7. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
 現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

1. The applied use and the site layout at the application site has been updated so that a fresh planning application is submitted for the consideration of the Town Planning Board.
2. The application site subjects to a 5 previous planning permission since 2006. The latest applied use is only a static use which is open storage and warehouse use which is more complementary with surrounding environment.
3. The proposed development conforms to the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses (TPB PG-NO. 13F) because the site is subject to previous planning permission.
4. The proposed development is a temporary use for a period of 3 years which would not jeopardize the long term planning intention of the current zoning.
5. The proposed development is not incompatible with the surrounding environment including open storage use and port back-up activities.
6. Open storage & port back-up uses adjoining the application site were granted with planning permission such as A/YL-TYST/935, 1014 & 1093. Similar preferential treatment should be granted to the current application.
7. The applicant noted that there is residential dwellings to the west of the application site. As such, he has erected 6m high solid boundary wall along the western site boundary to block the sightline and noise. Also, a number of warehouses are proposed along the western site periphery to further block the noise. In view of that significant amount of activities will be carried out within enclosed structure, impact to the surrounding environment is deemed insignificant.
8. Minimal traffic impact.
9. The planning circumstance pertaining to the application site is similar to the recent approval of adjacent open storage yards and port back-up uses.
10. Insignificant environmental and noise impacts because the applied use is mainly housed within an enclosed structure and no operation will be held during sensitive hours.
11. Insignificant drainage impact because surface U-channel has been provided at the application site.
12. Shortage of land for port back-up purpose in Tong Yan San Tsuen.
13. The construction machinery and construction materials to be stored at the site includes excavator, electric generator, barricades, sanitary wares, pipes and alike.
14. Similar open storage yards such as A/YL-TYST/1093 has also been approved by Town Planning Board recently. In view of that the above-mentioned site is adjoining the application site, preferential consideration should be granted to the current application.

8. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in an application to the Board and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.
本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

Proposed Temporary Warehouse and Open Storage for Storage of Construction Machinery and Construction Materials for a Period of 3 Years

at

Lots 2704 S.A & S.B (Part), 2707, 2708, 2709, 2710, 2711 in D.D. 120, Lots 1638, 1639 (Part), 1640 (Part), 1671, 1672, 1673 (Part), 1674 (Part), 1676 S.A & B (Part), 1668 (Part), 1669 (Part) in D.D.121 and Adjoining Government Land, Shan Ha Tsuen, Yuen Long, N.T.

Annex 1 Estimated Traffic Generation

- 1.1 The application site is abutting and serviced by a vehicular access leading from Shan Ha Road (**Figure 2**). Having mentioned that the site is intended for mainly storage use which is static, traffic generated by the proposed development is extremely insignificant.
- 1.2 The estimated average traffic generation and traffic generation rate at peak hours are as follow:

Type of Vehicle	Average Traffic Generation Rate (pcu/hr)	Average Traffic Attraction Rate (pcu/hr)	Traffic Generation Rate at <u>Peak Hours</u> (pcu/hr)	Traffic Attraction Rate at <u>Peak Hours</u> (pcu/hr)
Private car	0.17	0.17	2	1
Medium goods vehicle	0.33	0.33	2	2
Total	0.5	0.5	4	3

Note 1: The opening hour of the proposed development is restricted to 7:00 a.m. to 7:00 p.m. from Mondays to Saturdays. No operation will be held on Sundays and public holidays.

Note 2: The pcu of private car and medium goods vehicle is taken as 1 and 2 respectively.

Note 3: Morning peak is defined as 7:00a.m. to 9:00a.m. whereas afternoon peak is defined as 5:00p.m. to 7:00p.m.

- 1.3 As shown in the above estimation, it is estimated that the proposed development would not generate significant amount of traffic. It would not affect the traffic condition of Shan Ha Road.
- 1.4 In association with the intended purpose, adequate space for manoeuvring of vehicle would be provided within the application site and queueing up of traffic would not be the result especially that the traffic generated is insignificant. The negligible increase in traffic would not aggravate the traffic condition of Shan Ha Road and nearby road networks.

This letter intends to supersede our letter dated 16.9.2021 which has wrongly quoted the application number. Our response to the comments of Transport Department is as follow:

Transport Department's comment	Response
(a) The applicant should supplement what kind of construction machinery and construction materials would be stored in the proposed development;	Noted. The construction machinery and construction materials to be stored at the site includes excavator, electric generator, barricades, sanitary wares, pipes, marble and alike.
(b) The applicant should clarify whether vehicles would get into/go out the development via Lam Tai West Road; and	No vehicle would get into/go out the development via Lam Tai West Road.
(c) Figure 2 provided in the application is unclear to show the routing. The applicant should provide a clear layout plan with present photos showing the routing.	Noted. Please refer to Figure 6 with photos. The applicant wishes to draw the attention of the Transport Department that the site adjoining the application site with planning permission No. A/YL-TYST/1093 also using the same route with MGV accessing the site. As such, the proposed routing would be adequate to allow MGV to access the site.

**Town Planning Board Guidelines for
Application for Open Storage and Port Back-up Uses
(TPB PG-No.13F)**

On 27.3.2020, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13F) were promulgated, which set out the following criteria for New Development Areas (NDAs):

- (a) The planning for various NDAs (including potential development areas) in the New Territories has been in progress and the land use proposals for some of these areas have been incorporated as appropriate into relevant statutory town plans. The NDAs will be implemented by phases. While it is envisaged that the existing open storage and port back-up uses in these areas will be gradually phased out, sympathetic consideration may be given to applications for continued operation of these uses during the interim period before the sites are required for NDA development.
- (b) For existing open storage and port back-up uses with previous planning approval(s) and/or permitted under the previous Outline Zoning Plans, sympathetic consideration may be given to the application (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant) until the concerned site is required for implementation of NDA development, provided that the relevant approval conditions, if any, have been complied with. Technical assessments, where appropriate, should be submitted to demonstrate that the continued operation of the current uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas and the concerns of the departments and local residents, if any, can be addressed through the implementation of the approval conditions.
- (c) In view of the impending implementation of NDAs, new open storage and port back-up uses are generally not encouraged to infiltrate into the NDAs. There is a general presumption against such uses at greenfield areas and/or at sites with land use compatibility issue, e.g. in close proximity to existing residential dwellings which may be subject to environmental nuisances caused by the open storage and port back-up uses. Applications will normally be rejected unless under exceptional circumstances.
- (d) Any approved temporary use and development should not jeopardize the long-term planned development on the respective site/the surrounding area under the NDA and the applicant should be advised that the site would be required by the government at any time during the planning approval period for implementation of government projects.

Rejected Application

	<u>Application No.</u>	<u>Proposed Use(s)</u>	<u>Date of Consideration (RNTPC)</u>	<u>Rejection Reason(s)</u>
1	A/YL-TYST/146	Temporary Storage of Building Materials for a Period of 3 Years	7.9.2001	(1), (2), (3)
2	A/YL-TYST/1058	Temporary Warehouse and Open Storage for Storage of Recyclable Materials (Plastic and Metal) with Ancillary Workshop for a Period of 3 Years	18.12.2020	(1), (4)

Rejection Reason(s):

- (1) Insufficient information in the submission to demonstrate that the development would not generate adverse environmental impact.
- (2) Insufficient information in the submission to demonstrate that the development would not generate adverse drainage impact and increase the flood susceptibility to the surrounding areas.
- (3) Insufficient information in the submission to indicate clearly the vehicular access arrangement.
- (4) The applied use is not in line with the planning intention of the "Residential (Group A) 3" zone. No strong planning justification has been given in the submission to justify a departure from the planning intention, even on a temporary basis.

反對，鄉郊設臨時貨倉及露天存放建築機械及建築材料必會增加附近車輛出入流量，引至附近交通阻塞、環境污染，增加引發火警危機，影響村民安全及生活質數。

Dear TPB Members,

There were many objections to this operation and 1058 was rejected.

While the stated use is for storage of construction materials, it would appear that this is just a play on words to allow the operation to continue.

As these lots are an integral part of a planned new community of a considerable size, any activity that can impact the environment and public safety should be avoided.

Dear TPB Members,

These lots previously zoned 'Undetermined' are part of the Tong Yan OZP
amendments currently undergoing consultation. Operating hour condition not
met.

Every effort should be made to encourage these brownfield operations to
relocate so that the planned public housing estates and supporting community
facilities can be realized ASAP.

Approval only prolongs the process and encourages procrastination on the
part of government departments.

基本上沒有意見，但此場所位處隱蔽，一般政府人員都是從山厦村進入，但卻沒有此捷徑直達此場。尤記起2017年九月曾發生嚴重大火，救援人員，包括消防，醫療及警務人員皆由山厦村入，卻沒有出入口到此場作最快救援，阻礙救援所需的重要時間；因此本人以村民的福祉為由，要求該經營者在其場內供電位置（電線杆位置）設一出入口（即介乎DD121 Lot1641與DD121Lot1637至1633間），平常時可關敝，若有救援時可打開，致少也可給予工人逃生，也可讓救援的工作人員進入。此乃重要一環，敬希加此一附帶條件，人命攸關。
及請加設以下條

Advisory clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (the Site);
- (b) the Site should be kept in a clean and tidy condition at all times;
- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department that the Site comprises Government Land (GL) and Old Scheduled Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without prior approval of the Government. Within the Site, Lots 2707 & 2708, 2709, 2711 in D.D. 120, Lots No. 1638, 1639, 1640, 1671, 1672, 1673, 1674, 1674 S.A & S.B in D.D. 121 and the associated GL are covered by Short Term Waivers (STWs) No. 4548 to 4553, 4556 to 4559, 4561 and Short Term Tenancy (STT) No. 2986 respectively permitting structure(s) erected thereon for the purpose of “Temporary Open Storage of Construction Machinery and Materials, Scrap Vehicles, Vehicle Parts, Mobile Toilets and Recyclable Materials (including Metal, Paper and Plastic Goods) with Ancillary Workshop”. Lot 2704 S.A & S.B in D.D 120 is covered by STW No. 4367 permitting structure(s) erected thereon for the purpose of “Temporary Open Storage of Construction Machinery, Construction Materials, Recyclable Materials (including Paper, Metal and Plastic) with Ancillary Workshop and Office”. The STW/STT holder(s) will need to apply to her office for modification of the STW/STT conditions where appropriate and the lot owner(s) of the lot(s) without STW will need to apply to her office to permit the structures to be erected or regularise any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularisation or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by her department acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by her department;
- (d) to note the comments of the Commissioner for Transport that the land status of the access road/path/track/run-in/out leading to the Site from Shan Ha Road/Lam Tai West Road shall be checked with the lands authority. The management and maintenance responsibilities of the access road/path/track should be clarified and consulted with the relevant management and maintenance authorities accordingly. Sufficient space should be provided within the Site for manoeuvring of vehicles. No parking, queuing and reverse movement of vehicles on public road is allowed;
- (e) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public roads and drains. His department shall not be responsible for the maintenance of any access connecting the Site and Shan Ha Road;
- (f) to note the comments of the Director of Environmental Protection that the relevant mitigation measures and requirements in the latest “Code of Practice on Handling the Environmental Aspect of Temporary Uses and Open Storage Use” should be followed to minimise any potential environmental nuisances on the surrounding area;

- (g) to note the comments of the Director of Fire Services that in consideration of the design/nature of the proposal, fire service installations (FSIs) are anticipated to be required. Relevant layout plans incorporated with the proposed FSIs should be submitted to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSIs to be installed should also be clearly marked on the layout plans. The good practice guidelines for open storage (**Appendix V** of this RNTPC Paper) should be adhered to. If the proposed structure(s) is required to comply with the Buildings Ordinance (BO)(Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building;
- (h) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the Building Authority (BA), they are unauthorised building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorised Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. The Site does not abut on a specified street of not less than 4.5m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage. Any temporary shelters or converted containers for office, storage, washroom or other uses considered as temporary buildings are subject to the control of Part VII of the B(P)R. Detailed checking under the BO will be carried out at building plan submission stage; and
- (i) to note the comments of the Project Manager (West), Civil Engineering and Development Department that the Site falls within the boundary of Yuen Long South (YLS) Development - Stage 2 Phase 2. The land resumption and clearance programme of the project is subject to Executive Council's authorisation on land resumption and Finance Committee's funding approval of the project. Land clearance operation is tentatively targeted to commence in 2024. Extension of the planning permission may not be supported in future. No substantial works shall be carried out in view of the planned YLS Development – Stage 2 Phase 2.
