**Annex 1 Estimated Traffic Generation**

- 1.1 The application site is abutting and serviced by Kung Um Road. Having mentioned that the site is intended for storage of machinery and spare parts with a development area of only 1,430m<sup>2</sup>, traffic generated by the proposed development is extremely insignificant.
- 1.2 The estimated average traffic generation and traffic generation rate at peak hours are as follow:

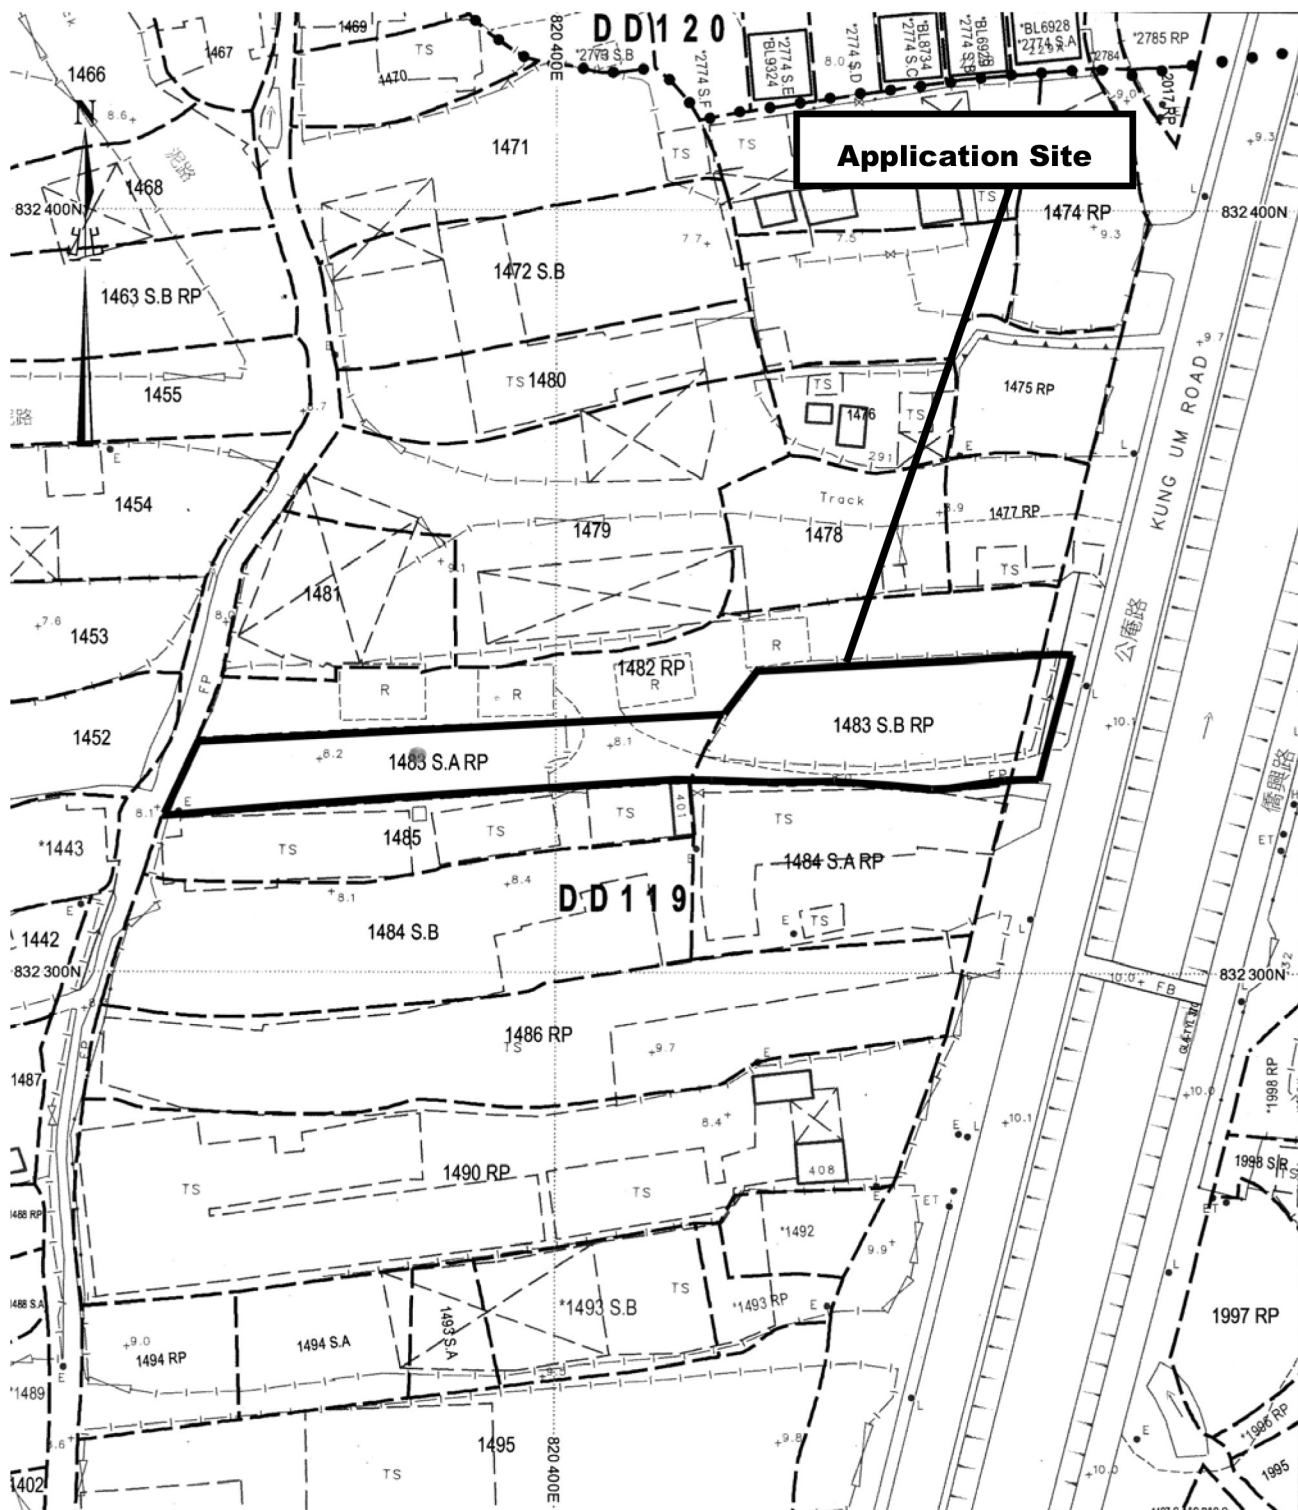

Type of Vehicle	Average Traffic Generation Rate (pcu/hr)	Average Traffic Attraction Rate (pcu/hr)	Traffic Generation Rate at <u>Peak Hours</u> (pcu/hr)	Traffic Attraction Rate at <u>Peak Hours</u> (pcu/hr)
Light goods vehicle	0.19	0.19	0	0

Note 1: The opening hour of the proposed development is restricted to 9:00 a.m. to 5:00 p.m. from Mondays to Saturdays. No operation will be held on Sundays and public holidays.

Note 2: The pcu of light goods vehicle is taken as 1.5.

Note 3: Morning peak is defined as 7:00a.m. to 9:00a.m. whereas afternoon peak is defined as 5:00p.m. to 7:00p.m.

- 1.3 As shown in the above estimation, it is estimated that the proposed development would not generate significant amount of traffic. It would not affect the traffic condition of Kung Um Road.
- 1.4 In association with the intended purpose, adequate space for manoeuvring of vehicle would be provided within the application site and queueing up of traffic would not be the result especially that the traffic generated is insignificant. The negligible increase in traffic would not aggravate the traffic condition of Kung Um Road and nearby road networks.

**Relevant extracts of the Town Planning Board Guidelines on  
“Renewal of Planning Approval and Extension of Time for Compliance with Planning  
Conditions for Temporary Use or Development”  
(TPB PG-No. 34D)**

1. The criteria for assessing applications for renewal of planning approval include:
  - (a) whether there has been any material change in planning circumstances since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
  - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
  - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;
  - (d) whether the approval period sought is reasonable; and
  - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

**Government Departments' General Comments**

**1. Land Administration**

Comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD):

No adverse comment on the application.

**2. Traffic**

(a) Comments of the Commissioner for Transport (C for T):

No adverse comment from traffic engineering perspective for the renewal application.

(b) Comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD):

No adverse comment on the application.

**3. Environment**

Comments of the Director of Environmental Protection (DEP):

- no adverse comment on the application; and
- no substantiated environmental complaint concerning the Site received in the past three years.

**4. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection in principle to the proposed development;
- based on the submission enclosed in the application, apparently the applicant would maintain the same drainage facilities as those implemented under previous planning application No. A/YL-TYST/1068; and
- should the Town Planning Board (the Board) consider that the application is acceptable from the planning point of view, approval conditions requiring the maintenance of the drainage facilities implemented under application No. A/YL-TYST/1068 and the submission of records of the existing drainage facilities on site to the satisfaction of the Director of Drainage Services or of the Board should be stipulated.

## **5. Fire Safety**

Comments of the Director of Fire Services (D of FS):

No objection in principle to the proposal subject to fire service installations being provided to his satisfaction.

## **6. Building Matters**

Comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD):

- no adverse comment on the application; and
- as there is no record of approval granted by the Building Authority for the existing structure at the Site, he is not in a position to offer comments on its suitability for the use proposed in the application.

## **7. Open Space**

Comments of the Director of Leisure and Cultural Services (DLCS):

- no in-principle objection to the proposal; and
- his department has no plan to develop the Site into public open space in upcoming three years.

## **8. Long-Term Development**

(a) Comments of the Chief Engineer/Cross-Boundary Infrastructure and Development, Planning Department (CE/CID, PlanD):

- the Civil Engineering and Development Department (CEDD) and PlanD jointly commissioned the “Planning and Engineering Study for Housing Sites in Yuen Long South (YLS) – Investigation”. According to the Revised Recommended Outline Development Plan of YLS promulgated in May 2020, the Site falls partly within an area zoned “Other Specified Uses (Electricity Substation)” and “District Open Space” and partly within an area shown as ‘Road’; and
- the objective of YLS development is to transform the degraded rural land predominantly occupied by brownfield operations including open storage yards, warehouse and rural industrial uses into housing and other uses with supporting infrastructure and community facilities, and to improve the existing environment. It is noted that the application is for temporary use for a period of three years.
