The justifications for conversion of an existing shop to a tutorial school are listed in the following:

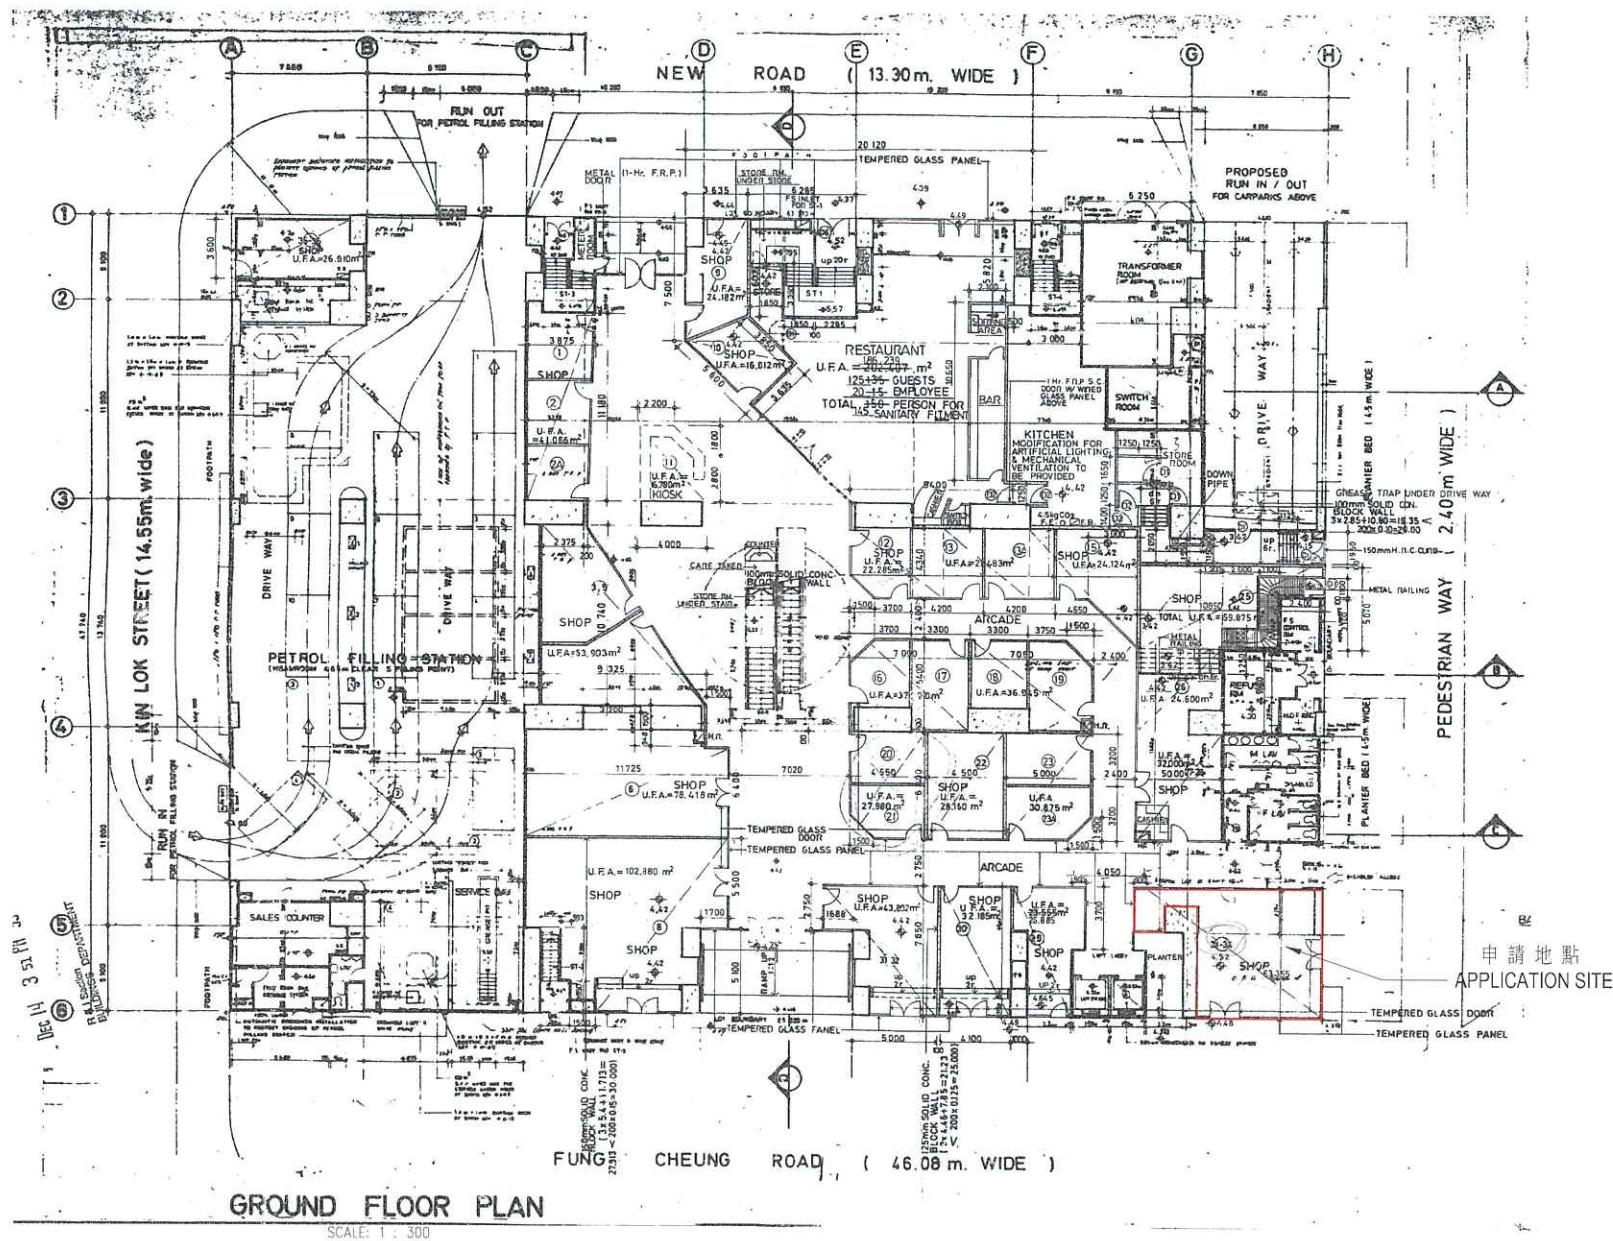

1. The Transport Plaza merely provides carparking facilities and shopping mall for the visitors to Yuen Long. The owner reported that recently quite a number of potential tenants had inquired on the possibility of running tutorial schools in the premises indicating that the need of such services in the area is identified.
2. Recent Yoho Development nearby for shopping malls and residential towers attract new population to Yuen Long. It provides leisure for the visitors and home for thousands of young family hence the imminent need for tutorial schools.
3. Whilst the Yoho Malls at the vicinity give magnificent shopping experiences to the public, change in use for the shopping arcade at the Transport Plaza to suit the market appears inevitably necessary. It is remote from the busy areas with no amusement game centers or bars at the vicinity hence desirable for the tutorial school.
4. The Yoho development provides associated flyover network linking to Yuen Long, providing pedestrian passages without crossing the roads with busy traffic. The subject shop is located on ground floor, the first stop for the children from the pedestrian flyover from Yoho Development on the opposite site of the street.
5. The change to a tutorial school will not adversely affect the Means of Escape as well as structural stability of the Plaza since the subject premise is on the Ground Floor. Lavatories and access for people with disability are also provided at the proximity as shown in the attached plans.
6. The increase of temporary population arising from the change of use from shop to tutorial school will be minimal and there results in no adverse effect to the present situation. The tutorial school, unlike purpose-built school, is relatively small in size and aims at serving local population, hence would not attract obviously additional traffic or have any implication to the existing road network.
