7. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
 現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

1. The application site is vacant at the moment.
2. The current application conforms to the Town Planning Board Guideline No. 13G because it is situated within 'Category 2' areas.
3. The proposed warehouses are related to port back-up use because they will be used to store electronic goods and construction materials shipped to the port of Hong Kong and then store at the application site temporarily.
4. The proposed development is a temporary use for a period of 3 years which would not jeopardize the long term planning intention of the current zoning.
5. The proposed development is not incompatible with the surrounding environment including open storage use and port back-up activities.
6. Open storage & port back-up uses adjoining the application site were granted with planning permission. Similar preferential treatment should be granted to the current application.
7. The construction materials and electronic goods to be stored at the application site includes mobile phones, tablets, pipes, metal, sanitary ware and alike.
8. Shortage of land for port back-up purpose in Tong Yan San Tsuen.
9. The planning circumstance pertaining to the application site is similar to the recent approval of adjacent open storage yards and port back-up uses.
10. Minimal traffic impact.
11. Insignificant environmental and noise impacts because the applied use is housed within an enclosed structure and no operation will be held during sensitive hours.
12. Insignificant drainage impact because surface U-channel will be provided at the application site.

8. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in this application and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.
本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

Proposed Temporary Warehouses for Storage of Electronic Goods and Construction Materials for a Period of 3 Years
at
Lot 1291 in D.D. 119, Yuen Long, N.T.

Annex 1 Drainage Assessment

A. Site particulars

- 1.1.1 The application site is accessible via an existing vehicular track leading from Kung Um Road. **(Figure 2)** It possesses an area of approximately 2,580m².
- 1.1.2 The application site had been hard paved.
- 1.1.3 The application site is surrounded by a good number of open storage yards and warehouses.

B. Level and gradient of the subject site & proposed surface channel

- 1.1.4 The subject site has been hard paved and occupied an area of approximately 2,580m². It has a gradient sloping from east to west from about +13.5mPD to +12.2mPD.
- 1.1.5 In order to follow the topography of the application site, the proposed surface channel will be constructed following the gradient of the site. As demonstrated in the calculation in **Annex 1.3** hereunder, 375mm surface U-channel will be capable to drain the surface runoff accrued at the subject site.

C. Catchment area of the proposed drainage provision at the subject site

- 1.1.6 It is noted that the level to the north, south, east and west of the site is lower than or about the same as the application site.
- 1.1.7 As such, no external catchment has been identified.

D. Particulars of the existing drainage facilities to accept the surface runoff collected at the application site

- 1.1.8 According to recent site inspection, a natural drain is found to the west of the application site as shown in the proposed drainage path plan in **Figure 4**.

1.2 **Runoff Estimation & Proposed Drainage Facilities**

A. Proposed drainage facilities

- 1.2.1 Subject to the above calculations, it is determined that 375mm surface U-channel which is made of concrete along the site periphery is adequate to intercept storm water passing through and generated at the application site (**Figure 4**).
- 1.2.2 The intercepted stormwater will then be discharged to the natural drain to the west of the application site via a proposed 375mm surface U-channel outside the application site. (**Figure 4**)
- 1.2.3 The calculations in **Annex 1.3** shows that the proposed 375mm surface channel has adequate capacity to cater for the surface runoff generated at the subject site and the external catchment. A sand trap is proposed at the terminal catchpit.
- 1.2.4 All the proposed drainage facilities, including the section of surface channel proposed in between of the subject site to the open drain, will be provided and maintained at the applicant's own expense. Also, surface U-channel will be cleaned at regular interval to avoid the accumulation of rubbish/debris which would affect the dissipation of storm water.
- 1.2.5 Prior to the commencement of drainage works, the applicant will seek the consent of the District Lands Office/Yuen Long and the registered land owner for any drainage works outside the application site or outside the jurisdiction of the applicant.
- 1.2.6 The provision of the proposed surface U-channel will follow the gradient of the application site. All the proposed drainage facilities will be constructed and maintained at the expense of the applicant.
- 1.2.7 All proposed works at the site periphery would not obstruct the flow of surface runoff from the adjacent areas, the provision of surface U-channel at site boundary is detailed hereunder:
- (a) Soil excavation at site periphery, although at minimal scale, is inevitably for the provision of surface U-channel and landscaping. In the reason that the accumulation of excavated soil at the site periphery would obstruct the free flow of the surface runoff from the surroundings, the soil will be cleared at the soonest possible after the completion of the excavation process.
 - (b) No leveling work will be carried at the site periphery. The level of the site periphery will be maintained during and after the works. As such, the works at the site periphery would not either alter or obstructed the flow of surface runoff from adjacent areas.
 - (c) 100mm openings will be provided at the toe of hoarding so as to allow unobstructed flow of surface runoff to and from adjacent area.

Annex 1.3 Drainage Calculation for the Proposed Provision of Drainage Facilities at Subject Site

1. Runoff Estimation

1.1 Rational method is adopted for estimating the designed run-off

$$Q = k \times i \times A / 3,600$$

Assuming that:

- i. The area of the entire catchment is approximately 2,580m²; & (**Figure 4**)
- ii. The application site is totally hard paved and therefore the value of run-off co-efficient (k) is taken as 1.

$$\text{Difference in Land Datum} = 13.5\text{m} - 12.2\text{m} = 1.3\text{m}$$

$$L = 91\text{m}$$

$$\therefore \text{Average fall} = 1.3\text{m in } 91\text{m or } 1\text{m in } 70$$

According to the Brandsby-Williams Equation adopted from the “Stormwater Drainage Manual – Planning, Design and Management” published by the Drainage Services Department (DSD),

$$\text{Time of Concentration (t}_c\text{)} = 0.14465 [L / (H^{0.2} \times A^{0.1})]$$

$$t_c = 0.14465 [91 / (1.43^{0.2} \times 2,580^{0.1})]$$

$$t_c = 5.59 \text{ minutes}$$

With reference to the Intensity-Duration-Frequency Curves provided in the abovementioned manual, the mean rainfall intensity (i) for 1 in 50 recurrent flooding period is found to be 270 mm/hr

$$\text{By Rational Method, } Q = 1 \times 270 \times 2,580 / 3,600$$

$$\therefore Q = 193.5 \text{ l/s} = 11,610 \text{ l/min}$$

In accordance with the Chart or the Rapid Design of Channels in “Geotechnical Manual for Slopes”, 375mm surface U-channel in 1:45 and 1:80 gradient is considered adequate to dissipate all the stormwater accrued by the application site and the adjacent land.

Annex 2 Estimated Traffic Generation

- 2.1 The application site is accessible via a vehicular access leading from Kung Um Road. Having mentioned that the site is intended for storage of electronic goods and construction materials, traffic generated by the proposed development is extremely insignificant. No medium and heavy goods vehicle exceeding 5.5 tonnes and container trailer/tractor will access the application site. To address the concern of the heavy traffic along Kung Um Road, the proposed development will operate from 9:00a.m. to 5:00p.m on Mondays to Saturdays.
- 2.2 The estimated average traffic generation and traffic generation rate at peak hours are as follow:

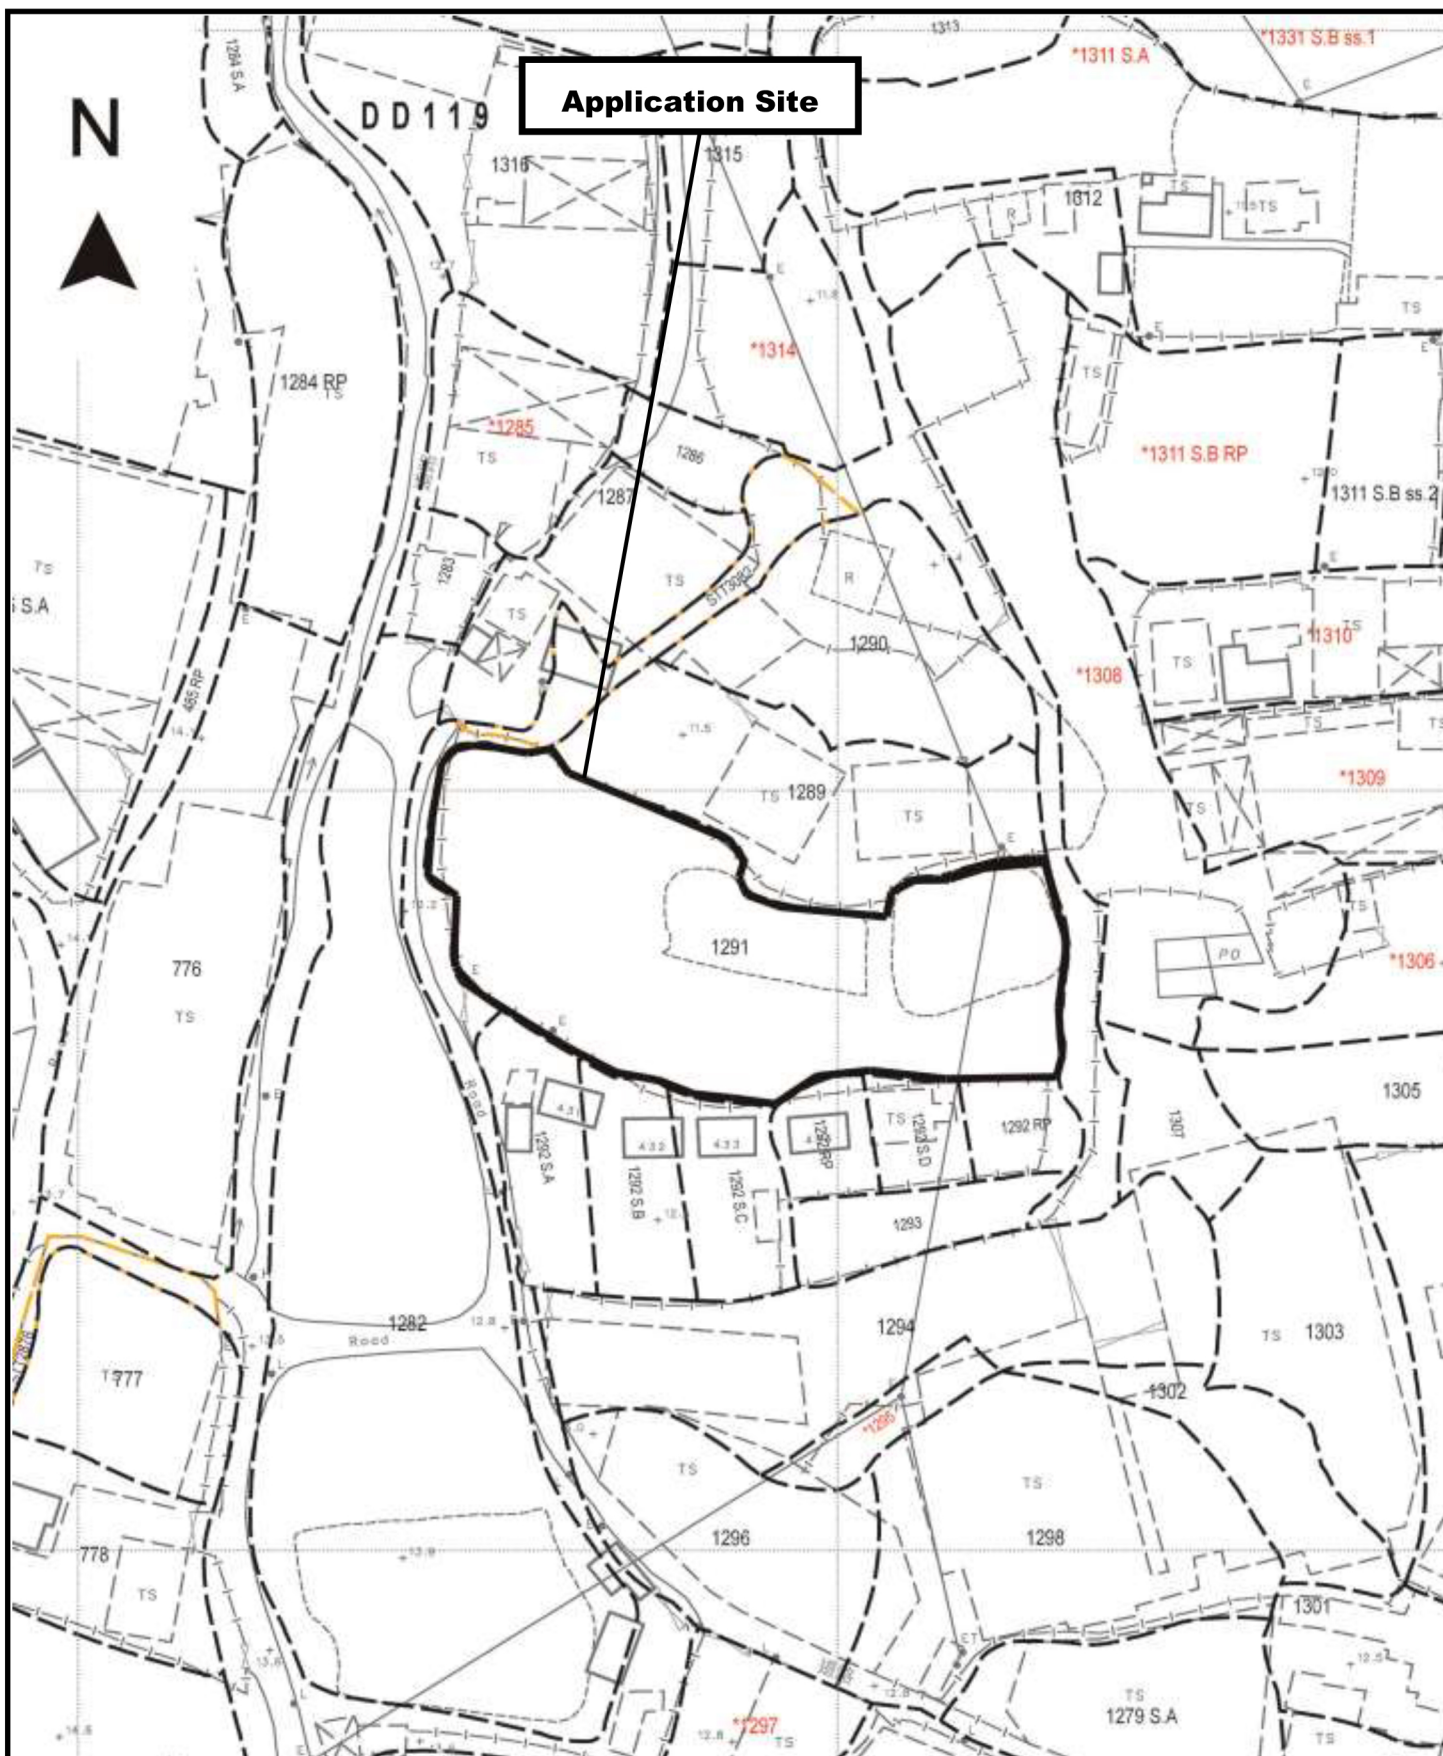

Type of Vehicle	<u>Average</u> Traffic Generation Rate (pcu/hr)	<u>Average</u> Traffic Attraction Rate (pcu/hr)	Traffic Generation Rate at <u>Peak Hours</u> (pcu/hr)	Traffic Attraction Rate at <u>Peak Hours</u> (pcu/hr)
Light goods vehicle	0.38	0.38	0	0

Note 1: The opening hour of the proposed development is restricted to 9:00 a.m. to 5:00 p.m. from Mondays to Saturdays. No operation will be held on Sundays and public holidays.

Note 2: The pcu of light goods vehicle is taken as 1.5.

Note 3: Morning peak is defined as 7:00a.m. to 9:00a.m. whereas afternoon peak is defined as 5:00p.m. to 7:00p.m.

- 2.3 In association with the intended purpose, adequate space for manoeuvring of vehicle would be provided and so queueing up of traffic would not be the result especially that the traffic generated is insignificant. The negligible increase in traffic would not aggravate the traffic condition of Kung Um Road and nearby road networks.

Government Departments' General Comments

1. Land Administration

Comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD):

No adverse comment on the application.

2. Traffic

(a) Comments of the Commissioner for Transport (C for T):

- no adverse comment on the application from traffic engineering perspective; and
- the local track and footpath leading to the application site (the Site) is not under her purview.

(b) Comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD):

No adverse comment on the application.

3. Environment

Comments of the Director of Environmental Protection (DEP):

- no adverse comment on the application; and
- there was one substantiated environmental complaint concerning the Site received in April 2024, which was related to a suspected fly-tipping of construction & demolition (C&D) waste. A large area of the Site was found covered with C&D waste (i.e. rubbles) and fenced off with steel sheets. However, no dumping activity was observed during the six inspections conducted by his department from April to August 2024 and hence no enforcement action could be taken at this stage.

4. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection in principle to the application from a drainage point of view; and
- should the application be approved by the Town Planning Board (the Board), approval conditions requiring the submission, implementation and maintenance of a revised drainage proposal to the satisfaction of the Director of Drainage Services or of the Board should be stipulated.

5. Fire Safety

Comments of the Director of Fire Services (D of FS):

No objection in principle to the application subject to fire service installations being provided to his satisfaction.

6. Building Matters

Comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD):

- no objection to the application; and
- it is noted that eight structures are proposed in the application. Before any new building works (including containers/open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are unauthorized building works under the Buildings Ordinance (BO). An Authorised Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO.

7. Long-Term Development

(a) Comments of the Chief Engineer/Cross-Boundary Infrastructure and Development, Planning Department (CE/CID, PlanD):

- the Site has been included in the possible expansion of Yuen Long South (YLS) Development Area. The Civil Engineering and Development Department (CEDD) and PlanD are currently undertaking an Intensification Review on Third Phase Development (the Review) which would explore the possibility to expand the Development Area by covering the adjacent rural land occupied by haphazard open storages, rural workshops and warehouses, which are mostly operating in temporary structures. Depending on the results of the Review and the timetable for the implementation of the YLS Development, the applicant should be aware of the possible implication on land clearance; and
- it is noted that the application is for temporary use for a period of three years. In considering the application for temporary uses, due consideration should be given to the possible implication on land clearance which would affect the future implementation of YLS.

(b) Comments of the Project Manager (West) (PM(W)), CEDD:

No objection to the application.

8. District Officer's Comments

Comments of the District Officer (Yuen Long), Home Affairs Department (DO(YL), HAD):

His office has not received any comment from the village representatives in the vicinity

regarding the application.

9. Other Departments

The following departments have no comment on the application:

- Chief Engineer/Construction, Water Supplies Department (CE/C, WSD);
- Director of Electrical and Mechanical Services (DEMS); and
- Commissioner of Police (C of P).

**Appendix IV of RNTPC
Paper No. A/YL-TYST/1276**

Recommended Advisory Clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (the Site);
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that:
 - (i) the Site comprises Old Schedule Agricultural Lot 1291 in D.D. 119 held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government;
 - (ii) the lot owner(s) shall apply to his office for a Short Term Waiver (STW) to permit the structure(s) erected within the said private lots. The application for STW will be considered by the Government in its capacity as a landlord and there is no guarantee that it will be approved. The STW, if approved, will be subject to such terms and conditions including the payment of waiver fee, ~~rent~~ and administrative fee as considered appropriate by his department. Besides, given the applied use is temporary in nature, only erection of temporary structure(s) will be considered; and
 - (iii) the programme of Yuen Long South (YLS) Development should be taken into account when drawing up the STW boundary and layout of structures to be built on site. All STWs affected will have to be terminated upon land resumption and the Site will be cleared in accordance with the Civil Engineering and Development Department's (CEDD) scheduled programme;
- (c) to note the comments of the Commissioner for Transport (C for T) that:
 - (i) consent of the owners/managing departments of the local track and footpath should be obtained for using it as the access to the Site; and
 - (ii) sufficient manoeuvring space should be provided within the Site. No vehicles are allowed to queue back to public roads or reverse onto/from public roads;
- (d) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department (CHE/NTW, HyD) that:
 - (i) adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public roads and drains; and
 - (ii) the access road connecting the Site with Kung Um Road is not and will not be maintained by his office. His office should not be responsible for maintaining any access connecting the Site with Kung Um Road;
- (e) to note the comments of the Director of Environmental Protection (DEP) that:

the relevant mitigation measures and requirements in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" should be followed to minimise any potential environmental nuisances on the surrounding area;
- (f) to note the general comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) and his specific comments on the submitted drainage proposal that:
 - (i) the cover levels and invert levels of the proposed u-channels, catchpits/sand traps should

be shown on the drainage plan;

- (ii) cross sections showing the existing and proposed ground levels of the Site with respect to the adjacent areas should be given;
 - (iii) the existing natural drain, to which the applicant proposed to discharge the stormwater from the Site was not maintained by his office. The applicant shall resolve any conflict/disagreement arisen for discharging the runoff from the Site to the proposed discharge point(s). In the case that it is a local village drains, District Officer (Yuen Long) of Home Affairs Department should be consulted. Moreover, the applicant should ensure that this drainage system and the existing downstream drains/channels/streams have adequate capacity to convey the additional runoff from the Site. Regular maintenance should be carried out by the applicant to avoid blockage of the system;
 - (iv) further to (iii) above, since there is no record of the said discharge path, site photos (especially the proposed discharge points) should be provided to demonstrate its presence and existing condition;
 - (v) the applicant should confirm if any walls or hoarding are/to be erected or laid along the site boundary. If affirmative, adequate opening should be provided to intercept the existing overland flow passing through the Site and its details should be provided for comments;
 - (vi) the development should neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas, etc.; and
 - (vii) any conflict/disagreement with relevant lot owner(s) should be resolved and permission from the DLO/YL, LandsD should be sought for laying new drains/channels and/or modifying/upgrading existing ones in other private lots or on Government Land, where required, outside the Site;
- (g) to note the comments of the Director of Fire Services (D of FS) that:
- (i) in consideration of the design/nature of the proposal, fire service installations (FSIs) are anticipated to be required. Relevant layout plans incorporated with the proposed FSIs should be submitted to his department for approval;
 - (ii) the layout plans should be drawn to scale and depicted with dimensions and nature of occupancy, and the location of proposed FSIs to be installed should be clearly marked on the layout plans; and
 - (iii) if the proposed structures is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire services requirements will be formulated upon receipt of formal submission of general building plans;
- (h) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
- (i) the Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively;
 - (ii) the Site does not abut on a specified street of not less than 4.5m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at

building plan submission stage;

- (iii) if the existing structure is erected on leased land without the approval of the Building Authority (BA), they are unauthorized building works (UBW) under the BO and should not be designated for any proposed use under the application;
 - (iv) for UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - (v) any temporary shelters or converted containers for office, storage, washroom or other uses considered as temporary buildings are subject to the control of Part VII of the B(P)R; and
 - (vi) detailed checking under the BO will be carried out at building plan submission stage;
- (i) to note the comments of the Director of Electrical and Mechanical Services (DEMS) that:
- in the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organizing and supervising any activity near the underground cable or overhead line should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site. They should also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the “Code of Practice on Working near Electricity Supply Lines” established under the Regulation when carrying out works in the vicinity of the electricity supply lines; and
- (j) to note the comments of the Project Manager (West) (PM(W)), CEDD that:
- based on the preliminary project boundary of the proposed YLS Development Area, the Site falls within the possible expansion of YLS Development Area which is being reviewed together with YLS Third Phase Development. As the YLS Third Phase Development is subject to further review, the applicant should be aware of the possible implication on land clearance in relation to the implementation of YLS Development Area. Detailed implementation programme with phasing and packaging of works for YLS Third Phase Development is being formulated.
