We appreciate your understanding of our grave concerns and we expect you take our objection seriously.

Yours faithfully
