### Annex 1 Estimated Traffic Generation

- 1.1 The application site is accessible via a vehicular access leading from the tip of Shan Ha Road. The application site subject to seven previous planning permissions related to open storage activity since 2000. The current planning application is also intended for open storage use.
- 1.2 In association with the proposed development, adequate space for manoeuvring of vehicle would be provided as shown in **Figure 3**. The negligible increase in traffic would not aggravate the traffic condition of Shan Ha Road and nearby road networks.
- 1.3 Neither heavy goods vehicle exceeding 24 tonnes nor container trailer/tractor will access the site. The estimated average traffic generation and traffic generation rate at peak hours are as follow:

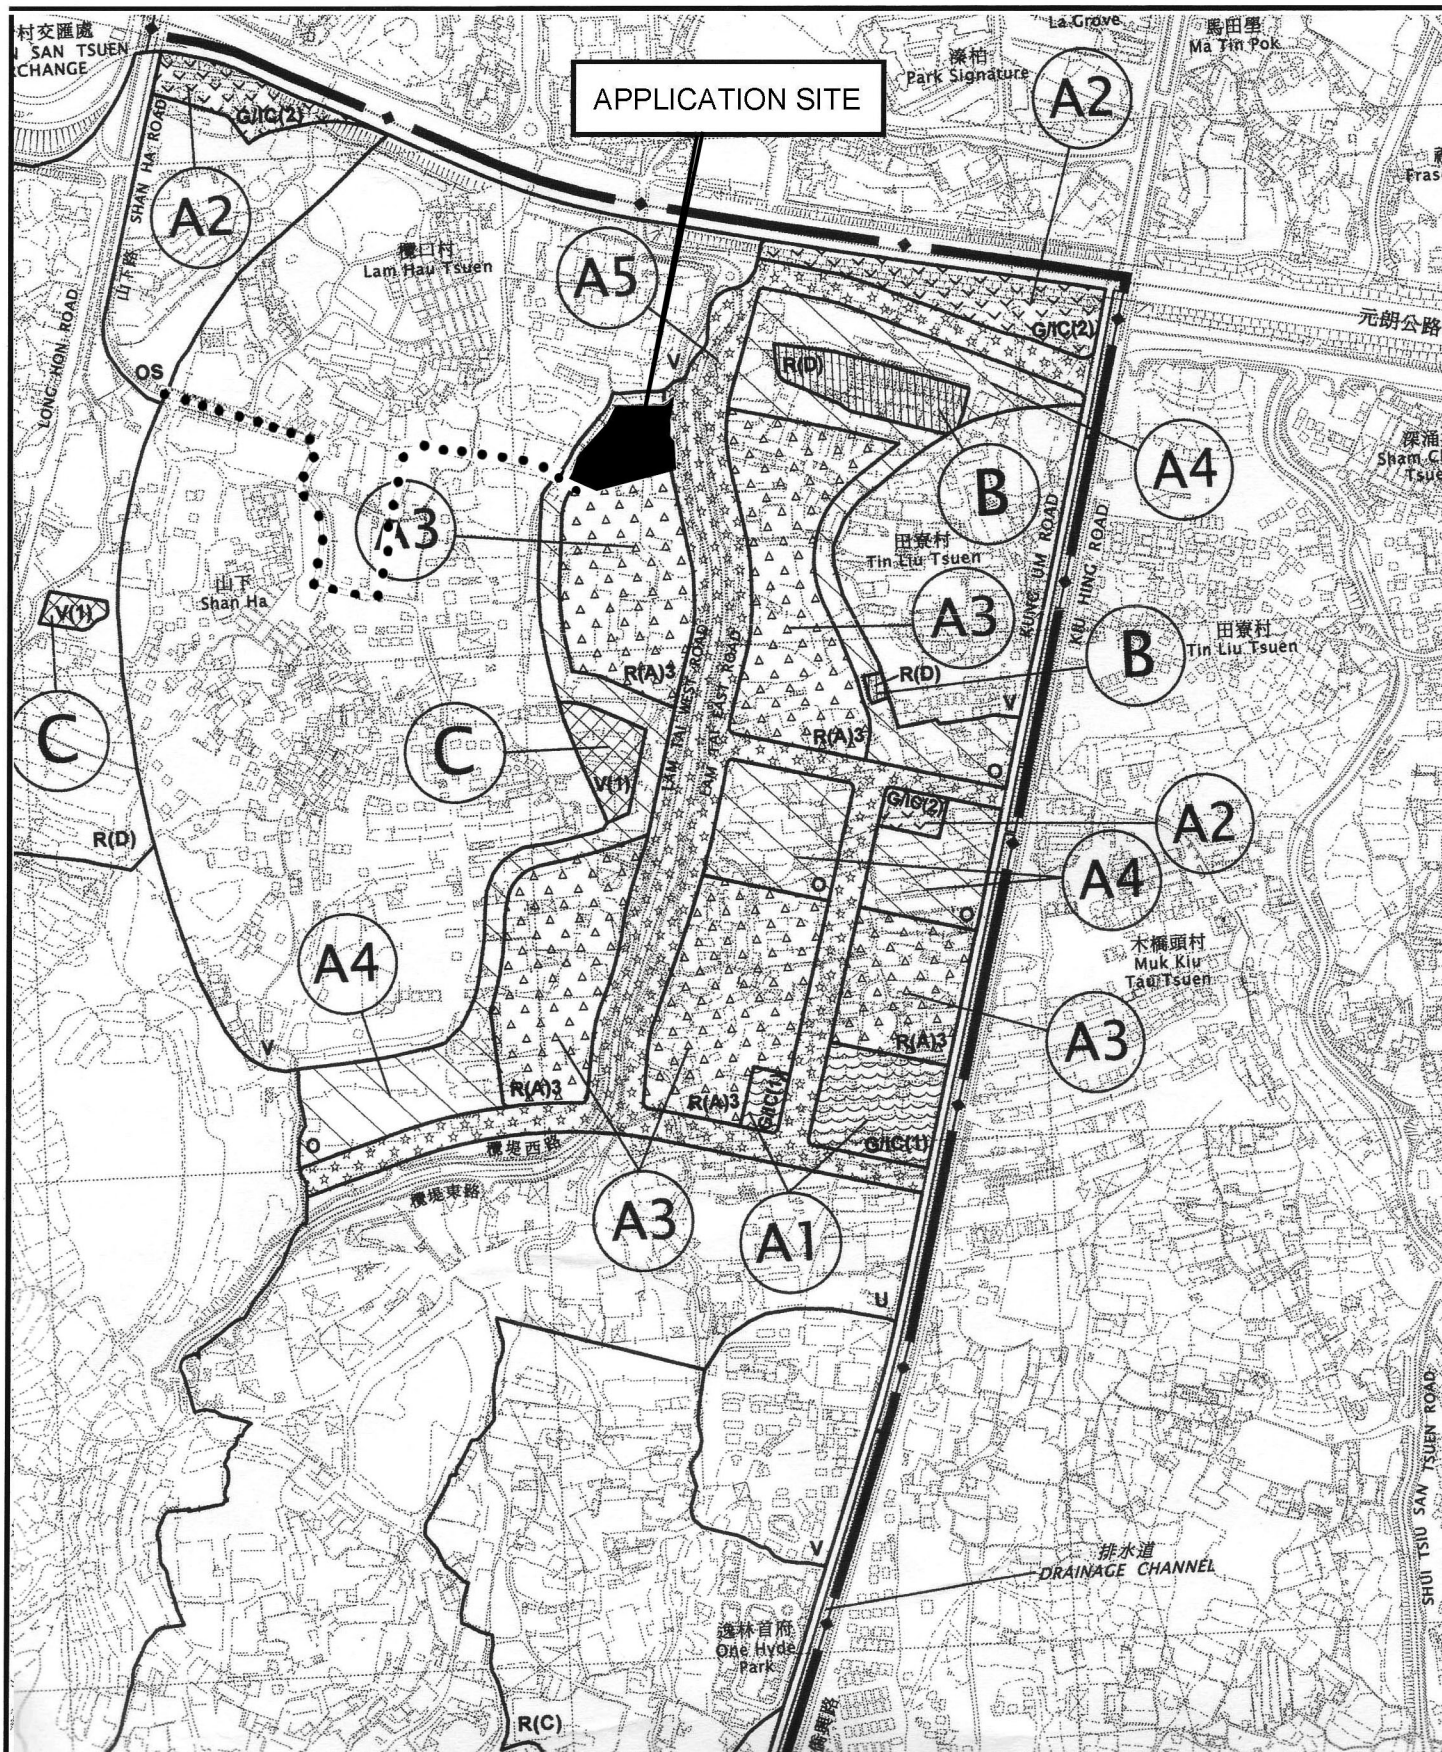

Type of Vehicle	<u>Average Traffic Generation Rate</u> (pcu/hr)	<u>Average Traffic Attraction Rate</u> (pcu/hr)	<u>Traffic Generation Rate at Peak Hours</u> (pcu/hr)	<u>Traffic Attraction Rate at Peak Hours</u> (pcu/hr)
Private car	0.4	0.4	2	2
Medium goods vehicle	0.4	0.4	2	2
Total	0.8	0.8	4	4

Note 1: The opening hour of the proposed development is restricted to 9:00 a.m. to 7:00 p.m from Monday to Saturday. No operation will be held on Sundays and public holidays.

Note 2: The pcu of private car and medium goods vehicle are taken as 1 and 2 respectively.

Note 3: Morning peak is defined as 7:00a.m. to 9:00a.m. whereas afternoon peak is defined as 5:00p.m. to 7:00p.m.

**Town Planning Board Guidelines for  
Application for Open Storage and Port Back-up Uses  
(TPB PG-No.13G)**

On 14.4.2023, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13G) were promulgated, which set out the following criteria for New Development Areas (NDAs):

- (a) The planning for various NDAs (including potential development areas) in the New Territories has been in progress and the land use proposals for some of these areas have been incorporated as appropriate into relevant statutory town plans. The NDAs will be implemented by phases. While it is envisaged that the existing open storage and port back-up uses in these areas will be gradually phased out, sympathetic consideration may be given to applications for continued operation of these uses during the interim period before the sites are required for NDA development.
- (b) For existing open storage and port back-up uses with previous planning approval(s) and/or permitted under the previous Outline Zoning Plans, sympathetic consideration may be given to the application (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant) until the concerned site is required for implementation of NDA development, provided that the relevant approval conditions, if any, have been complied with. Technical assessments, where appropriate, may also need to be submitted to demonstrate that the continued operation of the current uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas and the concerns of the departments and local residents, if any, can be addressed through the implementation of the approval conditions.
- (c) In view of the impending implementation of NDAs, new open storage and port back-up uses are generally not encouraged to infiltrate into the NDAs. However, sympathetic consideration may be given to applications for relocation of the uses/operations affected by government projects to sites designated for development purpose in NDAs (including those planned for GIC and open space developments) as temporary use/ development before these sites are required for NDA development, subject to policy support given by the relevant policy bureau(x) to the application and no adverse departmental comments and local objections, or the concerns could be addressed by approval conditions. There is a general presumption against such uses at sites with land use compatibility issue, e.g. in close proximity to existing residential dwellings which may be subject to environmental nuisances caused by the open storage and port back-up uses. Applications will normally be rejected unless under exceptional circumstances.
- (d) Any approved temporary use and development should not jeopardize the long-term planned development on the respective site/the surrounding area under the NDA and the applicant should be advised that the site would be required by the government at any time during the planning approval period for implementation of government projects.

**Government Departments' General Comments**

**1. Land Administration**

Comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD):

No adverse comment on the application.

**2. Traffic**

(a) Comments of the Commissioner for Transport (C for T):

- no adverse comment on the application from traffic engineering perspective; and
- the local track and footpath leading to the application site (the Site) is not under her purview.

(b) Comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD):

No adverse comment on the application.

**3. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection in principle to the application;
- based on the drainage proposal enclosed in the application, apparently the applicant would maintain the same drainage facilities as those implemented under the previous planning application No. A/YL-TYST/1036; and
- should the current application be approved by the Town Planning Board (the Board), approval conditions requiring the maintenance of the drainage facilities implemented under application No. A/YL-TYST/1036 and the submission of records of the existing drainage facilities on site to the satisfaction of the Director of Drainage Services or of the Board should be stipulated.

**4. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- no objection in principle to the application subject to fire service installations being provided to his satisfaction; and
- having considered the nature of open storage, the following approval condition shall be added:

the provision of fire extinguisher(s) within 6 weeks from the date of planning approval to the satisfaction of D of FS.

## **5. Building Matters**

Comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD):

- no objection to the application;
- as there is no record of approval granted by the Building Authority (BA) for the existing structures at the Site, he is not in a position to offer comments on their suitability for the use proposed in the application; and
- it is noted that six structures are proposed in the application. Before any new building works (including containers/open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are unauthorized building works under the Buildings Ordinance (BO). An Authorised Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO.

## **6. Open Space**

Comments of the Director of Leisure and Cultural Services (DLCS):

- no in-principle objection to the application; and
- his department has no plan to develop the Site into public open space in the coming three years.

## **7. Long-Term Development**

(a) Comments of the Chief Engineer/Cross-Boundary Infrastructure and Development, Planning Department (CE/CID, PlanD):

- the Civil Engineering and Development Department (CEDD) and PlanD jointly commissioned the “Planning and Engineering Study for Housing Sites in Yuen Long South (YLS) – Investigation”. According to the Revised Recommended Outline Development Plan of YLS promulgated in May 2020, the Site falls within areas partly zoned “Residential – Zone 1 (Subsidised Sale Flats with Commercial)” and “Local Open Space” and partly within an area shown as ‘Road’; and
- the objective of YLS development is to transform the degraded rural land predominantly occupied by brownfield operations including open storage yards, warehouses and rural industrial uses into housing and other uses with supporting infrastructure and community facilities, and to improve the existing environment. It is noted that the application is for temporary use for a period of three years. In considering the application for temporary uses, due consideration should be given to the possible implication on land clearance which would affect the future implementation of YLS.

(b) Comments of the Project Manager (West) (PM(W)), CEDD:

No objection to the application.

**8. District Officer's Comments**

Comments of the District Officer (Yuen Long), Home Affairs Department (DO(YL), HAD):

His office did not receive any feedback from locals.

**9. Other Departments**

- Chief Engineer/Construction, Water Supplies Department (CE/C, WSD), Director of Electrical and Mechanical Services (DEMS) and Commissioner of Police (C of P) have no comment on the application.

**Recommended Advisory Clauses**

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (the Site);
- (b) the Site should be kept in a clean and tidy condition at all times;
- (c) to note that the Site might be resumed at any time during the planning approval for implementation of government projects;
- (d) prior planning permission should have been obtained before commencing the applied use at the Site;
- (e) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that:
